Poison the fountain, and the stream is  
impure; poison the blood, and its taint is  
carried through the entire system—those  
innumerable veins and arteries carry disease  
and death to every part of the body. As a  
result—Kidney Disease, Scrofula,  
Hepatitis, Kidney Disease, Liver Con-  
plaint, and General Debility. An inactive  
Liver means poisoned blood; Constitution

Tired feeling, dull headache, pains in  
various parts of the body, sinking at the  
pit, the stomach, loss of appetite, feverish-  
ness, pimples or sores, are all positive  
evidence of poisoned blood. No matter

**Give the Children a Chance.**

There is something radically wrong  
with the health of a child when it seems  
listless, has poor or no appetite, eyes  
sunken and dark skin beneath. In  
most cases showing these symptoms the  
child has worms, and all that it needs is  
some simple remedy, such as Hart's Worm  
Cream, to expel the worms, and the child  
will soon be in perfect health again. Parents,  
try it and let your little ones have  
a fair chance for life.
