

THE STRIKE GROWING.

MINERS SAY ALL THEY NEED TO SUCCEED IS FUNDS.

More of De Armit's Men Join the Strikers. No Work in One of His Mines—All the Schmock Miners Quit Work—A Jump in the Price of Coal—The Miners' Camps and Marches Perfectly Orderly—The Big Meeting This Evening

Pittsburg, August 4.—The miners strike situation has not changed materially since yesterday's report. Everything about the Turtle Creek camp was quiet, the only ripple of excitement being the hearing of President Dolan, and the other officials of the miners for riot and unlawful assemblage. The strikers claim twenty new accessions to their ranks today. A careful estimate of the men now at work in that mine shows 215 out of the usual total of 255. No work was done at Sandy Creek mine. The camp was reduced in number today by 300 men. They were sent to their homes for two reasons—to lessen the expenses and because these men were not inclined to respond to the numerous marching orders imposed on them. The camp has been costing \$300 a day to keep it in provisions etc., being at the rate of 7 cents per man per day, as against 19 cents per day in the national guard encampments. The camp is now under strict military discipline and everything is moving like clock work.

The customary march will be made to Plum Creek in the early morning and will be continued daily, the miners' officials say, until the suspension in the De Armit's mines is complete.

At the hearing in the case of President Dolan and others for riot and unlawful assemblage this afternoon before Justice Semmes, a number of witnesses testified, but the justice reserved his decision until tomorrow afternoon.

The hearing of the four miners arrested last week at the McGovern mines near Cannonburg for trespass were concluded this afternoon. No evidence connecting the defendants directly with the song "We'll hang the blacksheep to a sour apple tree" or with the use of opprobrious epithets was produced. None of the defendants appeared at the hearing and they were held in contempt. Attachments were issued for their arrest.

Secretary Warner paid his compliments to President De Armit, of the New York and Cleveland Company today in no choice terms. The reason for this was the publication of the story that Mr. De Armit had said that \$10,000 had been sent into the Pittsburg district by the West Virginia operators in order to bring about a strike of the miners in this district and thus force the price of coal up. Both the secretary and President M. Carrick, of the Painters and Decorators Union, characterized the story as a canard and said that if it were true they would hardly send organizers into that district to try to induce the men to strike.

Organizer Cameron Miller is arranging for a meeting of business men and miners to take place at Roscoe in the fourth pool at 1 p. m. tomorrow. He expects 100 will be in attendance coming from all the mines in the fourth pool. The meeting will be addressed by President Patrick Dolan and Mr. Miller.

Arrangements have been completed for the open air demonstration under the auspices of the United Labor League of West Pennsylvania tomorrow evening, on the Duquesne, which are in the interests of the striking miners. The leaders expect 20,000 people to attend. The meeting will be addressed by Eugene V. Debs, Mrs. Mary Jones, of Chicago; M. M. Garland, president, and W. A. Carney, secretary, of the Amalgamated Association; United Mine Workers' Organizer Cameron Miller, M. P. Carrick, national president of the Painters and Decorators' Union and M. J. Counahan, national secretary of the Plumbers' Union.

After the addresses an appeal will be made to the assistance for financial assistance for the striking miners, and the leaders expect that the results will show that the public is in hearty sympathy with the miners in their struggle for living wages. The miners claim that if they can only get a little more financial assistance they will easily win the strike and are straining every nerve to accomplish their end.

The miners at the Schmock mines on the Redstone branch of the Pennsylvania railroad came out again today and the mines are closed down. This intelligence caused the price of coal to jump from 75 cents to \$1.00 a ton and brokers say there will probably be another advance to \$1.50 per ton before the end of next week.

Eight hundred working men headed by a band, marched through the streets of Turtle Creek tonight. The strikers had gone to meet them. About 1,200 men were in line.

Rev. William Hall, of the M. E. church, of Wilmerding, addressed a meeting after the parade. He complimented the miners on their manly fight and the peaceable manner in which it was being conducted. At the close of this address he handed the miners a bag containing \$265, a contribution from the citizens of Wilmerding.

A CRIMINAL ASSAULT

Made on a Young Lady of Beaufort County by a White Man—The Assailant Seized—His Arrest and Confession

(Special to The Messenger.)
Washington, N. C., August 4.—Another blot of crime has fallen upon Beaufort county's history. Yesterday afternoon at a late hour our quiet city was thrown into intense excitement. An attempt at rape was made upon the body of Miss Blanche Hodges, daughter of Mr. James Hodges, who resides at Old Ford, six miles from here, by one Henry Jackson, a white man about 22 years old.

The facts are: Miss Hodges left home yesterday afternoon in company with a lady teacher to take her home. They met Jackson while on the way. He was in the woods harvesting straw. When Miss Hodges was returning home she passed Jackson again. Seeing she was alone, the rascal taking advantage of the opportunity and her position, ran up behind her buggy and jumped to her back, catching her by the throat, choking her intensely—so much so that she was hardly able to talk afterwards. She fought her assailant heroically and succeeded in knocking him off to the ground. She then put whip to her horse and sped away for home to tell her story.

The rascal was apprehended and lodged in jail. When questioned he admitted the crime. A News and Observer reporter attempted to interview the prisoner this morning, but failed. Evidently he had been warned to hold his peace.

This is Jackson's third attempt to accomplish his hellish work—better had he never been born. Jackson has a boyish face, with small claim to intelligence.

Miss Hodges is the niece of our popular sheriff, R. T. Hodges. She is one of our most popular and accomplished young ladies.

Additional news from the explosion of the boiler at Rumley Bros' mill, near Bath yesterday states that Edward Windley, colored, was killed instantly, being struck by the door of the manhole of the boiler. He was eating breakfast when killed. York Clark, colored, was badly scalded and had one arm broken; he will die. The cause of the explosion was failure to have sufficient water in the boilers. New boilers will be placed at once.

Grand Encampment of Odd Fellows

(Special to The Messenger.)
Raleigh, N. C., August 4.—The grand encampment of Odd Fellows met this afternoon. There are thirty encampments and all are represented. All the grand officers are present. They are Grand Patriarch Wesley Williams, of Elizabeth City; Grand High Priest, B. C. Gorham, of Fayetteville; Grand Senior Warden P. A. Cummings, of Asheville; Grand Junior Warden J. C. Besant, of Winston; Grand Scribe J. B. Jacobs, of Wilmington and Grand Treasurer T. W. Blake, of Raleigh. The action of last session, making Durham the place of meeting was rescinded and Raleigh was selected as the place of session.

The grand encampment met in annual session at 8:30 o'clock. Reports of officers show the order to be in a healthy condition, with bright prospects. Only routine business was transacted tonight. The address of welcome was by Hon. W. C. Douglass and the response by P. A. Cummings.

Death of Rev. Dr. W. S. Black

(Special to The Messenger.)
Raleigh, N. C., August 4.—Rev. Dr. William S. Black, a well known Methodist minister and presiding elder of Littleton district, died there today, aged 61 years. He was a native of Cokesbury, S. C. During the war he was chaplain of the Twenty-sixth North Carolina regiment. He was for years senior editor of The Christian Advocate and superintendent of Oxford asylum.

He was twice married. Three children by the first marriage and his wife survive him. His death was so sudden none of his children could reach him. It was due to heart disease. His funeral will be held here tomorrow afternoon, from Edenton Street church.

Delegates to Farmers' National Congress

(Special to The Messenger.)
Raleigh, N. C., August 4.—Governor Russell appoints the following delegates from North Carolina to the farmers' national congress for the next two years: State at large, J. S. Cunningham and William Dunn; First district, John Brady; Second district, M. L. Wood; Third district, J. A. Westbrook; Fourth district, Ransom Hinton; Fifth district, Benehan Cameron; Sixth district, Nick Gibbons; Seventh district, S. A. Lawrence; Eighth district, J. L. Byers; Ninth district, W. G. Candies.

Fears About Election Tickets

(Special to The Messenger.)
Raleigh, N. C., August 4.—The friends of special tax for public schools express fear that there may be neglect to send out tickets properly, and ask that this matter be at once looked into. Tickets are all right in Wake.

OUR EXPORT TRADE.

LARGER LAST FISCAL YEAR THAN IN ANY PREVIOUS ONE.

Total Value of Exports for Year Ended June 30th Last \$1,032,001,300—More Than \$160,000,000 Greater Than for the Previous Year—Great Increase in Export of Domestic Manufactures—Exports of Agricultural Products

Washington, August 4.—Corrected tables, about to be published by the bureau of statistics in connection with the monthly summary of finance and commerce, will show that the fiscal year ended June 30th was the largest in the history of domestic exports, the value of which reached \$1,032,001,300. The next largest was the year 1892, when they amounted to \$1,015,732,011. The increase over exports of the preceding year amounts to \$168,800,813. There has been a considerable increase in the exports of domestic manufactures. Comparing these with the year 1892 (the largest previous export year), when they were valued at \$158,519,937, or 15.6 per cent. of the whole, the year 1897 shows that they amounted to \$276,357,861, or 26.78 per cent. of the total exports, which is an increase over the fiscal year ended June 30, 1896, of \$47,786,633. The smallest previous per cent. was in 1880, when the per cent. of domestic manufactures exported was 12.45 of the whole.

Domestic manufactures for the month of June exported were valued at \$25,873,204, an increase of about \$4,000,000 over the same month for the preceding year and the figures for June 1897, are the largest for any similar period, except the month of May 1897, when the value of domestic exports amounted to \$26,457,442, and the month of March 1897, when they were \$25,374,469.

The reports of agricultural products for the month of June were valued at \$38,998,895, as against \$37,178,060 for the month of June 1896 were 57.26 per cent. and for June 1897, 54.26 per cent., of all exports. For the fiscal year ended June 30, 1897, the value of agricultural exports amounted to \$589,879,297, or 56.02 per cent. of the whole, as against \$683,878,990, or 66.27 per cent. of the whole for the year ended June 30, 1897; and the total value of all exports for the year 1896 amounted to \$863,200,487, while for the year just ended the total given as stated above amounts to \$1,032,001,300.

CROWDED WITH WHEELMEN.

The Large Assemblage at the Race Meet in Philadelphia—First Day's Exercises. Many Wheelmen Present

Philadelphia, August 4.—Close, sultry weather characterized the opening day of the eighteenth meet of the League of American Wheelmen, but it failed to suppress the enthusiasm or lessen the number of arrivals. The number of wheelmen already registered is far in excess of any previous two race meets, and up to a late hour tonight every railroad train brought additional visitors.

During the morning Chairman Mott; Thomas Hare, chairman of the racing meet executive committee, and Abe Powell, official handicapper for this district, went carefully over the list of entries and examined the record of each professional and amateur.

Two entries delayed in transmission were received today. They were J. Frank Mohler and Andre Bouling, of the City of Mexico. They are the amateur champions of Mexico and are reported to be very fast riders.

The first scheduled run of the meet was started at 9 o'clock from the national headquarters. Over 1,500 riders, many of them women, covered the ten miles to the country club house of the Century Wheelmen, riding along the river drive in Fairmount park and the picturesque Wissahickon valley. After refreshments the return to the city was made, and a much larger number rode out the Lancaster pike, the finest macadam road in the country, passing through homes of some of Philadelphia's wealthiest and most substantial citizens.

"Johnny" Johnson, of Minneapolis, met with an accident late last night and may not be able to enter. He was being paced on the Willow Grove track by "Jack" Lindley, when the latter's rear wheel broke and threw Lindley. Johnson "spilled" over him and severely bruised his right side. Lindley was slightly scratched.

Special attention is being given the women visitors by an auxiliary committee of local wheelwomen. Headquarters have been opened in the Odd Fellows temple, across from the national headquarters. Tomorrow night a fete will be given in their honor at Belmont mansion in West Fairmount park.

Word was received today that the first circuit delegation of New York city riders left Jersey City this morning on bicycles to attend the meet.

Was Soon Feeling Better.

"For three years I was troubled with my heart and liver. I was run down in health and could hardly walk. I was so weak. I tried many medicines and finally bought a bottle of Hood's Sarsaparilla. I was soon feeling better, and after taking a few more bottles I was strong and able to work."
W. J. HARRIS, Cloverdale, Va.

Death Caused by Loss of Property

Chicago, August 4.—Christopher Schrage, the miner, who was robbed of \$5,000 in bonds a year ago, was buried today. The old man never recovered from the shock of losing his wealth, although the bulk of it was restored. During the past month he refused food and raved continually about the robbery. The Schrage bond robbery formed a sensational episode in Chicago police history. "Sleepy" Burke, an ex-convict, when arrested in connection with the case, confessed and implicated several prominent police officials and politicians. The accused men were not convicted.

THE ACCIDENT TO THE MAINE.

Her Commander Entirely Exculpated by the Naval Board Appointed to Investigate the Affair.

Washington, August 4.—The navy department has received a report from the special naval board which investigated the collision between the battleship Maine and the garbage and pier in East river last week. The board fully justifies Captain Sigsbee for the course he adopted in choosing a comparatively slight injury to the Maine by running into the pier rather than bringing serious disaster upon the steamer Isabella, which was crowded with people.

After reciting in detail the circumstances which led up to the collision substantially as already published in the newspapers, the board has this to say in summing up: "It appears to the board that the situation was forced upon the Maine by the collision which occurred between other ships ahead of her and by the confusion resulting therefrom, and that the commanding officer of the Maine having steered toward the New York side to avoid collision with those vessels and then finding the Isabella crowded with people coming through the narrow gap which he intended to ask the United States to leave, was also forced upon him and there was left to him to choose between the collision with the Isabella or with the New York pier.

"The serious disaster which might have resulted from collision with the Isabella and the comparatively slight injury liable to occur from collision with the New York pier, leaves no doubt in the minds of the board that the judgment of the commanding officer of the Maine was sound and correct and that he probably avoided serious disaster and loss of life to the Isabella by taking the course he did." "The testimony shows that good order and discipline prevailed and that all orders and signals were clearly understood and promptly obeyed. The damage done to the Maine was very slight. The necessary repairs can be made by the ship's force and are partly completed already."

JAPAN'S DEMANDS.

She Wants the United States to Assume Contingent Responsibility in the Matter of Arbitration With Hawaii

New York, August 4.—A special to The Herald from Washington says: Japan will insist that the United States assume a contingent responsibility in the matter of arbitration of her differences with Hawaii on the subject of immigration and the tariff. It is understood that this is one of the essential conditions upon which Japan will consent to arbitration and that if this responsibility is not assumed by the United States, Japan will break off negotiations looking to arbitration and back up her demands by a naval demonstration in Hawaiian waters.

The state department has not yet received any official communication from the Japanese government on this matter and the administration has not indicated whether or not it will comply with the Japanese demand when made.

An official of the Japanese legation said in an interview: "I am not officially informed concerning the terms of arbitration, but that Japan should insist that the United States should recognize it and assume an ultimate responsibility for the decisions of the arbitrator as regards being carried out seems to me very natural. If the United States refuse to give us a guarantee it is probable that the arbitration proposition will fall. We prefer to entertain a grievance and to indemnify our subjects ourselves than to arbitrate after the indignity by the refusal of the United States of so just a request. Neither the United States nor the Hawaiian-Japan correspondence of late the pending annexation has figured as a factor in the situation. This should operate in the arbitration case as well."

A STRIKE IN ATLANTA.

Operators in the Fulton Bag Mills Strike Because Negro Female Help is Employed

Atlanta, Ga., August 4.—Two hundred women and girls employed at the Fulton bag and cotton mills in this city struck this morning because of the employment of negro female help by the management. At noon the 400 men employed in the mills walked out in obedience to the orders of the Textile Workers' Union and in sympathy with the striking female operatives. This forced the closing down of the factory. The strikers gathered in angry groups about the mills and for a time it looked as if there might be a riot. The Fulton bag and cotton mills is one of the largest concerns of the kind operating in the south. The corporation is successor to the old firm of Elsas, Nay & Co., and Jacob Elsas is its president. About 800 men, women and children are affected by the strike.

Death of "Jolly Jack" Gilroy

Norfolk, Va. August 4.—Jack Gilroy, the popular pitcher of the Norfolk base ball club, died at St. Vincent's hospital in this city today, after an illness of nearly five months. He was a most heroic struggle for his life. He was a native of Washington, D. C., and had reached his 22nd year. This was his third season as a base ball player. He was a member of the Norfolk club of the Washington National League club, with which he acted as a general utility man. "Jolly Jack," as he was popularly called, was a favorite with the public and fellow players alike, and his abilities as a pitcher and an all round player were unquestioned.

His remains will be shipped to Washington tomorrow in care of his mother, who had been in daily attendance at his bedside for several weeks preceding his demise.

RAILROAD TAXATION.

COMPARISON OF FIGURES IN THIS STATE AND VIRGINIA.

Death of an Inmate of Soldiers' Home. Baptist Female University to Open This Fall—Arrested for Throwing Stones at Excursion Train—Electric Railway to Seven Springs—George Vanderbilt Buys More Land.

Messenger Bureau, Park Hotel.
Raleigh, N. C., August 4.

Much has been said recently as to the taxation of railway property in Virginia and North Carolina. The following are the facts as to such taxation. The total value of railways in Virginia including property outside of right-of-way, as well as street cars, assessed for taxation, is \$53,389,540. That in North Carolina, not including street cars and property outside of right-of-way, is \$29,000,000. The gross earnings in Virginia are \$50,000,000; in North Carolina \$9,846,000. The net earnings in Virginia are \$12,151,000; in North Carolina \$3,257,000. So the taxation in Virginia, instead of being one and a half times greater than in North Carolina, should have been in round numbers four times as much. Governor Russell says railway property should be listed for taxation at a sum upon which it pays 6 per cent. upon net earnings. By this Virginia would have a valuation of \$200,000,000, and North Carolina \$50,000,000. Virginia, besides paying 1 per cent. on net income, deducting interest on funded debt, and taxes, and this amounts to only \$3,000. With a similar tax North Carolina could collect nothing save a small sum from the Atlantic Coast Line.

The superintendent of public instruction, in a circular today to county supervisors, advises them to have the school census taken during November, accurately by the old township lines, so as to get the report ready by the first Monday in January. The apportionment will be made strictly by this census.

It is stated that an attempt is being made to organize a stock company to buy all the agricultural papers in the state.

Bids for constructing the \$5,000 hospital at the Agricultural and Mechanical college here will be asked for next week. Better heating apparatus will be put in the dormitories.

At the soldiers' home last night an inmate named Baird died. He was from Person county, was an educated man and had a wife and daughter in Florida.

The Baptist female university here will open next autumn and with over 300 students. There is great satisfaction among the denomination as this admirable beginning which is in sight.

Night before last, as an excursion train was leaving here on its return to Lexington, negro hoodlums threw a volley of stones and smashed the windows. This is a penitentiary offence. Late last night a detective got two of the stone-throwers and they are in jail.

The cotton stalks are not as large as they have been for several years, but they are in better shape and better suited. The weather is little better just now, but is doing no damage. Cotton is developing for all it is worth. A magnificent crop is assured.

There is general commendation of Governor Russell's promptness in calling a special term of court to try George Brodie at Henderson. The management of this affair has been excellent.

There is talk of an electric road from Goldsboro to Seven Springs, thirteen miles, and \$17,000 has been subscribed.

A populist magistrate in Mecklenburg county applied to the commissioners to admit his aged mother to the county home. The request was not granted. The publicans who raised a great clamor at the least hint that the democrats did not intend to obey the civil service law, are now wild in their efforts to evade it and are demanding that all democrats in office be dismissed. In the western part of the state this amounts almost to a mania.

George Vanderbilt, who already owned over 100,000 acres of land in the Blue Ridge country, has purchased 4,000 acres more at the head waters of the Swannanoa river. It is magnificently timbered. He will cut the "ripe" timber and send it to his saw mill at Blumore. He is the largest individual land-holder in the state. His entire property is being made an object lesson.

The capital stock of the Coleman cotton mill at Concord is increased to \$100,000.

Ed. B. Barbee, a well known business man here, returned today from a European tour.

The trustees of the institution for deaf mutes and blind express great regret at the resignation of A. W. Pegues, superintendent of the colored department. It is said an effort will be made to elect Frank Debnam.

Editor Bailey, of The Baptist Recorder, who is one of the leaders in the movement for the special tax in aid of public schools, said today: "The plan of our committee has all the while been to try to carry 100 townships. The project is we will carry a majority of that number. We have advised which town we will carry township after township. Granville, Wake, Northampton, Richmond, Guilford, Alamance, Wayne, Surry, Stokes, Yadkin, Iredell, Mecklenburg, Swain, Buncombe, Madison and Davie. We sent out the last of our literature today."

The state superintendent of public instruction wrote a sharp letter today to certain populists and republicans who are seeking for purely political reasons, to oust Mr. Askew, the supervisor of Bertie county. The superintendent says: "There is nothing but politics in the opposition to him."

Several Confederate veterans left here today to carry townships in Person, Granville, Wake, Northampton, Richmond, Guilford, Alamance, Wayne, Surry, Stokes, Yadkin, Iredell, Mecklenburg, Swain, Buncombe, Madison and Davie. We sent out the last of our literature today."

Royal makes the food pure, wholesome and delicious.

ROYAL BAKING POWDER
Absolutely Pure

ROYAL BAKING POWDER CO., NEW YORK.

THE KLONDYKE GOLD FIELDS.

State Department Officials, on Investigation, Locate Them on British Territory

Washington, August 4.—Incited by the newspaper publications recently, tending to throw doubt upon the ownership of the Klondyke gold fields, some of the high government officials who would naturally be expected to deal with the question if it comes to a practical issue, have been quietly looking into the matter with a view to preparing themselves for any controversy that may arise. Their views are in substance that there can be no valid objection advanced to the title of Great Britain to this territory. A careful examination of all of the reliable charts and maps made far enough back in date to be free from suspicion of influence of the recent heavy gold finds has convinced these officers that so far as the Klondyke fields, as defined by the latest reports, are concerned, there can be no question but that they lie east of the 141st meridian, which defines the boundary line, and so are within British territory. About thirty-five miles at least, as for the meridian itself, it is said that it has been so closely located by the surveys of the Canadians and our own coast surveys, that there is not at any point a difference of more than 700 feet in the claimed boundary which, of course, would not substantially affect any controversy that might grow out of the title.

MURDER AND SUICIDE.

A Philadelphia Man Kills a Woman and Himself Because of Unrequited Love.

Philadelphia, August 4.—Charles Dietz, aged 45, a foreman in the Candy factory of Philip Wunderle, at 118 Pegg street, today shot and fatally wounded Kate Scollon, aged 38 years, and committed suicide. The woman was also an employe of about thirty-five miles at least. As for the meridian itself, it is said that it has been so closely located by the surveys of the Canadians and our own coast surveys, that there is not at any point a difference of more than 700 feet in the claimed boundary which, of course, would not substantially affect any controversy that might grow out of the title.

Firemen Seriously Burned.

Philadelphia, August 4.—A fire, which broke out at 11 o'clock today in the big chemical works of D. Jayne & Sons, at Bermuda and Tucker streets, Frankfort, which are operated by the Barrett Manufacturing Company, importers of manufacturing coal tar and manufacturers of roofing, did damage amounting to \$100,000 before it was gotten under control. The fire originated in the big distilling house and is supposed to have been caused by the explosion of distilled oil. The distilling house and the valuable machinery were totally destroyed. Other buildings located near the burned structure were badly damaged by the flames and were only saved after a hard fight. Seven firemen and two workmen were seriously burned by an explosion which occurred shortly after the fire broke out. Assistant Chief Engineer Charles McDade had all of his clothing burned off and is probably fatally injured. Eight others were seriously burned about the face and body. Seven other firemen were badly burned about the hands but after having their wounds dressed, left the hospital.

Great Loss of Life From Eruption of a Volcano.

Chicago, August 4.—A special to The Chronicle from Manila, Wash., says 500 reported killed up to July 15, is record of the terrible outbreak of the great volcano of Mayon, on the island of Luzon, one of the Philippine group. On night of June 24th this volcano began throwing up ashes and lava in immense quantities and flames were thrown upward considerably over 100 feet above the crater. The next day fifty-six bodies were recovered at a considerable distance and the most recent dispatches to Hong Kong up to July 5th stated that not less than 500 were known to be killed. It was probable, said the dispatches, that the loss of life would reach into the thousands, depending on the length of eruption. On that date lava streams and ashes had reached the cities of Bacacay, Malipot and Liboy, and their destruction was certain. Fifteen smaller towns between these and the volcano had been destroyed and scores of the agricultural population had been overwhelmed while attempting to escape.

A Negro Gets \$10,000 for a Horse

Nashville, Tenn., August 4.—Jim Key, a marvelously well educated horse, owned by Dr. William Key, a highly respected negro of Shelbyville, this state, and which has been on exhibition at the centennial exposition for two months, has been sold to G. Duffield, of New York, for \$10,000 and shipped to that city. Dr. Key devoted seven years to teaching and training the horse.

What Hood's Sarsaparilla has done for others it will do for you. Hood's Sarsaparilla cures all blood diseases.
