

BILL CARLISLE BEHIND BARS

Noted Train Bandit Was Taken in Wyoming After Being Wounded

WAS REACHING FOR GUN WHEN SHOT

He Has Been in Wyoming Since Robbing Los Angeles Limited

Douglas, Wyo., Dec. 3.—Two score more years of prison life, probably death in the electric chair, confronted Bill Carlisle, train bandit, as he lay to-day in a hospital with a bullet hole in his chest while armed guards hovered in the background of hospital nurses to prevent escape.

The outlaw, who had eluded pursuit since his escape from the state prison at Rawlins on Nov. 15, and subsequent robbery of the Los Angeles Limited train near Medicine Bow, Nov. 18, was strapped to a pack horse for the descent down Laramie peak, 18 miles southwest of here, then bundled into an automobile and rushed to this city.

He was serving a life sentence which was commuted to from 25 to 50 years when he escaped. In the meantime, a new crime, for which death is the possible penalty, has been committed by the outlaw.

IF TOO THIN TRY BITRO-PHOSPHATE

While excessive thinness might be attributed to various and subtle causes in different individuals, it is a well-known fact that the lack of phosphorus in the human system is very largely responsible for this condition.

It seems to be well established that this deficiency in phosphorus may now be met by the use of Bitro-Phosphate, which can be obtained from any good druggist in convenient tablet form. In many instances the assimilation of this phosphate by the nerve tissue soon produces a welcome change—nerve tension disappears, vigor and strength replace weakness and lack of energy, and the whole body loses its ugly hollow and abrupt angles, becoming enveloped in a glow of perfect health and beauty and the will and strength to be up and doing.
