CIGARETTES AND SM. KING TOBACCO.
(PATENTED.)

Use the Pine Needle Cigars for a delightful smoke and speedy relief for Influenza, Acute and Chronic Catarrh, Clergyman's Sore Throat, Hay Fever, Asthma and all Bronchial diseases. Combining the full aroma of the Yara tobacco, imparting to the taste and breath a pleasant effect, and by the introduction of pine needles the nicotine or poisonous properties of tobacco are destroyed, not only rendering their use free from injury, but with positive benefit to the consumer.

BLUE BALL, N. J., May 6, 1889.
Pine Needle Cigar Company, Freehold, New Jersey:

Gentlemen:—I am desirous of expressing my most sincere thanks, and excited opinion of your Pine Needle Cigars as a remedy for Nasal Catarrh and Bronchitis, both of which troublesome diseases I have suffered with for nearly two years, and experienced no relief until had the good fortune of learning of your most valuable remedy. Since their use I have received marked relief and consider myself entirely cured. I also might state that I received no unpleasant effect while inhaling the above named remedy.

Yours respectfully,
IDA WAGONER.

THE NEWS!

BY ASSOCIATED PRESS TO THE CITIZEN TO-DAY.

EDMUNDS ATTACKS SENATOR VANCE'S SPEECH.

VANCE REPLIES FOR NORTH CAROLINA INDUSTRIES.

EFFECT OF THE LAST CANADIAN RECIPROCITY TREATY.

WASHINGTON, Sept. 3.—In the senate to-day Senator Call offered a resolution, which was referred to the committee on foreign relations, declaring that the murder of General Barrandia on the steamer Oculupo by the authorities of Guatemala while under the protection of the flag of the United States was an insult to the people of the United States and demanded prompt action by the government of the United States for redress of the injury and for security against the recurrence of like cases.

The tariff bill was then taken up, the sugar schedule being under consideration. Mr. Edmunds addressed the senate and referred to the assertion of Senator Vance that the farmer bore all the burdens of the customs duties, while he had no benefit from them. He said that the senator had named a variety of articles that were on the free list, but he had not named the article of mica found in North Carolina on which there was a duty.

Mr. Vance: "There is no duty on mica in this bill."
Mr. Edmunds: "Then there ought to be."
Mr. Vance: "Put it there."
Mr. Edmunds: "The senator did not speak the duty on tobacco, nor the duty on rice, which farmers of North Carolina raise. He forgot the lumber interests of North Carolina. He shut his eyes to the importance of pitch and tar and turpentine that have given such a wholesome and adorous reputation to the people of that section."
Senator Vance: "They are put on the free list also and the duty on rice reduced."
Senator Edmunds: "Well, let us vote to put them where they belong. The fact is the farmer of North Carolina is in respect to every material interest, precisely in the condition of the farmer of Vermont, and if a tariff is had for the farmer of North Carolina is bad for the farmer of Vermont."
Referring to the question of reciprocity Senator Edmunds recalled the history and practical operation, with its injurious results, of the Canadian reciprocity treaty of 1854.

QUILLED THE RIOT.

A Negro Killed by a White Man in Self Defence.

ATLANTA, Sept. 3.—At Fellowship church, near Gibson, Curdie Dudley, a well known white man, was compelled to kill a negro named Scott in order to quell what promised to be a riot.

A big negro meeting was in progress at Fellowship church, in which many negroes got drunk and unruly. Among the latter was one Geo. Scott, who became so boisterous that his friends and the officers of the church sought to quiet him. Failing in this the negroes requested Mr. Dudley, a white storekeeper from Hancock county, who was on the ground, to restore order for them.

In endeavoring to do this Mr. Dudley was struck over the head and cut in his face, when he pulled his revolver and shot Scott, who died almost instantly. The blacks who were present say it was necessary for Dudley to kill Scott or else get killed himself, as a general riot was brewing, and several shots were fired in the crowd, only two of which took effect, the one that killed Scott and another that shot off the first finger of one of the rioters. Dudley is still in the neighborhood and has made no attempt to escape.

BANK BURNED.

A Kansas Town Terribly Scorching this Morning.

HIAWATHA, Kan., September 2.—The worst fire ever known in this city broke out at 1 o'clock this morning in William Homer's livery stables. In less than three hours it had destroyed two and a half blocks, in the business centre of the city, causing a loss of at least \$150,000.

The greatest loss was the national bank building, owned by Congressman Morrill. The vault containing \$50,000 in currency and many valuable books and papers gave way under the intense heat and its contents were entirely destroyed.

Col. Polk in the Progressive Farmer

This week demands that "Senator Vance show his hand." He claims that as Vance opposes the abolition of the national banks, and as the democratic State convention endorsed that plan, therefore Vance is in line with the democrats. The alliance men are notified not to support him, if his views are contrary to theirs.

FACTS, EVERY ONE OF 'EM.

The Morganton Herald, which can always be relied on in a case like this, says: Mr. Rufus Duckworth says he saw on the lands of David Hennessee, near Chambers, Burke county, the other day, four stalks of corn that sprung from one grain, and that there were nineteen ears of corn on the four stalks.

"Mr. J. H. McClelland has brought us a post oak knot and has on it an almost perfect picture of a man's face, which of course, was cut by Nature's own hand. Intelligent looking eyes, a well developed nose, well shaped mouth, long hair and a flowing beard are to be seen and above all this may be seen a helmet of the old warrior style." That's what the Concord Standard man can do when put to it. Next!

It isn't often that the staid Raleigh Chronicle turns a back somersault, but when it does it's a regular three-tender; as witness this: "The Chronicle has a sweet potato which is an exact imitation of a rattlesnake coiled up to strike. The small, nervous-looking head, the darting tongue and the jet eyes are all there. The potato is in four distinct and regular coils, and its very appearance causes a sudden observer to shudder. It was presented to the Chronicle by Mr. J. P. Edmondson, a prominent and prosperous farmer of Johnston county."

THE CHICAGO STRIKE.

Not Known How Many Carpenters Have Quit Work.

CHICAGO, Sept. 3.—The great strike of journeymen carpenters opened yesterday as an uncertain quantity. At neither the quarters of the journeymen or bosses was it known to what extent the order to quit had been obeyed.

The strike opened differently from any for years. At the journeymen headquarters it has always been claimed that every carpenter in the city obeyed the mandates of the council. It was admitted that some, and perhaps a great many, had not done so this time. At the headquarters of the old and new bosses' associations, where, on the other hand, the inauguration of the journeymen's strike is declared to find no men idle, it is said to-day that perhaps a great many laid down their tools for a time on Saturday night.

DO YOU HEAR THE NEWS?

GREAT DEMOCRATIC GAINS IN REPUBLICAN VICTORY.

The Republican Majority Will Not Be Over 15,000—The Democrats Already Have 37 Members of the Assembly Against 18 in the Assembly of 1888.

RUTLAND, Vt., Sept. 3.—The election passed off completely yesterday except for town representatives, for whom the fourth ballot is now progressing. P. W. Clement, president of the Rutland railroad, the republican candidate, being leader of the high license movement in Vermont, was bitterly opposed by a small majority of republicans who are strong prohibitionists and who were determined to elect the democratic candidate, also a high license man by voting for the third candidate.

The county returns are very meagre, but probably one democratic senator is elected and there are very significant gains by democrats of representatives in the legislature. The general returns of the State show large democratic gains in the house owing to the opposition of the prohibitions. If the vote in the remaining towns not yet heard from be relatively the same as those heard from the republican majority will be only about 15,000 in the whole State. There were only eighteen democrats in the assembly in 1888, and thirty-seven have already been elected in the 135 towns already heard from. Two Farmers' League candidates have been elected.

Public Meeting.

The citizens of Asheville are requested to meet at the court house Thursday evening at 8 o'clock to take some action relative to the vacancy on the Board of Aldermen, occasioned by the resignation of Mr. Pulliam. All are invited.

WEST WARD.

STRANGE INFATUATION.

The Career of James Reid of Greensboro.

GREENSBORO, N. C., September 1.—James Reid is the son of one of the wealthiest and most highly respected citizens of Salisbury. Some years ago he became infatuated with a mulatto woman, and about a year ago stabbed her. He lay in jail until she recovered when he was sentenced to a year's imprisonment and a fine of \$500. The case was carried to the supreme court and Reid was released on a bond for \$1,000 given by his father. The decision of the lower court was affirmed and Reid jumped his bond.

He came to this place with the woman some months ago and because of their drunken rows the two were jailed. Reid's father again came to his rescue and he was released.

He came here Thursday night disguised as a negro and took up his former quarters with the woman. When caught he wore a wig and was blacked up. He was found in the attic of the house he occupied behind a chimney. He had ingeniously rigged up a set of trap doors by which he could get before the officer could reach him in the attic he had secreted himself under a lot of clothes in the woman's room on the first floor.

TWO WERE KILLED.

A Western Train Thrown From the Track.

HOT SPRINGS, Wash., September 3.—A terrible accident occurred last night four miles from Eagle Gorge, about sixty miles from Tacoma, on the Northern Pacific road. The eastbound passenger train No. 2 was wrecked, the tender the second engine, mail, express and baggage cars, smoker, emigrant and two day coaches being thrown from the track. Sixteen persons were injured, two fatally. Ben Young, umpire of the Northwestern league, and J. D. Cepler have since died.

Mr. Tourgee in Court.

BUFFALO, September 3.—Mrs. Albion W. Tourgee, wife of the well known author, is under commitment to jail for contempt of court. She failed to comply with the order of Judge George R. Butts, of the Chautauqua county court, to appear before a referee and testify as to her financial relations with her husband.

OBITUARY.

Nancy Wright died on the 30th of July, 1890, near Laurel Hill. She was the wife of the late T. M. Right, and was aged 90 years.

Mr. Paul Muhlbauer, vice president of the Robert Porter Brewing Company, Greensboro, died at his home at Alexandria, Va., on August 22, of diphtheria.

Mr. T. C. Evans died at his home in Reidsville Tuesday. Mr. Evans has long been a leader in the newspaper business. He leaves eight sons and daughters to mourn his loss.

An old man of the name of R. N. Eagle, was found dead in his room in the West building, on Front street, Wilmington. Little was known of him in North Carolina, but from newspaper extracts found in the room, it is learned that he was well known in many states and that he was a distinguished army officer at one time. He always had money about him, although living in squalor, and drew pensions from the federal government for services in war.

GOV. FOWLE'S ADVICE.

GOOD SENSE IN HIS TALK FOR A FAIR.

The Governor Kindly Tells How Best It May Be Made a Success, and Predicts for It All Good Things if Carried on Aright.

Governor Fowle, in answer to a question put by THE CITIZEN to-day as to what he thought about the advisability of having a fair in this city, said:

"A sectional fair in Western North Carolina would be one of the most successful things that could be imagined. The Fish and Game Fair at New Berne was a success in every way. That was a sectional fair. The products of that vicinity were exhibited. The game and fish which are found around there were shown, and it was both financially and as a drawing card very gratifying to those interested.

"Now, if New Berne could make such a good thing out of a fair, Asheville, with its fertile surrounding country, beautiful scenery and celebrated as it is all over the United States, would draw immense crowds and its fair could not be otherwise than a great event.

"The minerals and woods around in this section would make a fine show by themselves, and the game and fish would have to come in for their share of notice. Another thing, this is an old settled country and the relics of former times, which were being used when the revolution was in progress, and other things of that kind, could be gathered up all over this section, and would be worth coming miles to see. And, as I said, this city and section is celebrated and talked about everywhere, and if the railroads would make low rates, which I have no doubt they would, you would have people here from all parts of the country.

"Another thing I hear talked of is this interstate drill. If the business men here would work together—and of course do nothing without the ladies—and offer prizes large enough to induce companies to come here, and have the fair and the interstate drill together, you would have people here from Maine to California, and from the great lakes to the Gulf. Every military company has its admirers, and so with every company that comes here to take part, a large number of persons would come with them. This will be done if you will take hold and reach down into your pocket.

The way I think is best for organizing an affair like this, is to form a stock company. Popular subscription is very good, but it is slow, and if it happens, that there should be more money needed, than was first calculated upon, which is often the case, it might be found very hard to raise the extra amount and the whole scheme would be likely to fall through at that account.

"With a stock company there would not be this danger. The stock holders would first of interest in the proceedings, and when once started would do anything to see it through.

"But this thing has got to be managed with care. Men who have had some experience and understand how to go about it should be put at the head. And then you will want a large, level piece of ground. If such is not to be found inside the city, you must go outside for it, and one thing that is important about it, if it is outside of town, is the location should have a railway connected with it, so that goods which are shipped in could be taken directly to the grounds without changing from car to car or car to wagons.

"Everything, as I look at it, rests with the people. The location is here, the climate, the scenery and the celebrity are all here, and if the people will take hold with the right spirit, I don't see why Asheville and Western North Carolina shouldn't have the most successful fair ever held in the state."

The Court Did Not Insist.

From the Buffalo Courier.

A capitalist story is told of one of the oldest practitioners at the Erie county bar. He was arguing a motion at a neighboring county seat, and, as it sometimes happens, was depending more upon his own sound logic than upon authorities for success. At a critical juncture the judge interrupted the speaker with this inquiry: "Yes, I understand, but where are your authorities upon the subject?"

"If your honor please," retorted our friend briskly, "I will explain the absence of authorities, with your permission, by telling a little story. A young man freshly admitted to practice had produced in court in support of a motion a wealth of authorities. After allowing the young man to read page upon page of dry decisions, the judge at length interrupted wearily, 'You are just beginning to practice,' said he; 'let me give some advice. It does very well to cite authorities once in a while, but you must always trust somewhat to the common sense of the court.'"

It was a bold, almost audacious, position to take, but it won our old friend his case.

AFFAIRS OF CONSEQUENCE.

WASHINGTON.

Senator Sherman's propositions looking to reciprocity with Canada are thought to be intended as an offset to Secretary Blaine's South American scheme.

HOME.

Thos. B. Marrett, the largest owner of fast horses in the Northwest, died very suddenly Sunday at St. Paul, Minn.

A New York firm has reimported six thousand cases of canned peaches from England and resold them at a profit.

A careful examination by the express officials shows that only a portion of the packages in the safe of the car, which was robbed on the Louisville and Nashville road yesterday morning, was taken. The loss is not over \$200.

The Western railroads have been notified that the order of the inter-state commerce commission reducing grain rates from the Missouri river and points beyond to the Mississippi river and Chicago is suspended until September 15.

At the national conference of delegates from single tax clubs in thirty-three States in New York yesterday Henry George declared that he would not run for congress, and that single tax men were being nominated by the democratic party, which was rapidly on its way to free trade.

MISCELLANEOUS.

ANTIMIGRAINE.

—THE—
NEVER FAILING CURE FOR HEADACHE.

TRADE MARK REGISTERED.

ABSOLUTELY SAFE, PERFECTLY SURE AND ALWAYS SPEEDY.

Cures Every Variety of Headache AND NOTHING ELSE.

ANTIMIGRAINE Has earned for itself the enviable reputation of being the finest, most effective and reliable article in the market for the speedy relief and cure of every variety of that common trouble, HEADACHE. The immense favor which has greeted it from all quarters, proves its true merits and acceptability to the public. It is something which almost everyone needs, and those who have once tried it, will never be without.

For its curative powers it does not depend upon the subtle influences of such poisonous drugs as ANTIPIRINE, MORPHINE, CHLORAL AND COCAINE. Since it does not contain an atom of either of these. It is absolutely free from injurious chemicals, and can be taken by young and old without fear or serious results. It is not a Cathartic, does not disarrange the stomach, and contains no noxious or sickening ingredients.

The peculiar advantages of Antimigraine consist in its being thoroughly reliable as a cure for any kind of headache—without respect to cause—leaving no unpleasant or annoying after-effects, as in the case of other so-called "harmless" remedies. These qualities make it the most popular and saleable article in the market, wherever known.

DIRECTIONS FOR USE.

The dose for an adult is two teaspoonsful in a wine glass of water. Dose for children in proportion, according to age. In either case the dose can be repeated every thirty minutes until a cure is effected. One dose will always drive away an attack of Headache, if taken when first feeling the premonitory symptoms; but if the attack is well on, and suffering is intense, the second or third dose may be required. Usually a greater number of doses is required to effect the first cure than is needed for any succeeding time thereafter, showing that the medicine is accumulative in its effects, tending toward an eventual permanent cure.
