Women in Business. Woman's power in America is well illustrated by the thousands of women who entered almost every line of business to replace men who were drafted during the war. Health proved their strongest asset. Many women, however, developed weak, nervous conditions and could not stand the strain of a business life. Such women should remember there is one tried and true remedy in Lydia E. Pinkham's Vegetable Compound, which for forty-five years has been restoring health and strength to the women of America.

TODAY'S WATCHWORD

Advertisement for Nujol laxative, featuring an illustration of a bottle and text: 'SICKNESS PREVENTION. The guiding inspiration of modern medical science is Sickness Prevention. As this idea has worked itself out, smallpox, cholera, yellow fever and other infectious diseases already have given way. And science has finally developed an effective agent against the plague which is the originating point of over 90% of disease. That plague is constipation, and that agent Nujol. The dangers of constipation are so widespread because by reducing the body's power of resistance through self-poisoning it makes it easier for any disease to develop. Nujol by relieving constipation prevents the absorption of the poisons which otherwise would be taken into the blood and infect the whole system. Leading medical authorities agree that pills, salts, castor oil, etc., simply force and weaken the system. Nujol softens the food waste and encourages the intestinal muscles to act naturally. Nujol helps Nature establish easy, thorough bowel evacuation at regular intervals—the healthiest habit in the world. Get a bottle from your druggist today. For valuable health booklet—"Thirty Feet of Danger"—free, write Nujol Laboratories, Standard Oil Co. (New Jersey), 50 Broadway, New York. Warning: Nujol is sold only in sealed bottles shown here. Beware of imitations resembling it in "the name as Nujol". You may get from substitutes. Regular as Clockwork. Nujol For Constipation SICKNESS PREVENTION'
