Reported Killed by Indians.

St. Louis, April 29.—A private letter to a business house here dated Las Vegas, New Mexico, 26th, says: "It is reported that Joseph Brown, ex-mayor of this city, and a party of St. Louisans, were murdered by the Indians, at or near White Earth, Stanton county, New Mexico, on the 25th."

The Whittaker Investigation.

West Point, April 29.—Adjutant Miehler testified that Whittaker had eighty-nine demerits since 1876. The cadets were allowed eight hundred without being marked deficient. He had been punished but for four offenses in three and a half years: carelessness in drill duties, and being out of bed at taps. Not a half dozen cadets in the corps have as good a record on demerits. Lieutenant Coffin commanding Whittaker's corps testified that his character as a soldier was very good indeed. He had not had the occasion to report him a single time, because he always pays a strict attention to duties. Professor Andrews believed that the word of the cadets, that when upon honor they said they knew nothing of the outrage, was perfectly reliable. When a cadet is caught lying, he is treated with utter contempt, and suffers social ostracism. It is the best body for truth ever met. Professor Meher testified the same, and said that of 2,500 graduates, from 1802 to 1878, only twelve had been expelled from the army on account of those who joined the rebellion.

POLITICAL.

The Presidential Count.

New York, April 29.—A Post's Washington special says that the democratic senatorial caucus favors the republican of the concurrent action of both houses necessary to reject the vote of a state, in determining the presidential count.

Arkansas Republican State Convention.

Little Rock, Ark., 28.—At three o'clock yesterday morning the republican state convention adjourned sine die. The following delegates were appointed to the Chicago convention: J. W. Dursey, Powell Clayton, M. W. Gibbs, O. P. Snyder, H. M. Robinson, Jacob P. Trierley, S. H. Hollars, J. W. Johnson, J. S. Johnson, J. A. Burns, O. A. Hadley, Fred Duser.

Indiana National Greenback Convention.

Indianapolis, April 29.—The state convention of the national greenback party met to-day, and H. P. Learned was made chairman.

The committees being appointed, Congressman Delamater addressed the convention. Nearly all parts of the state were represented, some three hundred delegates being present.

Levy Ferguson was made permanent chairman.

Pennsylvania Democratic State Convention.

Harrisburg, Pa., April 29.—The democratic state convention was called to order at half past nine.

The special committee on credentials reported through Dill that their decision had been unanimous in each case and that in the case of contests in Philadelphia, where the Vaux delegation admitted McGorran, the delegates were regularly elected under the established rules of the party, and for the sake of having a united party in Philadelphia, both sides were anxious to secure harmony and concerted action.

The committee will therefore meet in Philadelphia at some future day, and make such rules for the organization of the democracy in Philadelphia, as in their judgment may be deemed necessary. They will determine what the regular organization shall be and how it shall be made up, each delegation to be admitted to seats in this convention, and each delegate to cast half of one vote through its chairman.

The report was adopted and the roll of delegates called.

The convention on the nomination of R. E. Moneyton, made A. H. Dill temporary chairman, and when the preliminary work of the convention was disposed of, Moneyton was chosen permanent president.

The resolutions were as follows: First, Adherence to democratic principles. Second, The just powers of the federal union rights of states and the liberties of the people

are all necessary to the life of the nation.

Third, Military ought to be subordinate in things to the civil authority. The federal administration has no right to keep up a standing army to invade states for political purposes, regardless of the constitution, to protect fraudulent votes, or inaugurate candidates rejected by the majority.

Fourth, The right of free ballot is the only means of redressing grievances and reforming abuses, and the presence of troops at the polls with a host of hiring officials, having the power to arrest and imprison, is illegal and destroys the freedom of elections, and upsets the foundations of the government; we call upon all good citizens to aid in preserving our institutions from these imperial methods, and in removing the army to a safe distance from the polls.

Fifth, That Hayes, fraudulently placed in power against the will of the people, represents a conspiracy, denounces his use of the vote and the troops and deputy marshals as an insult to the country.

Sixth, The convert of all currency of gold, silver and paper convertible into coin.

Seventh, We oppose subsidies and appropriation of public money for any object of public service, reforms, etc., which the democratic party have enforced, thereby saving millions to the country.

Eighth, Promises of sympathy and protection to the wronged by the restriction of the great transporting companies which defy the law.

RELIEF FOR THE SUFFERERS

A Movement in Behalf of the Victims of the Missouri Cyclone.

St. Louis, April 27.—The merchants exchange relief committee will to-morrow issue an address to charitable disposed people setting forth that the recent Missouri cyclone has brought death and ruin to hundreds of families and laid waste many thriving towns, and that recent advices of the committee show that the destruction was more terrible than pen can picture. Two eminent men who have been on a tour of observation say that the hail has not been told. The James river storm began about thirty-five miles west of Springfield and gradu-

ally increased in size and power until it attained a width of two thousand feet. For a distance of forty-six miles it cut an unbroken swath from 1,500 to 2,000 feet wide. Men, women and children were killed or crippled and horses, cattle, sheep and hogs served in a similar manner. Dwellings, fences and out houses were not only leveled, but blown away. Plows, wagons, reapers and other farming implements were reduced to scrawny iron and kindling wood, and in many cases fields with growing crops are so covered with forest debris, or with mud or sand, that much additional labor will be required to save what had been planted. No houses or barns were left standing in the track of the storm and farmers are entirely without houses or implements with which to carry on their farms.

Similar reports come from many other sources, and the demands upon the people for assistance is very urgent. St. Louis is doing all in her power for relief of these unfortunate districts, but the call is great and cannot be supplied in an adequate manner by the citizens of this state alone. This committee, therefore, in behalf of the sufferers, appeal to the people of this country, everywhere to come forward and assist in relieving the great distress of the southwest.

A Down-Taken Merchant.

Having passed several sleepless nights, disturbed by the agonies and cries of a suffering child, and becoming convinced that Mrs. Winslow's Soothing Syrup was just the article needed, procured a supply for the child. On reaching home and acquainting his wife with what he had done, she refused to have it administered to the child, as she was strongly in favor of Homeopathy. That night the child passed in suffering, and the parents without sleep. Returning home the day following, the father found the baby still worse; and while contemplating another sleepless night, the mother stopped for a moment to attend to some domestic duties, and left the father with the child. During her absence he administered a portion of the Soothing Syrup to the baby, and said nothing. That night all hands slept well, and the little fellow awoke in the morning bright and happy. The mother was delighted with the sudden and wonderful change, and although at first offended at the deception practiced upon her, has continued to use the Syrup, and suffering, crying babies and restless nights have disappeared. A single trial of the Syrup never yet failed to relieve the baby, and overcome the prejudices of the mother. Sold by all druggists. 25 cents a bottle.
