CHICAGO U. MEETS GOPHERS IN FINAL DASH FOR HONORS

A victory over Minnesota tonight in Bartlett gymnasium will give the University of Chicago basketball team the conference championship. Should the Gophers trim the Maroons a decisive stake evening on the final battle at Wisconsin next Friday night. The Maroons won from the Gophers, 27 to 16, at Minneapolis a month ago, but that was with the Gophers' quintet was crippled during the influenza epidemic and able to put up only a feeble front. Tonight the Gophers should be much stronger with Arnold Oles, the all-around star, back in the game. Oles and Armstrong, forwards at the northern base, run wild in the last two games, and they will be closely watched by the Maroon defense tonight. It will be the last basketball game on the Chicago floor for Captain Hinckle, Curtiss and probably Volmer, and the last time that Coach Page will direct a Maroon quintet in Bartlett gymnasium.

TRY TO BOOK PETE HERMAN AND WILDE

Philadelphia, Pa., March 6.—A battle between Jimmy Wilde, five-weight champion of England, and Pete Herman, bantam champion of the world, may take place in London in May or June. C. B. Cochran, the English promoter, is angling for the match, and he can get Wilde to agree to allow Herman to enter the ring at 118 pounds, ringside, the contest will probably go through. Wilde is holding out for 116 pounds, however. Herman, however, absolutely refuses to make that figure. From all indications it looks as though the fight will be put over.

PICK BEST MEN FOR U. S. HOCKEY TEAM

Pittsburgh, Pa., March 6.—The American hockey team to compete in the Olympic games will be selected from the players which compose the Pittsburgh, Boston and St. Paul teams. It was announced here because the rules governing the game provide that each player must be a citizen of the country, and those flag boys plays. This decision will not prevent the playing of the final games in the Pittsburgh-Boston series here. 'When the national hockey committee met in Boston some weeks ago to arrange for a team to go to Belgium,' said Sheriff William Haddock, a member of the committee, 'it was decided that Pittsburgh and Boston should play an elimination series of six games, and the winning team should represent the United States in the Olympic games. 'We had no, at that time, however, received the rules governing the contest, and when they came a few days ago we discovered that every player must be a citizen of the country he represents. As a number of the Pittsburgh players are not citizens of the United States, we then decided to select the players from Pittsburgh and Boston and to take additional men from St. Paul. 'We are entitled to a team of seven men and seven substitutes, and we want the substitutes to be just as good as the regular players.'

Today's Markets

CORN MARKET TAKES UPTURN

(City the Associated Press) Chicago, March 6.—Strength developed in the corn market today after a hesitant opening. Lightness of receipts acted as a bullish influence and so did announcement that the United States grain corporation contemplated selling 200,000 barrels of flour to European credit. During the afternoon commission houses were persistent buyers of small lots of corn. Opening quotations, which ranged from 8 1/2 to 1 1/2, advanced, with May \$1.41 1/2, to \$1.42 and July \$1.35 1/2, to \$1.36 1/2, were followed by a moderate general advance. Oats hardened with corn. After opening unchanged to 1/2 off, including July at 75 1/2, the market scored a slight general gain. Provisions were weak owing to lack of any aggressive support. Selling however, was not urgent.

Money Exchange

New York, March 6.—Prime checks opened at 12 1/2 to the dollar, a decline of 1/2 centimes, and fire checks at 17 1/2 to the dollar, or 2 centimes. Marks were quoted at 1.96 cents.

Metals, leathers and several obscure specialties also rose 1 to 4 points, but stocks, equipments and rails recorded only nominal changes. The closing was strong. Sales approximated 25,000 shares. Foreign exchange was generally under yesterday's final quotations.

WILL PROBE RUSSIA

Explains Sodom and Gomorrah. Bricks cemented together with dried petroleum have curiously enough, been found in large quantities in Sineveh and Babylon. The oil-bearing and sulphur-impregnated strata of the valley of the Dead sea, which are now being developed, supplied the 'brimstone and fire' which destroyed Sodom and Gomorrah.
