"High Point for High Point;" that's the slogan. Keep your money in High Point; trade with High Point merchants; buy everything you can in High Point at all times; that's the foundation for a Greater High Point.

Calculation of The Review covers the field evening dew: several times larger than lined newspapers of High Point, being practically every home in the city and suburbs. Advertisers take notice.

A CALL TO THE CITIZENS OF HIGH POINT TOWNSHIP.

Governor Craig has issued his proclamation setting apart Nov. 5th and 6th as Good Road Days for North Carolina and has called on all citizens of the State to lay aside every other work or duty for those days and aid in general road repair work all over the state.

He requests the Mayors of towns and cities to take similar action and I hereby call on every good citizen of High Point Township to meet in the rooms of the Manufacturers Club on Monday night, Oct. 27th at 7:30 o'clock for the purpose of laying out the work in districts, beginning with the center of the City of High Point and leading out on every road through the township. I especially urge our farmer friends to attend this meeting and join with the citizens of High Point in planning for the work to be done, so that the same may be carried out in a systematic manner thereby securing the best possible results. Please inform your neighbors of this meeting for Monday night and be on hand early.

Respectfully,
Fred N. Tate,
Mayor.

WAS IT ROBBERY?

Strange but it looks like some one attempted to blow the safe at The Review office Saturday night. "For the love of Mike" any one possessed of common knowledge would know that there is no money around a printing office, much less The Review office where so many delinquent subscribers appear on our book. The whole window, frame and all was broken to smithereens and a small dent on the safe and some red mud, but otherwise no great damage done. Chief of Police Ridge was soon on the scene and he thinks it was the work of a drunk man who staggered and fell full force against the window and landed on the inside when he "came to himself" and skidded. Anyway it is open for suspicion. Hereafter be it understood that there is little of value to be found around a printing office for a "bugger" so "please go away mister" next time and don't disturb the peaceful surroundings of ink cans and cold indifferent types.

COTTON JUMPED UP \$2 BALE

New Orleans, Oct. 20.—The cold wave sweeping the south put the price of cotton up almost \$2 a bale soon after the market opened this morning. It was evident that many buying orders received by local brokers had accumulated over Sunday. On the first call there was a rush to buy and amid more excitement than the market has seen for months, prices mounted swiftly.

The opening was irregular, the trading months showing a gain of 34 to 48 points over Saturday's close. They soon went to a level 36 to 42 points up before profit taking by longs became heavy enough to cause a reaction. This wild rise brought out selling orders for both accounts and the market reacted 13 to 15 points. The downward movement was not well maintained as detailed reports from the weather bureau made the situation over the belt look worse than did the weather map.

Cupid at Work Saturday

Darrell R. Pitts, son of Dentis H. C. Pitts, of this city, was united in marriage Saturday afternoon to Miss Angeline Powell of Winston-Salem. Mr. Pitts is a student at the Southern Dental Parlor in Atlanta and it was thought this was his destination when he left Saturday, but not so. Dan Cupid whispered soft tales of love and the dart went home from the arrow and the two young people plighted their troth until "death do separate." Mr Pitts after the marriage resumed his journey to Atlanta, there to complete his course and return next year and take up his residence here practicing his profession with his father.

A CHILD NOT A DOG

If some hysterical woman teacher wants to correct a child there is a right and wrong way to do it. Slapping a little child full tilt on the jaw or ear is not the proper place as serious injury is liable to result. No gentle bred person will deliberately knock a child in the face, much less one less than seven years old. It is cowardly to do so, and shows a temper that no teacher placed over the little ones should have. At this age perhaps a word of warning would be better at first, then if the child persists the hickory on the body is the proper thing and not a bang in the face. Our attention has been called to a case of recent date where a little child with affectionate disposition, who carries flowers to her teacher every now and then and thought lots of her, but one day this little girl unthoughtfully ate an apple in school. The teacher never uttered a word of warning but walked hurriedly to the side of the little girl and administered a hard slap on the face. What does this little girl think of such a teacher now and what does the public think of such a procedure. Hysterical women should be barred from the school room.

High Point will undoubtedly do her part towards observing Good Roads Day as set apart by our Governor for Nov. 5th and 6th. It is a very laudable undertaking and every mother's son of us should show our state and county pride in shouldering our pick and mattock and going to the rescue.
