

AGRICULTURAL.

Make Manure.

When we say the farmers of North Carolina make too little manure and buy too much guano...

Waste Places.

Under present conditions every advantage must be taken to make all parts of the farm pay as much as possible.

A Hint to Bee-keepers.

A Belgian agriculturist planted at the beginning of spring two white birch trees and pruned them at the time when the sap was rising.

Of fruits the cherry is one of the best to plant along the fences.

It will stand more tramping than any other variety of fruits and needs less attention.

Manure is usually valued in proportion as it has become decomposed.

Hence a load of manure that has been forked over repeatedly until it is soft black mass will command a very much higher price...

The important point to be considered, however, is whether the barnyard or the field is the place for this decomposition...

Manure is usually valued in proportion as it has become decomposed.

Hence a load of manure that has been forked over repeatedly until it is soft black mass will command a very much higher price...

The New Orleans Picayune says: "What we want to see is a competent and graphic description of the great farmer or planter class."

The agriculturists of the South were its old-time ruling class. They were always in a country which has no cities. They were the material from which its statesmen, generals, politicians and great and splendid figures were cast, and its women were the characteristic women."

The Farm Harness.

The proper care of the harness is an important item in farm management. If kept clean and well oiled and hung up in a convenient, tight closet when not in use...

Another item, not only in saving the harness, but the horse as well, is to have the harness properly fitted so far as is possible...

While there is leisure is a good time to thoroughly overhaul the harness and repair and oil it before the season for hard work begins.

It is always good economy to buy good harness, as cheap harness almost always proves dead in the end.

But in order to get the most out of good harness it must be properly taken care of.

Now, I want to tell one thing, and that is the compost heap pays. I have tried it. I compost all the manure made on the place with its equal bulk in loam.

I consider that this plan not only doubles the heap in bulk, but in value. You see, the loam acts as an absorbent, saves what is usually lost in gasses.

Now, I want to tell one thing, and that is the compost heap pays.

I have tried it. I compost all the manure made on the place with its equal bulk in loam. I consider that this plan not only doubles the heap in bulk, but in value.

Now, I want to tell one thing, and that is the compost heap pays.

THE FACT. That AYER'S Sarsaparilla CURES OTHERS OF Scrofulous Diseases, Eruptions, Boils, Eczema, Liver and Kidney Diseases, Dyspepsia, Rheumatism, and Catarrh should be convincing that the same course of treatment will cure you. All that has been said of the wonderful cures effected by the use of

AYER'S Sarsaparilla during the past 50 years, truthfully applies to-day. It is, in every sense, The Superior Medicine. Its curative properties, strength, effect, and flavor are always the same; and for whatever blood diseases AYER'S Sarsaparilla is taken, they yield to this treatment. When you ask for

AYER'S Sarsaparilla don't be induced to purchase any of the worthless substitutes, which are mostly mixtures of the cheapest ingredients, contain no sarsaparilla, have no uniform standard of appearance, flavor, or effect, are blood-purifiers in name only, and are offered to you because there is more profit in selling them. Take

AYER'S Sarsaparilla Prepared by Dr. J. C. Ayer & Co., Lowell, Mass. Sold by all Druggists. Price \$1.50 per bottle, \$4.50 per six bottles, \$12.00 per dozen.

AYER'S Sarsaparilla Cures others, will cure you. March 25, 1892
