Several heavy limbs from trees were blown onto the sidewalk by the heavy winds which prevailed yesterday and on several occasions limbs fell from considerable heights to the sidewalks, nearly hitting pedestrians.

A little work with the saw and axe on the numerous shade trees might be the means of saving a life or saving from damage pieces of property that might be hit by a falling limb of a tree.

A large number of the members of the Barre Woman's club and others interested in birds, including 400 children, availed themselves of the opportunity of hearing Mrs. Colton in her talk about birds at the Howland hall yesterday afternoon before the club.

She showed her complete mastery of the subject and her study of nature and bird life by her whistled notes and her thorough handling of the subject.

A number of granite manufacturers went to Montpelier this morning, where the hearing of the Tenney Service commission before the public service commission was continued at 9 o'clock in the Senate chamber of the State House.

Willis Venable, a representative of the Ingersoll Rand company, who is employed by the W. G. Reynolds & Son firm to keep in repair the machinery of this make in the Barre granite district, and by the Ingersoll Rand company to cover the territory in western Maine, New Hampshire and most of Vermont, is preparing to move his family to Barre. Mr. Venable and family resided in this city until two years ago, moving then to Manchester, N. H.

The Roosevelt memorial fund campaign, which for the past week has been conducted in many large states, is soon to be launched here in Barre. City Clerk James Mackay, who will have charge of the canvassing and preparing of the local quota, is making preparations for this work and expects to get it going by the latter part of this week.

The national committee, that is composed of America's most notable men, has assumed the expense of starting this movement, since all of them were intimate friends of the late Theodore Roosevelt and wish to see memorials all over the country erected in honor of this great American statesman, whose services to his country were inestimable.

The principal effort is for a monumental memorial erected in Washington, D. C.; acquiring, developing and maintaining a park in the town of Oyster Bay, which may ultimately, perhaps, include Sagamore Hill to be preserved like Mount Vernon and Mr. Lincoln's home at Springfield, Ill. The monument to be erected in Washington will surpass any other country has ever known, for it is to be a beautiful and costly piece of art, which may be cut of Barre granite. The garden at Oyster Bay, the cherished home of Theodore Roosevelt, will be designed to attract from all parts of the country the tourists who wish to see an elaborate memorial and national garden.
