

MUCH DONE BY CONGRESS

In Spite of Time Given in Senate to the Versailles Treaty

WOMAN SUFFRAGE AMENDMENT PASSED

Prohibition Enforcement Carried Over Wilson's Veto

Washington, D. C., Nov. 20.—While consideration of the treaty of Versailles was the outstanding event of the first session of the 66th Congress—the first in six years in which Republicans have controlled both branches—considerable important legislation was completed and many other measures prepared for disposal when the regular meeting begins Dec. 1.

The session closing last night was an extraordinary one convened May 19, under a call called from Paris by President Wilson to consider primarily the appropriation bills which failed at the session ending last March 3.

Among the principal legislative achievements were: Submission of the woman suffrage constitutional amendment to the states for ratification. The amendment resolution was adopted 304 to 89 by the House as its first legislative act and by the Senate June 4, 56 to 25.

The prohibition enforcement bill, providing for enforcing war-time and constitutional prohibition, passed over President Wilson's veto.

The act repealing the daylight saving law also passed over the president's veto.

Providing for return of telegraph, telephone and cable wire lines to private operation.

Continuing government control of dredges to Jan. 15, next.

Extension of the Lever food and fuel control law to clothing and other necessities and penalizing hoarding and profiteering.

Granting permanent rank to General Pershing.

Providing for demobilizing the army to a peace basis of approximately 300,000 men, pending permanent peace-time legislation.

Authorizing completion of the government railroads in Alaska.

Continuing war-time passport restrictions so as to prevent an influx of radical aliens.

Ten appropriation bills aggregating about \$3,000,000,000 also were passed. They included \$750,000,000 for the railroad administration, \$772,000,000 for the army, \$610,000,000 for the navy, and a sundry civil budget of \$613,000,000.

Numerous minor bills and resolutions also were enacted but no attempt was made to pass over the president's veto the Cummins bill to restore the pre-war rate-making powers of the interstate commerce commission.

The German treaty so engrossed Senate attention that it shut-off consideration of much legislation. Senate discussion of the treaty began May 23, but the document itself was not submitted by President Wilson until July 10. Committee hearings and consideration required two months, the report with 14 reservations being made to the Senate Sept. 10.

Deliberations on the treaty evoked one of the most bitter and prolonged contentions between Congress and the president in American history, with the controversy centered largely about the league of nations covenant.

The French treaty, providing an American guarantee to assist France in the event of unprovoked German aggression was submitted to the Senate by the president July 29, after demands from Senate Republicans, but still remains in the foreign relations committee.

Another treaty, the Panama canal settlement with Colombia proposing payment of \$25,000,000 by the United States also remains in the committee. It was reported to the Senate but later withdrawn because of Colombian decrees regarded as inimical to American interests.

Several important legislative measures went over for final action at the regular session. The oil, coal, gas and phosphate land leasing bill was passed by both bodies and remains in conference, as does the Edge bill authorizing organization of corporations to help finance American export trade.

The Each railroad bill passed the House and will be taken up with the Senate interstate commerce commission's bill at the December session. The House also passed and sent to the Senate bills providing for development of water power projects, for establishment of a federal budget system and providing a permanent government shipping policy.

Numerous investigations. There were numerous investigations during the extra session. Besides the House inquiries into aviation, ordnance contracts and other war department activities, the Senate investigated the steel strike, Mexican situation, the coal situation and other matters. The Senate also authorized investigation of the print paper trade but deferred the inquiry until the new session.

Preliminary steps looking to revision

Liquid or Jell Form

Hood's Sarsaparilla

Keeps on succeeding where other medicines fail because its original high standard of merit is conscientiously maintained. Good for blood, STOMACH, LIVER, KIDNEYS.

Ask your druggist how good it is.

of tariff and internal revenue laws also were taken, with general revision planned during the regular session. Effort to repeal war taxes on soft drinks and other luxuries failed.

Permanent legislation was advanced both by the Senate and House military committees which completed hearings on peace-time army proposals and are prepared to present bills in the new session providing for a permanent army of about 300,000 men, as compared with the war department's request for 500,000.

Bills to increase pay of the navy personnel also are in readiness.

Controversies during the extra session resulted from opposition to Senate confirmation of Attorney General Palmer and Comptroller of Currency John Skelton Williams. The former was confirmed, but the latter nomination is still pending.

The House refused to seat Representative Victor Berger, Socialist, of Milwaukee, because of his attitude during the war; and ousted John F. Fitzgerald, Democrat, Massachusetts, whose election was contested by Peter F. Tague of Boston.

PLAN BOMBS AS CHRISTMAS PACKAGES

Discovery of New Plot of "Reds" to Slay Public Officials During Holidays.

Philadelphia, Nov. 20.—Discovery of a "red" plot to slay officials with explosive Christmas mail packages was announced yesterday by Superintendent of Police James Robinson.

Information of the plot which is considered reliable, indicates it was nationwide and directed against federal, state and city authorities who took part in the national roundup of radicals planning to overthrow the government.

Immediate steps were taken to prevent federal investigators, postal authorities and police of large cities for action against the "mail terror," which is scheduled to begin shortly before the Christmas holidays.

Evidence of the existence of a plot to send bombs through the mails under ribbons and holly, was reported to Superintendent Robinson by Andrew Emmanuel, head of the "bomb squad," who said he discovered it during his investigation of radical activities here.

PRINCE VISITS WEST POINT

To Review Famous Dress Parade of the Cadets on the Plains

WILL GIVE DINNER ON RENOWN TO-NIGHT

Heir to British Throne Has Been Having a Gay Round

New York, Nov. 20.—The prince of Wales obtained a respite to-day from the strenuous rounds of public and private functions that have marked his two days' visit to New York by journeying to the United States Military Academy at West Point to review the famous dress parade of the cadets on the plains. Before he boarded his special train, the prince expressed his eagerness to see the world-famous school and took special delight in the prospect of having lunch with the cadets.

The prince will return to New York to-day. In the evening he will give a dinner on board H. M. S. Renown, anchored in the North River.

SULLIVAN HELD.

Authorities Believe They are on Trail of Wall Street Robbers.

New York, Nov. 20.—David W. Sullivan, a member of the Consolidated Stock exchange, who was arrested on Tuesday charged with larceny and criminally receiving two Crucible Steel certificates valued at \$5,400, was held in \$75,000 bail yesterday for a hearing Monday. The police expressed confidence when they arrested Sullivan that they had hit upon a trail which ultimately would clear up several robberies which have mystified Wall street and in which disappearing messenger boys have played a prominent part.

THREE POLICEMEN OF NEW YORK DEAD

Were in Launch Which Capsized in Harlem River—Body of One Was Wedged in Boat.

New York, Nov. 20.—Three members of the marine division of the police department are believed to have lost their lives when a launch in which they were patrolling the Harlem river capsized under the Third avenue bridge.

A pack hit boat came from the launch drifting bottom up. When the police car was sighted the body of Patrolman James Hughes was found wedged in the cabin. His two comrades are still missing.

SCIENTIFIC WORLD ANARCHY.

Conservative Element Called Upon to Defend Laws of Gravitation from Radicals.

Their minds properly detached from and oblivious to the swirling events of the day that engage the interest of most of us, the men of science are serenely pursuing their customary vocation. Unmindful of the eccentricities of the law of supply and demand, so vexing to their fellow mortals, they are interested only in the unfathomable, perhaps, unfathomable, mysteries of creation itself. Just now they seem to be concerned particularly with the law of gravitation.

Isaac Newton is coming in for some hard knocks. As the circumstances are recalled of the discovery which we have supposed made his title clear to a permanent residence among the immortals, he was taking a nap in the shade of an apple tree when a windfall dropped on his nose. Anybody but a scientist would have been vexed to be so rudely awakened, but Dr. Newton, his mental energies agreeably stirred, proceeded to ask himself why the apple did not fall up, or sideways, instead of down. At supper time he had evolved the law of gravitation, which, simply stated, is: "What goes up must come down, on your head or on the ground."

It has been described as the broadest and most fundamental law in all physical sciences of universal application, unique among the laws of nature. It rules the courses of the stars as well as accounting for the fall of an apple. Until now it has been believed to be impregnable. But modern science is threatening it with doubts. There are scientists who are likely to overthrow the law of gravitation. They are called "radicals" and they are not to be trifled with.

The beautiful, even shade of dark, glossy hair can only be had by brewing a mixture of Sage Tea and Sulphur. Your hair is your charm. It makes or mars the face. When it fades, turns gray or streaked, just an application or two of Sage and Sulphur enhances its appearance a hundredfold.

Don't bother to prepare the mixture; you can get this famous old recipe improved by the addition of other ingredients at a small cost, all ready for use. It is called Wyeth's Sage and Sulphur Compound. This can always be depended upon to bring back the natural color and lustre of your hair.

Everybody uses "Wyeth's" Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through the hair, taking one small strand at a time; by morning the gray hair has disappeared, and after another application it becomes beautifully dark and appears glossy and lustrous.—Adv.

FLOUR IN SMALL PACKAGES.

Rumor Concerning Scarcity and Advancing Prices Baseless.

New York, Nov. 20.—To prove that rumors concerning scarcity of flour and advancing prices are baseless, the United States Grain corporation announced yesterday that pure straight flour, made of the finest wheat, will be sold by the corporation to the retail trade in 12 1/2 and 24 1/2 pound packages. It will be available in about three weeks and the price to the consumer will be about 75 cents for the smaller package.

SAGE TEA TURNS GRAY HAIR DARK

It's Grandmother's Recipe to Bring Back Color and Lustre to Hair.

TO RID FINANCIAL DISTRICT OF SWINDLERS

Two Lawyers Arrested to Begin With Charged With Presenting Fraudulent Draft at Bank.

New York, Nov. 20.—Assistant District Attorney Dooling announced yesterday the opening of a campaign to rid New York's financial district of a gang of alleged swindlers. Joseph and Solomon Sugarman, lawyers, were arrested, upon Dooling's order, for grand larceny in presenting an alleged fraudulent draft for \$8,500 on Frank Barton, Ltd., of Toronto, at the Italian Discount & Trust Co. here Sept. 28 and immediately drawing \$4,800 against it.

"The hub of a gigantic swindle is in the financial district here," he said. "It has spokes that radiate in every direction. We expect to unearth the whole scheme and break up the swindlers."

Mr. Dooling said that one of the swindlers included an attempt to get from George Pratt Smith, a nephew of the late "Silent" Smith, several hundred thousand dollars, including an interest in a legacy from his uncle. Smith was a client of the Sugarman's.

The Sugarman's were arraigned in Tombs court and held in \$50,000 bail each for examination Friday.

Some Questions as to Sugar.

Why permit further export of sugar until American homes are supplied? Refiners are not allowed to sell to retailers in the United States granulated sugar, refined from Cuba raws, at more than nine cents a pound. That figure offers a liberal profit to the refiners but not so great a profit as can be made by exporting; and the United States pays out to the refiners approximately one cent a pound on every pound of Cuban sugar refined here and exported. And why try to replace the sugar which refiners are rushing out of the country with sugar from Brazil and elsewhere, which cannot be landed in the United States at less than 14 to 15 cents a pound? Why not keep here the sugar that is here and the further supply constantly coming from Cuba in large shipments?

If an embargo against sugar exports is not laid, and soon, the profiteers will accomplish their announced purpose of more than doubling the cost of sugar in every American home, and will do so cleverly as to avoid being failed.

All the time refined sugar is being rushed out of the country to the refiners—millions of pounds a week. And all the while American housewives are denied the privilege of buying what sugar they need. Is it not quite time to call a halt—a decided halt—on the exporting so disastrous to American homes and so expensive to the United States government?—Boston Transcript.

Complete Failure.

"Blank has certainly made a mess of his domestic affairs."

"How so?"

"He married his cook in order to keep her, and now he's not only lost her but he has to pay her alimony."—Boston Transcript.

Imitators.

The poor imitate the rich and get poorer; the rich imitate the poor and get richer.—Boston Transcript.

GOOD-BYE, WEAK NERVES!

"Nothing wrong but my nerves."

We hear it everywhere. Nervousness is a disease. A man or woman might better have a broken arm or leg than a shattered, run-down, nervous system.

Overwork and worry drains the nerve cells of all their strength and vitality; then come the sleepless nights, poor blood, nervousness, worry, and fear, that go with a run-down nervous system.

In cases of this kind, Phosphated Iron rarely fails to strengthen and build up the phosphates-hungry nerve centers. It takes hold right from the start.

The way the majority of people "come back" is remarkable. You can almost see their nerves grow strong, steady and peaceful. Their eyes sparkle, their cheeks are filled out, and flushed with the healthy, ruddy glow that only pure, red, iron-fused blood can give, and their whole system is alive with youth, energy and good spirits.

Phosphated Iron will do all this for old or young if they will give it a chance. Get a box today and watch it build you up.

Ask for Phosphated Iron Capsules. Be sure you get capsules. For sale by E. A. Drown, the druggist, and leading druggists everywhere.
