

**LYKNU POLISH**

**Demonstration and House-to-House Canvass**

**The One-Cloth Polish**

In our windows, a representative from the LYKNU POLISH factory will demonstrate the many qualities that this widely advertised Polish has. Step in and let her show you just what it can do to make your furniture look like new, with much less hard work than ordinarily.

Use one cloth with a little of this Polish, and save three-fourths of the time, four-fifths of the work, and one-half the cost of polishing with ordinary polish. It does not leave a film of oil to catch the least particle of dust, but leaves an absolutely dry, clean, lustrous finish—just like new.

Use it on the most delicate finish in mahogany, oak, walnut, chestnut and for hardwood floors, wainscotings, etc. Your automobile will look 100 per cent better, after an application of LYKNU POLISH.

We will also make a house-to-house canvass this week. Give the canvasser a chance to show its worth to you. Ask her for a little pamphlet describing the merits of LYKNU POLISH.

**A MEASURING INSTRUMENT**

Has Been Installed in the Homer Fitts Co.'s Store.

The newest thing in the line of store equipment in Barre is the measuring instrument placed in the Homer Fitts Co. store for the purpose of measuring cloth and at the same time computing the cost of the goods measured. In some respects the measuring instrument corresponds to the computing scales used by many grocers at the present time.

The instrument was set up in the Homer Fitts store yesterday afternoon and has been examined by a representative of the state weights and measures department, after which it was approved and sealed for use in the store. The device is simple, small, handy, easily operated and accurate. It is fastened to the back of the counter.

The measuregraph is designed to measure many kinds of goods, from dress goods to stripes of ribbon. When the saleslady makes a sale of cloth she places the goods in the mouth, or jaws, of the instrument and with a gentle sweeping motion pulls it through until the dial on the instrument shows she has measured off just what is asked for. As the goods pass through, the saleslady determines the cost of the purchase to the cent, the figures showing on the dial.

By the introduction of this machine, the Homer Fitts Co. expects to expedite the sales of goods considerably, as well as to give most accurate measurements and computations.

**Card of Thanks.**

To the friends and neighbors who bestowed their kindness and sympathy both during the illness and at the death of our loved one, we tender our heartfelt thanks.  
Mrs. Robert McKnight and family,  
Mr. and Mrs. Robert McKnight, jr., and family,  
Mr. and Mrs. Forrest Chapin and family.

Good-looking hair, thick and lustrous, is easy to have if you use Parisian Sage two or three times a week. Positive cure for dandruff and itching scalp. Sold under guarantee by E. A. Drown & Co.—Adv.

Netops, attention! Witches and spirits of darkness of the Netop class will hold a thundering, blood-curdling social at Mrs. H. Stewart's, 81 Washington street, Tuesday, Oct. 28, at 8. Gentlemen invited. Be sure and come masked. P. S.—Bring pennies and nickels.

The hearing of the petition of the Granite Manufacturers' association, which was brought before the public service commission last week at the State House in Montpelier and was adjourned last Friday evening until Wednesday of this week, will be taken up to-morrow morning at 9 o'clock.

This hearing resulted from an increase in electrical rates that amounts to a vast amount of money to the manufacturers of Barre alone, to say nothing of those in surrounding towns. It is expected that a large number of the manufacturers will be present in the Senate chamber when the session begins to-morrow morning.

The various state commissioners of education throughout the United States have a reciprocal arrangement in securing for the benefit of the scholars of their state stereoscopic views of another state's chief industry. These are exhibited in the schools for educational purposes to that a good idea of the other state's industries, other than that in which the student may be living, may be left on his mind. State Commissioner H. B. Hillegas of Vermont finds that many New England educational departments desire to receive those of Vermont, especially stereoscopic views of the granite industry. For this reason Commissioner Hillegas has had some views prepared, but before submitting them to be exhibited he wishes to have them sanctioned by examiners acquainted with the industry in all its phases. The matter of choosing these authorities were left to Secretary Athol Bell of the Granite Manufacturers' association, who appointed the following committee: John C. Booth, W. A. Murray and H. W. Varnum.

Superintendent J. W. Mann of the Central Vermont railroad came from St. Albans yesterday, together with Assistant Superintendent G. W. Groom and a committee of three, appointed as a safety first sub-committee to improve the conditions in the Barre and Montpelier railway yards. The committee consists of Civil Engineer J. M. Morrison, W. H. Hale, a locomotive engineer, and W. B. Center, a train conductor, all of whom are from St. Albans. These men have been ordered to visit each granite manufacturing concern to ask their sincere co-operation and to improve the conditions about their premises wherever there is an obstruction or means of such to a brakeman or workman running along the track at any time during the year. If there is a steam pipe which in winter causes ice to form near the track and thereby obstruct the passage of a brakeman in running beside the cars, this will be eliminated. And the same applies in the granite district where large stone chisels are allowed to slide down to the track siding. Any hazardous object, whatsoever, will have to be discarded, and it is the duty of these men to see that such is done. They have authority to condemn any practice or unsafe condition. All over the country the railroads are working hand in hand and in accordance with the national accident preventive organization, which has headquarters in Washington, D. C. After the committee have made a survey of all the conditions in the granite district, they will confer with the granite manufacturers to make conditions in the future much safer for all, and to eliminate, if possible, all accidents in the railway yards.

Regular stated conference of Vermont Granite Lodge, No. 20, K. of P., Tuesday night, Oct. 28, at 7:30. Work, rank of page. Per order C. C.

The annual meeting of the sixth Masonic district will be held with Granite lodge, No. 35, F. and A. M., Barre, on Wednesday, Oct. 29, at 3 p. m. The first section of the M. M. degree will be conferred in the afternoon. Banquet served by Ruth chapter, O. E. S., at 6 p. m. Per plate, 75c. Reception of grand lodge officers and conferring of second section of M. M. degrees at 7:30 p. m. Review of work and addresses by grand lodge officers at the close. A cordial invitation is extended to all Master Masons in good standing to be present at this meeting. Tickets for the banquet may be had at city clerk's office, Tilden Shoe store or at C. W. Averett & Co.'s, William Ferry, D. D. G. M.

**TALK OF THE TOWN**

Dr. J. M. Blake of Barton was a visitor in Barre yesterday.  
Gerald Tripp of Williamstown was among the business visitors in Barre yesterday.  
Mrs. George Robins resumed her duties at the Granite Manufacturers' association office yesterday morning after a two weeks' absence.  
Mr. and Mrs. William Ducat of Plattsburg, N. Y., are visiting for a few days at the home of Mrs. Ducat's brother, John Papin, of Elm street.

The more than thirty flat cars counted on the Central Vermont tracks yesterday afternoon between Berlin street and Granite street in one train must be some relief to the granite industry in Barre.

Presented by a cast which was admirably fitted for each part, "Oh, Lady, Lady," given at the Barre opera house last evening, was a real success. That can be said without straining the truth. The plot of the musical production is more well-defined than in some of the plays of a similar nature, and the audience was able to hang onto the current of the story without extra strenuous effort, thus permitting it to enjoy the real humor of the piece and the presentation. Marjorie Edwards played the part of Mollie Farrington and Billy Newkirk that of Wiloughby French, the young couple about whose wedding the play revolves. They were good in voice and in action. Even more so, perhaps were Dan Dawson as Spike Hudgins and Ann Paige as Fanny Welch, who first made their living by thievery and then fell under the spell of love. Clara Freeman as May Barber and Clyde Hunsweil as Hale Underwood provoked many a laugh in their love-making and side-play. And so on down the list, there were no misfits whatever, the result being a well-balanced production, which pleased an audience that filled every available seat in the theatre. It was a real "capacity house."

Moerill W. R. C. will hold a special meeting for practice, Thursday, Oct. 30. A good attendance is requested.  
Henry Mills, a cadet at Norwich university, was a visitor at J. T. Drew's over Sunday.

Mr. and Mrs. E. J. Rogers are stopping with his father, B. G. Rogers, while Mrs. Rogers is in the Mary Fletcher hospital.

Mr. and Mrs. Leslie Russell of Barre, accompanied by Mrs. Ola Wood and son, were visitors at Hiram Russell's Sunday. Mrs. Wood's little daughter, Virginia, returning home with her grandparents.

Thomas Osmond of Concord was an over-Sunday visitor of Cabot friends.

The friends of Mrs. S. J. Norris and Mrs. B. G. Rogers are glad to hear they are both getting along well and making good recovery from recent operations at Mary Fletcher hospital.

David Erie and family of Craftsbury recently visited their aunt, Miss Margaret Cunningham.

There will be an entertainment at the M. E. church Tuesday evening, Oct. 28, given by Mr. and Mrs. Marsh. Mr. Marsh is an impersonator and ventriloquist, while she is a fine reader. They also play the bells and cathedral chimes. Come and hear them—a first-class entertainment in every respect.

A special meeting of the engineers' local, 423, will be held in the gymnasium, upper Graniteville, on Wednesday evening, Oct. 29, at 7 o'clock. Business, to hear the report of the conference committee.

**ALWAYS TIRED AND WITHOUT AMBITION FOR DAILY TASKS**

**New Hampshire Woman Finds Tonic That Enriches Her Blood and Strengthens Her Nerves.**

"I was very weak and run down and seemed to have stopped all the time and without ambition for my work," says Mrs. George D. Wolcott, of No. 65 Pleasant street, Claremont, N. H. "I couldn't sleep and was so nervous that the slightest unusual noise upset me. I felt as tired in the morning as when I went to bed and couldn't enjoy my food for it always caused distress. My eyes bothered me too, and I couldn't read. My heart palpitated and I suffered from shortness of breath when I exerted myself."

"I saw an announcement of Dr. Williams' Pink Pills in a newspaper and procured a box. After a week's treatment I saw a decided improvement in my condition and continued taking the remedy until I had not only regained my strength but had taken on weight. I now feel better than I have for years. I am no longer weak or tired, the heart palpitation has stopped and I do my work without tiring easily. I attribute my recovery to Dr. Williams' Pink Pills and gladly recommend them."

Dr. Williams' Pink Pills are sold by all druggists, or direct from the Dr. Williams Medicine Co., Schenectady, N. Y., at 30 cents per box, six boxes for \$2.50, postpaid, on receipt of price. Write for the free booklet, "Building Up the Blood."—Adv.

**What other phonograph dares this test?**

DID you ask someone about the Edison Tone-Test recital given last Wednesday evening in the Barre Opera House? The startled audience heard Claire Lillian Peteler's living voice flood the packed house. It then heard the New Edison... match that voice, even unto its finest variation of shading and feeling. It heard Sibyl Sanderson Fagan repeat the experiment with her whistling selections,—and again the New Edison matched every quality of those fluted tones. Anyone who was present will tell you.

The art of the living artist and its RE-CREATION by the New Edison can not be told apart.

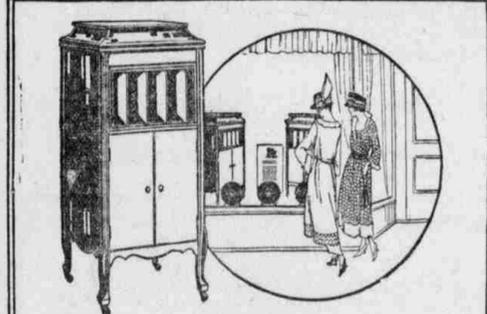

It is no idle phrase that you can enjoy Case, Middleton, Hempel, Matzenauer, Spalding—in your own home. The New Edison brings all that the great artist can bring, except his physical presence. It is the phonographic triumph of the age.

**The NEW EDISON**  
"The Phonograph with a Soul"

Come in and hear this wonder for yourself—the Three Million Dollar Phonograph... that RE-CREATES the very soul of music.
