

# EXPRESS APPRECIATION OF AMERICA'S ACCOMPLISHMENTS DURING FIRST YEAR IN WAR

Belfast, Ireland, April 8.—Correspondence of The Associated Press.—Inspiration and confidence arising from America's entrance into the world war and from the effort to exert her whole power in the Entente cause were expressed by noted British and Irishmen Saturday in a series of messages to the people of the United States on the first anniversary of American participation.

"It has inspired us," writes Sir Ignatius O'Brien, Lord Chancellor of Ireland. "It is the salvation of humanity," says Viscount Mersey, formerly head of the commission which investigated the destruction of the Lusitania. "We understand one another," declares Sir Arthur Conan Doyle.

Sir Ignatius O'Brien, Lord Chancellor of Ireland: "The splendid way in which the people of the United States have thrown themselves wholeheartedly into the prosecution of the war on behalf of right and freedom has inspired us all with the hope that the world may soon, in the words of their great President, be made safe for Democracy."

Walter Hume Long, British Secretary of State for the Colonies: "I hope that the united efforts of the great Anglo-Saxon races and their allies may soon put an end to the curse of militarism."

The Most Reverend Dr. John B. Crozier, Primate of all Ireland: "May God bless our kinsfolk across the seas who are now cementing the long continued friendship of America and Great Britain."

Lord Tenyson, a son of the famous poet, sent this extract from one of his father's poems:

"Gigantic daughter of the West,  
We drink to thee across the flood,  
We know thee most, we love thee best,  
For art not thou of British blood?  
Hands all 'round!

God the tyrant's cause confound,  
To our great kinsmen of the west,  
My friend,  
And the great cause of freedom  
Round and round."

Sir Arthur Conan Doyle: "America and we understand one another. There is no more to say. Just one hand-grip and to work."

George H. Roberts, British Minister of Labor: "Patriotic labor here rejoices that its instinct finds such splendid response in the heart of American labor. We go forward to the achievement of a peace based upon universal justice."

John Podge, British Pensions Minister: "We look to the coming year for such a manifestation of America's power as will help forward the Allied aim of making the world safe for democracy."

The Right Reverend Dr. Ingram, Bishop of London: "The entrance of America into the war was the greatest event in the history of the Anglo-Saxon race and will, I hope, assure victory for our righteous cause."

Father Bernard Vaughan: "We congratulate with all our hearts the champions of the rights of mankind, the American people."

Viscount Mersey: "I regard the advent of America as the salvation of humanity."

Sir William Crookes: "I have been cheered by noting the whole-hearted manner in which America is taking

her place in the fight for right and liberty."

Marie Corelli, novelist: "Old dispensations are dead—old prejudices have ceased to exist—and not only hands across the sea have met to defend the Mother Country but hearts too, are united in a bulwark of safety for the world."

Max Pemberton: "The war aims of America are justice, truth and the survival of civilization. She is pursuing them in a manner worthy of her people and her history."

Sir Edward H. Seymour, Admiral of the Fleet: "Nothing can be more encouraging for the future peace and happiness of all countries, than the present alliance of the two great sister Anglo-Saxon nations."

Admiral Sir Cyprion Bridges: "President Wilson's affirmation that the fight is for the ultimate peace of the world, for the liberation of its peoples, is now the war-cry of the American nation. Those who know and admire it are confident that that nation will not stop until its inspiring object is attained."

The Duke of Montrose: "Ships of a new type but manned by the old Mayflower spirit, bring the sons of New England back to fight side by side with old England in a common cause."

Baron Desborough: "With the rest of our fellow countrymen I rejoice to think that the two great portions of the English-speaking people have, after many years, rejoined to fight in the common cause of Justice and Liberty."

Lord Mayor of Liverpool: "Liverpool continues to rejoice in the great part the United States is taking in the great war for liberty, justice and civilization."

J. P. Mahaffy, Provost of Trinity College, Dublin: "We hailed this magnificent exposition of America's policy and world aims (President Wilson's) with the deepest emotion and are confident that the unavoidable delays in their realization are signs of that care and deliberation which are characteristic of every great and sound undertaking."

Rt. Rev. J. Irwin, D. D., Moderator of the Irish Presbyterian General Assembly: "We are amazed at the completeness and magnitude of your sacrifice. Nothing finer, more chivalrous, more Christian has ever been done by any nation."

Sir Ernest Shackleton arrived at Panama from Chili, where he was on a diplomatic mission.

Francis J. Heney resigned as counsel for the Federal Trade Commission in its investigation of the packing industry.

# MEN AND WOMEN IN FIGHTING TRIM

**They Keep To The Top Notch of Health.**

The spirit of the times demands perfect health and nerves, and keeping them up to the highest degree of efficiency.

Wise men and women have learned that it does not pay to allow health or nerves to run down and are quick to take advantage of Nature's greatest red blood and nerve tonic, Phosphated Iron, the minute they feel they are slowing up.

Whatever your work may be there is no reason why it should continue to tire you; work should only use the right amount of your energy. It is trying to work on your nerves and forcing yourself that wastes your strength, runs you down, gives you those restless nights, loss of appetite and indigestion, when you get up in the morning as tired as when you went to bed. There is no sense in anyone being a victim of ill health, poor blood, over work, nerves or the blues when Phosphated Iron will afford such prompt and permanent relief.

All over the country men and women in every walk of life lay their good health, strength and nerves of iron to the use of Phosphated Iron, the red blood and nerve builder, and it will also put you on your feet, make you feel like a live one. It produces results that last, that's what counts, no "ifs" about it.

To insure physicians and their patients getting the genuine Phosphated Iron we have put in capsules only. Do not take pills or tablets. Insist on capsules.

Hinge Drug Stores and leading druggists everywhere.—Adv.

# WALTER FAGAR IS KILLED IN SMASH OF MOTORCYCLE

Walter Fagar, 26, of 506 Warren street is dead, while Emil Edinger, of 220 Alice street, Adam Rinko, 27, of 220 Alice street and his three year old son, Walter, are at St. Vincent's hospital in a critical condition as a result of motorcycle accidents. Daniel Keane, the driver of a Ford touring car, is under arrest charged with operating a machine without a license.

The first accident occurred near the entrance to Seaside park, when Fagar lost control of his machine and collided with a tree. Fagar was thrown against the tree and sustained a fractured skull. He was immediately rushed to St. Vincent's hospital, where he died. Frank Treardo, of 280 Sedgewick street, who was riding in the side car of the motor cycle, was thrown out of the machine, but was uninjured.

The second accident occurred at the foot of Ox Hill on North Main street, when Emil Edinger, operating a motorcycle, collided with Daniel Keane, who was at the wheel of a Ford touring car. When the collision occurred Edinger and Rinko, who was riding in the side car with his three year old son, Walter, were thrown to the ground, sustaining painful lacerations and internal injuries.

Keane succeeded in getting his machine back to the road and drove to the Fourth precinct station where he made his report. He was arrested when he failed to produce his license papers.

**Making housework pleasant!**

The young housekeeper who wants to start right, starts with aluminum. This is the one material good for a lifetime of service. Only way you can put it out of business is to drop it in the fire and burn it up. Our MIRRO line of aluminum covers every kitchen need. Economical, durable, handsome. What more need be said?

# AMERICAN HARDWARE STORES

(Incorporated)  
Lyon & Grumman, Retail Division  
FAIRFIELD AVE. AND MIDDLE ST.

# LABOR UNIONS STAND BACK OF THIRD U. S. LOAN

The Third Liberty Loan will have the solid support of more than 5,000 labor unions represented in the Second Federal Reserve District. The work of canvassing the great labor organizations of New York and the portions of New Jersey and Connecticut included in the district's boundaries, will be directed by Joseph Hartigan, former Commissioner of Weights and Measures of New York and now director of the Speakers' Bureau of the Liberty Loan committee.

Hartigan announced today that he had received assurances from representatives of the American Federation of Labor, unions affiliated with the Federation, the four railroad brotherhoods, the United Hebrew Trades and many independent labor organizations, that a careful canvass will be made of all members for loan subscriptions. In addition to this, most of the large unions will make appropriations from their treasuries to buy bonds. The carpenters have already set aside \$75,000 to buy bonds.

Hartigan said that the unions will organize for loan work at meetings to be held before April 5. Members of the Speakers' Bureau will get in touch with organized labor at street meetings during the campaign.

Members of the general committee of forty-five on the Liberty Loan committee's Labor bureau, include: James P. Holland, president of the New York State Federation of Labor, Edward A. Bates, secretary; George F. Mordant, president of the Connecticut Federation of Labor; I. M. Orm-burn, Arthur A. Quinn, president of the New Jersey Federation of Labor and Henry F. Hilfers, secretary.

# LACEY IS BOUND OVER TO MAY TERM

William H. Lacey, of 50 Kosuth street, who was arrested yesterday by Sergeant Cody, of the Second precinct, charged with robbing and setting fire to the saloon owned by Harry Weltner, 278 Cannon street, early yesterday morning, was arraigned before Judge Wilder, in the city court, and denied having any knowledge of the affair. He was bound over for the May term of the Superior Court in bonds of \$500.

# Prisoners Clear Hall Home Grounds

Work of clearing up the grounds of the Hall Home property, now owned by the county, was commenced yesterday by prisoners from the county jail working under direction of Sheriff Simeon Pease for the County Commissioners. There is much work to be done, and it will place the lawns in condition for grading and beautifying when the commission is ready to take up that work.

# ENLISTS IN CAVALRY.

Malcolm L. Tyler of 490 Wilnot street enlisted this morning in the cavalry of the United States army and left immediately for Fort Slocum where he will receive training.

Belmont Park race track was chosen as the landing place for postal service airplanes carrying mail between New York and Washington.

# SCIENTIST SAYS ANT HAS GREAT SMELLING POWER

Stockholm, April 9.—The ant has been greatly overrated in the opinion of Rich Ege, a Swedish naturalist. Solomon set the fashion with his famous admonition to the sluggard, and the ant has been living under false pretenses ever since. For, as a matter of fact, she is a hopeless chuckhead, and to consider her ways is no way to become wise.

Mark Twain arrived at this conclusion many years ago, and science now has confirmed him in the person of Mr. Ege, who publishes the results of a series of experiments with ants. He disposes first of the insect's supposed uncanny power to recognize other tenants of its own anthill. Mr. Ege washed ants in ether, dipped them in ink and marked them with a number of ants from another hill, and put them back among their own friends, who promptly fell upon them and ejected them. He took ants fifty times larger than the inhabitants of a certain anthill, washed them and treated them in a liquid process, from the ants of that hill, and then placed them in it. The Lilliputian insects did not recognize the giants as invaders. Mr. Ege concludes, therefore, that the supposed remarkably sharp recognitional powers of the insects are simply a matter of scent and inherited reflex.

Ants removed from familiar paths blunder blindly along, with no sense of distance or direction, until they strike a trail made by themselves or other ants. In many tests made by Mr. Ege the insects disclosed "no intelligence that is to be found in the digestive processes of human beings." In other words, he found nearly all their acts are but movements by reflexes, unconnected with intelligence.

# CAN'T GET MEN TO CLEAN THE STREETS

The long delayed attempt to start the spring "clean-up" began yesterday under the direction of Streets Superintendent Thomas J. Cavanaugh, but instead of the 200 or 300 men needed there are only three gangs of 15 men each. Men for this work cannot be obtained. Public Works Director J. A. Costello says: "I offer them \$2.50 a day and they laugh at me and tell me they can get \$4 or \$5 in a shop." Every street in the city will be gone over.

# Hartford Preacher Succumbs To Grip

Hartford, April 8.—The Rev. Dr. William DeLoss Love, president of the Connecticut Humane society, and for a quarter of a century prior to 1910 pastor of the Pearl Street Congregational church and its successor, the Farmington Avenue Congregational church, died at his home here today after a month's sickness with grip. He was an authority on New England history and had written much on that subject. He was a member of the park board for 15 years and had four children.

Dr. Love leaves his widow and four children.

Samuel Deinowitz, 45, leaped from a window of his fifth floor apartment in New York. Falling eyesight impelled his action.

# How to Make a Real Wrinkle Remover

In these days of cleverly advertised "beautifiers" and "rejuvenators" it is hard for a woman to believe she can make a simple home remedy for the removal of wrinkles which will do her much more good than the average made preparation. There's nothing in the world so effective for erasing or preventing wrinkles, age marks, bagginess of cheeks and chin as a simple and harmless solution made by dissolving an ounce of pure powdered saxolite in a half pint of witch hazel. These ingredients of course can be had at any drug store. Use the mixture daily for a while as a refreshing wash lotion. The quick and satisfactory results will surprise you. Even the first application produces very marked improvement. The wrinkles are less in evidence and the face has a firm, "solid," comfortable feeling. Soon you will look considerably less than your age.—Adv.
