

CITY CAUCUSES.

The Result in the Ninth and Tenth Precincts.

The republican caucus to choose delegates to the county convention to be held in this city on the 9th inst., were held to-day and each was favored with a larger attendance than was ever before known. This indicates a commendable spirit of interest in the primaries which should be encouraged.

NINTH PRECINCT.

In the 9th precinct the caucus was held in Dilger's building, on Broadway, and was called to order by Phil K. Faulk, member of the county committee, at two o'clock p. m.

D. J. A. Potter was chosen chairman and W. S. Bowen secretary.

J. R. Gamble and H. E. Dewey were appointed tellers. The delegates were chosen by ballot, 130 votes being cast. Two tickets were in the field, one of which received sixty-two and the other sixty-seven votes. The following list of delegates was chosen, after which the caucus adjourned.

J. H. Bartick, Warren Osborn, W. S. Bowen, Jacob Schmitt, L. M. Purdy, Carl Jensen, Zina Rieley, Jacob Brauch, E. G. Smith, Fred Schmauber, C. C. Valentine and J. A. Potter.

TENTH PRECINCT.

The republican voters of the tenth precinct met at Stone's hall on Capital street, at 2 p. m., and the meeting was called to order by Wm. Powers. J. L. Pennington was elected chairman. Upon taking the chair he thanked the caucus for the honor conferred on him, and stated that as the large republican majority in the county made a nomination by the delegates selected by this caucus equivalent to an election, therefore it was the duty of the convention to secure the selection of honest and capable men.

On motion of L. B. French, E. P. Stone was elected secretary.

L. B. French moved that the caucus proceed to selection of twelve delegates to the county convention, one person to be voted for each ballot, and that the person having the majority of the votes be declared elected.

Geo. H. Hand objected to the mode of electing, as it would require too much time.

Mr. French advocated his motion, and said it was the only means of defeating the cut and dried programme which it is charged has been set up.

After some further discussion the motion made by Mr. French was lost.

Frank Wynman moved that the caucus proceed to elect twelve delegates by ballot, the whole number to be voted for at one time, which motion was adopted.

On motion of W. D. Russell three tellers were appointed, as follows: W. D. Russell, Frank Wynman and W. M. Powers.

L. Sampson moved that the caucus take a recess for ten minutes for the preparation of tickets. The motion was lost and the caucus proceeded to vote for twelve delegates. After all present had voted a motion was made and carried to hold the polls open ten minutes longer to allow absentees to come in and vote.

The ballot resulted as follows:

Table with 2 columns: Name and Votes. Includes P. H. Rising (48), Jacob Nissen (91), A. W. Howard (49), J. G. Baumann (88), O. P. Hage (87), G. H. Hand (82), W. S. Goodwin (83), W. H. McVay (51), Fred Donaldson (126), T. N. Bray (107), A. W. Barber (38), B. S. Williams (92), J. L. Pennington (77), J. Aney (47), W. M. Powers (50), Ed. Fletcher (48), A. L. Hinman (45), L. W. French (46), W. P. Dewey (78), L. Sampson (4), L. S. Bayless (30), Charles Wallbaum (36), Charles Long (39), J. P. Hayward (30), W. D. Russell (31), T. Edwards (47), H. J. Gardner (6), L. B. Bierenier (1).

The vote resulted in the choice of Jacob Nissen, J. G. Baumann, O. P. Hage, G. H. Hand, W. S. Goodwin, Fred Donaldson, T. N. Bray, B. S. Williams, J. L. Pennington and W. P. Dewey—ten—two less than the number to which the precinct is entitled.

L. B. French then moved that the caucus ballot separately for the two remaining delegates, which motion prevailed.

The first ballot resulted in giving L. B. French, 19; W. H. McVay, 10; W. M. Powers, 15; Ed. Fletcher, 2; and Charles Wallbaum 4 votes.

W. D. Russell moved that Charles Wallbaum and L. B. French be elected by acclamation to fill the delegation, which motion prevailed and these gentlemen were declared elected.

On the motion of L. B. French, the delegates present at the county convention were empowered to cast the full vote of the delegation.

The caucus then adjourned.

The Phenix Insurance Company, of Hartford, Connecticut, is now in G. W. Roberts' Insurance Agency.

Donaldson Bro's sell feed for 75 cents per 100 pounds. Mill on Third street, east of Bruce's store.

GENERAL NEWS.

FOREIGN.

What a Country. St. Petersburg, October 2.—All editors of the chief journals here have been summoned before Gen. Melikoff and told that their continued discussion of a constitution for Russia has highly displeased the czar; that nothing more on the subject would be allowed to appear, and that during the present reign it would be premature to discuss the constitution.

An Irish Bishop.

Dublin, Oct. 2.—Rev. Dr. C. Leary, parish priest of Dunbarrow, county Waterford, has been appointed by the pope, bishop of Kangaroo, Canada.

Respite Granted.

London, Oct. 2.—A correspondent at Rome telegraphs as follows: Count Membrini, Italian ambassador to England, telegraphed to his government that at a meeting of the British cabinet council in London Thursday, it was decided to propose to the powers that a respite until Sunday, third, as asked for by the pope be granted. Italy immediately assented to the proposal. There is great anxiety in official circles about General Garibaldi's movement which has formed the theme of discussion at the cabinet's council.

The Weather.

Washington, Oct. 2.—The weather indications for the upper Mississippi and lower Missouri valleys are: Partly cloudy weather, south winds shifting to west and northwest, slight change in the temperature.

Heavy Failures.

New York, Oct. 2.—Robinson, Lord & Co., wholesale dealers in wood and willow ware, 147 Chambers street, have announced their suspension. The failure was occasioned by the suspension of Lord & Robinson of Baltimore, with which the firm was identified, who in turn were forced to suspend by the sudden failure of the tobacco firm of Oliver Robinson, Richmond, Va., and 7th Warren street, New York. The three failures were expected as the firms were well known to be embarrassed. Liabilities estimated at from \$300,000 to \$500,000.

Indicted.

New York, Oct. 2.—The grand jury ordered an indictment for grand larceny and receiving stolen goods against Lawrence J. Jennings Jr., and his friends, Patchell and McGibbon in connection with the loss of a package of securities valued at \$87,500, by Braghton, treasurer and county broker in Wall street, in July last.

CRIMES AND CASUALTIES.

Crazy Drunk.

Lutonia, Oct. 2.—Last night Isaac Lettenhouse of Tegarden, four miles from Lutonia, while drunk, drove his wife and children out doors and set fire to the dwelling with a lighted torch. He was destroyed in the flames, a hand full of bones only remaining to tell the tale.

Marine.

New York, Oct. 2.—The steamer Rhine brought \$25,000 in gold.

Adjourned.

Philadelphia, Oct. 2.—The second general council of the Pan Presbyterian alliance was brought to a close to-day.

LATEST BY MAIL.

Philadelphia, Sept. 30.—The Buchanan medical college was squashed by the court to-day.

Springfield, Sept. 30.—Twenty thousand people attended the state fair to-day, held in all parts of Illinois.

Milford, Del., Sept. 30.—All the stores were closed to-day as a mark of respect to the memory of Gen. Alfred T. A. Torbert.

TURF NOTES.

THE CHICAGO JOCKEY CLUB. Chicago, Sept. 30.—J. H. Haverly, who has just returned from Colorado, says with reference to the story telegraphed hence that the Chicago Jockey club is insolvent and will be abandoned, that the only lien on the club is one of \$20,000, held by Downer & Bonnis, the former proprietors of the track. These gentlemen have not called for the amount due them, and when they do it will be paid. The trotting races were uniformly successful and profitable, but the club has a little behind on the running meetings. The books will very nearly balance this year, which is as well as the managers expected to do while the reputation of the track was being established. It is the intention to maintain the present organization and to have a lively season next year. Mr. Haverly says the story was started in malice, and is false from beginning to end.

SANTA CLAUDE-PIEDMONT. San Francisco, Sept. 30.—Col. P. A. Finigan, owner of Santa Claus, says he will trot Santa Claus against Piedmont for \$5,000 a side, the race to take place on Friday, the trot to come off in San Francisco.

ST. JULIEN. New York, Sept. 30.—The Spirit of the Times says St. Julien will trot against his own time, 2:11 1/4, at Prospect Park, October 11.

Louisville, Ky., Sept. 30.—The first race for two-year-olds, five-eighths of a mile, Monday, Sept. 28, at Prospect Park, 1:49 1/2.

The second race, stallion stakes, for 3-year-olds, one and three-quarter miles. Luke Blackburn won; Kimball second. Time, 3:49.

The third race, one and one-eighth miles, Henyar won; Montreal second. Time 1:56 1/2.

The fourth race, two mile dash. Renown won; Gen. Phillips second. Time, 3:37 1/4.

St. Louis, Sept. 30.—Effe G. won the 2:25 race to-day; Myrtle second; Riglette third. Time, 2:35, 2:31, 2:34 1/2, 2:32 and 2:35.

The pacing race was unfinished, owing to the darkness. Sorrel Dan and Lucy each had two heats. Time, 2:16 1/2, 2:18, 2:20, 2:20 1/2 and 2:22 1/2. The first was a dead heat between Dan and Ben Hamilton.

Mattie Hunter paced two heats against time, but darkness prevented the third. Time, 2:19 and 2:17 1/2.

French Oysters. Served in every style at reasonable hours, at PIKE'S.

LONGER WINTERS.

A Singular Meteorological Change in the Sierras. Virginia City Enterprise.

Prof. Legate has just returned from a trip into the Sierras of eight days' duration. He had with him two assistants and his own vehicle for the transportation of his instruments, and camped on most of the time. The object of the professor's trip was the study of recent interesting meteorological changes in the elevated regions of the Sierras. He was led to believe that during the present season the winter belt had shifted south. Beginning at a point just north of Lake Tahoe, the snow has not melted away as in former years. There are now banks of snow from fifty to one hundred feet in depth on points where heretofore at this season no snow has lain. Nearly the whole of this snow will remain where it now lies until the snows of winter again set in. Up toward the headquarters of the north fork of the Yuba river, where no snow is usually seen at this season, it has but a little more than begun to disappear. In that place are to be seen huge banks of snow, under which flow the waters of the stream, forming arches or natural bridges one hundred feet in height and two or three hundred feet in width. As nearly the whole of this snow will remain until snow again comes, the accumulation next year will be still greater, and the whole region around the head of that and other rivers high in the mountains will probably lie under the snow the year around.

It was for the purpose of ascertaining the cause of this remarkable change of climate to the northward that Prof. Legate went on his expedition into the mountains. Through the results obtained by observations made at many points but principally by means of careful thermometrical tests, the professor has established the fact that there has occurred in the range of the Sierra Nevada mountains this season, a grand isothermic change. He finds that the warm current of air which ever since the settlement of California by Americans—and probably ages before—has moved upward from the Pacific seaboard to the Sierra Nevada mountains, and thence toward the northward along the west side of the main ridge of the range, thus giving to all regions in that direction a warm climate, no longer moves in that direction. It now comes up from the side of the ocean and pours directly across the crest of the Sierras near Lake Tahoe. Prof. Legate has satisfied himself that this wonderful change, which is leaving all the northern parts of the Sierras buried in snow, summer and winter, is caused by the denudation of timber which the mountains have suffered through a belt beginning at Lake Tahoe and extending some twenty miles southward.

Through the great gap thus left by the sweeping away from the mountains of the warm current of air which formerly moved with something of the circling motion of water in an eddy—far along the mountains to the northward. Prof. Legate says it must not be supposed that the change has been caused merely on the count of the gap or tongue left to the clearing away of the forests. The denudation of the ground is the principal cause. The heat of the sun pouring down upon the broad belt of the bare ground now resting across the mountains causes at that point an immense ascending column of heated air which draws in from the west the current which formerly moved to the northward and now all crosses the Sierras, passing in an upward and easterly direction. Prof. Legate is of the opinion that the only thing capable of changing the isothermic line which has been recently accidentally and disastrously established, is the creation, at some point well north of another broad belt of denudation, the influence of which will be to draw in that direction a portion of the warm current of air moving up to and along the western slope of the Sierras, and thus partly restore the equable temperature that formerly prevailed. He thinks the railroad which is to run in the direction of Oregon from Reno, and which is to strike and tap the great pineforests of the Sierras well to the north, will after a few years effect the desired change.

A PITIABLE TALE.

Chicago, Sept. 30.—W. Pennell of Chicago, was taken to the county hospital this afternoon in such a condition that his recovery is very doubtful. He tells a story of terrible outrage and suffering. According to his narrative he went to the Hot Springs about a year ago, and last June, being only partially recovered, went to Memphis. He was soon out of money and obliged to leave the hotel, and for seventeen days he wandered through the swamps about Memphis, occasionally getting little help from passing travelers and finally returned to Memphis, and being arrested was put in the city prison and kept for forty days. When he asked for water the attendants would sometimes play on him with a hose, and when he cried out they strapped him to the floor. A negro wailer helped him to escape from the prison, and while still delirious he was taken to the county poor house, fed on abominable food, maltreated in every way, and his condition rendered worse than before. After various wanderings and travels he again brought up in the Memphis prison, where his persecutions were renewed. Mrs. Quinn of the Commercial hotel, finally secured his release, and through the agency of friends here was brought back to Chicago on Wednesday. He tells a straight forward story, and has an excellent reputation among those who know him.

L. D. Farmer.

Has just returned from New York City, having bought the largest and best assorted stock of fall and winter goods ever brought to Yankton, Dakota. His goods are now arriving and being opened at his store for inspection. He defies competition and will sell at as low prices as any other house. Call and examine his mammoth stock of fall goods before making your purchases. "No trouble to show goods." L. D. FARMER.

TO THE PUBLIC.

Christopher Steinbach, who has been in the employ of Jacob Max, merchant, for the past six years, has purchased the business of Heister & Baesler and will hereafter give his personal attention to it. Serr's block, Yankton. He invites all his friends to give him an early call.
