Mrs. Max C. Fisher of Prospect street, a member of the state executive committee of the Woman's Auxiliary of the American Legion, motored to Burlington yesterday, accompanied by her two sisters, Miss Dorothy and Kathryn Brown, of Jefferson street, to attend an executive committee meeting.

Mrs. Louise E. Meader of Hardwick, who recently returned from a visit in California, is visiting Mrs. James Hillis of Elm street for a few days. Mrs. Meader is not accompanied by her famous traveling cat "Brother," for the pet of sixteen years died on the return trip from California after having nearly completed the transcontinental journey. The death of the cat was undoubtedly due to old age, as "Brother" had passed the "three score and ten" of feline life; and, as it is said by humans, he was "living on borrowed time." He had not only lived long but he had lived a rare life as far as cats are concerned, because he had traveled as far as much as 10,000 miles, almost always accompanying Mrs. Meader on her journeyings, occupying special quarters in a suit case. Mrs. Meader was so much attached to the pet that she diverted her homeward journey at Albany, N. Y., where the cat died, to Boston, there to get a metal casket for the cat. She was successful in having an airtight casket made and with the body of "Brother" reposing in the casket she carried the heavy metal receptacle all the way to her home in Hardwick, where the cat was given a burial in the sunniest spot in Mrs. Meader's front yard. "Brother" in his prime was a handsome specimen, weighing sixteen pounds. He also had more than the normal feline intelligence. During the last two years he had been blind, but he knew his mistress' whistle and always responded to that call wherever he happened to be. Needless to say, Mrs. Meader was very much attached to the pet.

Miss Ruth Veino returned to the University of Vermont yesterday, after passing the week end over the holiday afforded on Monday by the celebration of Founder's day at the university.

Otto Rathmann, president of the American Granite Co. of Milwaukee, Wis., left here to-day for Cambridge, Mass., to visit his brother-in-law, Percy G. Lamson, well known to many Barre business men. Mr. Rathmann has been in the granite belt of Barre for several days and yesterday visited the quarries of the E. L. Smith Co., being much interested in quarrying because of the extensive red granite quarries in Lohrville, Wis., which his firm develops. Mr. Rathmann declares that Wisconsin is the only state in the union not affected by the business depression, which, as everyone knows, is prevalent at practically every part of the United States. This immunity from depression he assigns to the cheese industry, which as a matter of fact, is about the only food commodity which has not deviated in price because of war-time periods. Wisconsin is noted for its great dairying business, having the largest industry of its kind in the union, and through it, according to Mr. Rathmann, business is booming throughout the state, the monumental business enjoying the prosperity as well as the dairying. While in Barre, Mr. Rathmann was the guest of William Barclay of West Patterson street.

WELLS RIVER

Grafton-Orange Country Club Elects Officers.

The annual meeting of the Grafton-Orange Country club was held in the office of Judge Baldwin at 8 o'clock last Monday evening and was called to order by President Woodman. The treasurer's report showed that the club was entirely out of debt and that in this coming year more progress should be made in making the course an attractive one. There are 21 members and the prospects for some new ones are very good. The following officers were elected: President, A. B. Woodman; vice-president, J. F. Hale; secretary and treasurer, Sam Hutchins; trustees, Luther Butler of Woodsville, John Bone; greens committee, M. F. Buck, L. D. Smith, D. G. Farwell, John Bone, Luther Butler; handicap committee, Rev. Fraser, Judge Baldwin, A. B. Woodman. It was voted to hold another meeting in a few days to further determine what work should be done and to adjust the matter of dues. Only about 10 were present at the meeting.

The Business Girls' club entertained the "Bubblers" of Woodsville at an informal party in the church parlors last Tuesday evening. About 40 were present. Salads, wafers, ice cream, etc. was served and a slight entertainment was furnished by the local club.

Beginning last Monday, an auto stage was operated between Barre and Wells River. The stage leaves Barre at 4 o'clock p. m., every other day alternating between the Groton and Bradford routes. It will leave Wells River at 8 a. m. On Saturday it will run to Topsham only. The stage is owned by M. S. Hood. This should work to good advantage, due to the extremely poor railroad service between all these towns.

The rent formerly occupied by the Teuber family has been rented by E. J. Donahue, who moved from a tenement in the Bartlett house. Mrs. Teuber will work for the present at the tavern.

One of the finest strings of fish that we have ever seen was exhibited at the hotel last Monday evening. There was

GAVE HER STRENGTH AND NEW AMBITION

A tendency to anemia, or thin blood, may be inherited. In fact it frequently runs in families as is shown in the case of Mrs. William Chapman of No. 88 Albion street, Fall River, Mass.

"I was very much run down from overwork," says Mrs. Chapman. "My blood was thin and I had very little color. My strength seemed to give out and I had no ambition. My mother, who had used Dr. Williams' Pink Pills with benefit, made me take them and after taking the second box my color was better and I grew stronger. I took three or four boxes at that time with much benefit.

"I have recommended Dr. Williams' Pink Pills to others and we always keep them in the house and are invariably benefited by their use. My daughter is now using them and they are helping her."

A valuable booklet, "Building Up the Blood," will be sent free upon request. Dr. Williams' Pink Pills are sold by all druggists or will be sent post-paid, on receipt of price, sixty cents per box, by the Dr. Williams Medicine Co., Schenectady, N. Y.—Adv.

In all about 12 trout. The largest squawtail weighed five pounds, while a salmon weighed over nine. They were caught in Lake Seymour.

Several of the sports in town are operating new cars this spring and there are many more that would like to. Dr. Woodman and D. G. Farwell have switched to a Dodge, while L. D. Smith and W. D. Stinson prefer a Nash, and last but not least, Samuel Hutchins has the latest creation in a Buick. They all look nice.

A special meeting of Pulaski lodge was held Monday evening, in which work was conducted on three on the second degree.

Judge Baldwin and party of four left Tuesday afternoon for a week's fishing trip at Caspian lake. We shall expect wonderful results and more wonderful stories when they return.

To the Prospective Purchaser

A telegram received from Dodge Brothers, Detroit, Mich., to A. D. Hayes—"Any statements that Dodge Brothers have reduced or intend reducing prices is absolutely false Dodge Brother shave always bought most advantageously and manufactured economically and to-day our manufactured stock is held at to-day's replacing values.

"Since our first cars were marketed seven years ago we have increased our prices less than any other manufacturer but one and during that time have added improvements which alone offset the increased price. We positively know that we are giving honest values and therefore can see no sound business justification for any price reduction."

The Universal Daily Habit!

EVERY man, woman or child in this city who can read, reads some daily newspaper every day.

It is as much a habit with them as eating, or talking, or walking.

The newspaper is their point of contact with the outside world and with each other.

In every other city of any size, other newspapers are printed and other people read them in the same intensive way. In the great stretches of rural communities the newspapers from the cities radiate out through the mail boxes.

North America is literally bound together and welded into a continent with common knowledge and common impulses—by its 30,000,000 daily newspaper circulation.

Newspaper readers have come to look on the daily advertising as part of the news. They turn to their newspaper when they want to buy, just as they turn to it for the ball score or the latest developments across the sea.

Local merchants know this and they know they can build a larger volume of business at less cost through the newspaper than through any other means of contact with possible customers.

Manufacturers and distributors of trade-marked goods are also coming to learn that North America is a series of markets—each differing from the other in opportunities to sell goods.

Each good market can be reached by newspaper advertising at low cost and without wasted effort in barren localities.

For this reason the newspaper has become the greatest medium for national advertising, just as it has always been the greatest medium for local advertising.

The national advertiser can best cover this market or any market through the newspapers.
