Farm hands are becoming the pampered pets of the labor element, according to a preliminary report of the Illinois farm labor situation by State Food Administrator Harry A. Wheeler, in Chicago. They have been getting as high as \$15 a month and board...

Mr. Wheeler's reports from local food administrators in every county and practically every township direct, indicate that the farmer is at a disadvantage with the manufacturers, the mine owners and the railroads for laborers. The mobilization of the men under 21 and over 31 with knowledge of farm work may be necessary next year to sow and harvest the record crops of Illinois...

ILLINOIS BRIEFS.

Springfield—Railroad freight rates in Illinois will take a boost October 15, Monday. An order giving the railroads the privilege to increase their rates on coal fifteen cents a ton has been issued by the Illinois Public Utilities Commission. The rates on other commodities will also be raised. The rate increases vary from one cent to fifteen. The new rate will remain in force for a period of one year.

Springfield—"Dry" workers in Illinois are planning to swamp the state with prohibition propaganda. Six cities have already been attacked. Dr. A. R. Van Fossen, of Springfield, spoke in many churches throughout the county last Sunday and expects to continue his work tomorrow.

Springfield—Infantile paralysis in Illinois is on the wane. Information received by Dr. C. St. Clair Drake, director of the State Department of Health shows the number of cases reported to be on a decrease.

Springfield—Brigadier General Edward C. Young, of Chicago, today commands the Illinois Militia reserve. He has been appointed head of the Home Guards organization by Governor Frank O. Lowden. General Young for many years was colonel of the First Cavalry, Illinois National Guard. When the Guard was formed into a division he was made commander. On the abandonment of the divisional organization, he retired.

Springfield—Save Bossy. This is the advice of H. E. Young, secretary of the Illinois Farmers' Institute. The institute urges farmers not to slaughter any of their dairy cows and to raise heifers and heifer calves for use in the dairy.

Springfield—Consumers of potatoes beware. The price is going to take a boost. It has already raised ten cents here. Dealers blame potato speculators. "There is plenty of the commodity, but many of the farmers are holding them for higher prices," they say.

Quincy—This city will entertain the Illinois State League of Pressmen next year. This was decided upon at a meeting of the league held in this city.

Springfield—Thirteen hundred soldiers, civil war veterans and heroes of the Battle of Vicksburg will attend the National Memorial Union and Peace Jubilee at Vicksburg, Miss., October 16 to 19. The compilation of the list has just been completed by Adjutant General Frank S. Dickson.

Although the general assembly has appropriated \$40,000 for the purpose, the sum is not sufficient to cover the entire expenses of the battle scarred patriots. General Dickson has announced. The number to attend is larger than expected and as a consequence the funds will cover only the actual railroad fares. The total number of applications received was 1,500. Statisticians found the appropriation not large enough to even pay the transportation of this number and suggested to the adjutant general those soldiers who could afford it be asked to pay their own expenses. This was done after General Dickson had called a conference of the Grand Army officials. Telegrams were sent to all of the applicants. As a result two hundred were dropped from the list.

It was at first planned to pay all the expenses of the soldiers, including the railroad fare and sleeper accommodations. Abandoning this idea, owing to the large number, the state will now only pay the actual railroad fare and provide for the veterans during their stay at Vicksburg. The little luxuries and comforts enroute will be done away with entirely. The average fare will be \$27.50.

HAS BROKEN BACK BUT IS TAKEN IN DRAFT

Greensburg, Pa., Oct. 13.—Although his back was broken five years ago, George Whipple, a farmer of Laurelville, this county, has been accepted for service in the National Army. Whipple has only a lump now where the vertebrae were located, and he says he is strong enough to make it warm for the Germans.

WHITES GIVEN LONG TERMS FOR PART IN E. ST. LOUIS RIOTS

Belleville, Ill., Oct. 13.—The first white men to go to trial on charges growing out of the East St. Louis race riots of last July were found guilty by a jury in the Circuit court this afternoon. The jury was out two hours. Ten negroes were found guilty last Sunday, and each was given an indeterminate sentence of fourteen years. Similar terms of imprisonment were fixed against the two white men found guilty today.

Keane Only 17 Years Old. The men convicted are Herbert Wood and Leo Keane, jointly charged with the murder of Scott Clark, a negro, who died four days after the riot of July 2 as a result of injuries received in the rioting. Witnesses of the state testified that Wood and Keane were arrested as they were dragging Clark along the street by a rope which had been fastened about his neck. Keane is only 17 years old.

and many of them will give up their lives, others will remain maimed and crippled for life—in the eye without blushing with shame. Don't slack now at this crucial time. Get in line with the others. Show them that Ottawa is imbued with proper patriotism and is willing to do its bit."

He then whispered in stage tones: "I understand from good authority that Ottawa did not do its bit in the first bond issue and it is going to take the same stand again?"

Rev. Quinn spoke for about five minutes during which time he delivered truth after truth in his characteristically forceful manner. "Would one word of mind add to the success of America in this war," he said, "it would not be for me to refuse to utter it."

"America is the greatest country in the world. It is God's choicest spot and let us do all within our power to aid in the great work cut out for her," he continued, "and the Liberty Loan is the only way that we at home can show we are willing to do our duty," he ended.

Mr. Dauber gave statistics in connection with the loan and said La Salle county had been apportioned on the basis of its wealth, a total of \$4,191,000 as its share of the loan. He called upon the people to put La Salle county in the front line and the work was cut out for Ottawa to lead the drive.

President Griggs, of the Chamber of Commerce, announced himself as certain Ottawa would do its bit when it had been stirred from its apathy and came into a full realization of the importance of the proposition.
