

### GET \$5 REWARD FOR TESTIMONY IN ALLEY CASE

Wich Offers Cash For Information of Cluttering After Cleanup—Fines For Offenders.

A reward of \$5 was offered today by Commissioner Frank Wich, in charge of the department of streets and public improvements, to the person who gives information leading to the arrest and conviction of any one throwing tin cans, bottles or rubbish in alleys that have been cleaned thus far in the spring cleanup campaign.

Two weeks must elapse before the alley cleaning work is brought to a close, and Commissioner Wich said that he does not intend to have the alleys cluttered up this summer as they have been in the past.

He asserted that all tin cans and bottles must be placed in containers and kept in yards. None of these containers are to be allowed in the alleys until notice is given that collections are to be made.

Under no consideration is rubbish to be placed in the alleys. All such refuse must be burned during the summer months.

Save \$5,000 in Year. Commissioner Wich said that by enforcing the ordinance for keeping alleys clean the city can save \$5,000 from collection work, which amount of money can be used in carrying out much needed improvements.

He declared that in the past tin cans, bottles and rubbish have been thrown in the alleys in promiscuous heaps, and that the city haulers have lost a great amount of time in loading up the jumbled mess. It was also pointed out by the

commissioner that many persons wanted to keep the alleys clean, but when others throwed debris around promiscuously, they also got in the habit, especially as there was no real reason why a few should keep containers in their yards for cans and bottles while others cluttered up the alleys. However, the sentiment in behalf of keeping the alleys cleaned is to be bolstered up by an enforcement campaign on the part of Commissioner Wich.

Persons arrested for violating the commissioner's order are subject to fines from \$5 to \$200, and the person giving the information leading to the arrest and conviction of anyone will be given a \$5 reward.

### ASKS DIVORCE ON DESEERTION CHARGE

Charging her husband, James Conway of Rock Island with desertion, Florence Aldenbrook Conway of Davenport, filed suit for divorce today before Justice of the Peace W. W. Scott of Davenport. The hearing will be continued Saturday morning.

Feb. 28, Conway filed suit in the Rock Island county court for annulment of marriage, claiming that he was forced into a union with Florence Aldenbrook of Davenport.

### PLUMBERS' WAGE DEMANDS GRANTED

The demands of Davenport plumbers, who threatened to go out on strike tomorrow unless they were granted a wage of \$8 a day, were granted them today. The new scale goes into effect immediately although the contract of the Davenport plumbers does not expire until May 1, 1921.

**NO TROUBLE.** To make ordinary candy and call it Pecan Roll, but to produce that rich, fluffy nugget found in ABRAHAM'S PECAN ROLL requires ABRAHAM SKILL.

### MAY EXCHANGE CERTIFICATES FOR U. S. BONDS

Holders of Third Liberty Loan Temporary Slips May Get Permanent Bonds Free.

Holders of third Liberty loan coupon bonds have started to exchange their temporary certificates into permanent bonds in the Seventh federal reserve district, according to the reports of the Federal Reserve Bank of Chicago. As the returns are beginning to come in the officials of the Reserve bank wish to reiterate the statement made in March, when the first exchanges were made, that there is absolutely no charge to the bond holder for the exchange.

"The government makes no charge for the exchange of temporary into permanent bonds," said a Federal Reserve bank official. "The temporary ones may be surrendered through banks and trust companies and forwarded by them to the Federal Reserve Bank of Chicago. The new bonds will be delivered at the expense of the United States. The bank wishes to make this point clear to all holders of Liberty bonds so they will know officially that no bank has the right

I have put on a Ford Taxi Service since quitting the express business. Stand at Graham's Drug Store. Phone R. L. 1526. Prices Reasonable. Prompt Service. JOE JACKSON.

to charge anything for effecting the exchange."

#### Many Subscribers.

In this district there is outstanding approximately \$602,000,000 of the third loan bonds, dated May 9, 1918, and maturing Sept. 15, 1923. To this issue there was close to 3,450,000 individual subscribers.

The Reserve bank has supplies of the permanent bonds of the first and second 4s and first and second 4½s. In round numbers, there is \$518,000,000 of these four classes of

bonds outstanding in this district.

In making exchanges on the first and second 4s the treasury department has ruled that deliveries of permanent bonds will consist of first and second 4½s, unless the holder specifically requests otherwise. As there is no advantage in possession of the 4 per cent bonds, it is expected that by making exchanges in this manner they will be practically eliminated from the market.

Maturity Date Same. The first 4s represent conversions

of the first 3½ per cent Liberty loan bonds to the 4 per cent bonds of the second Liberty loan. The second 4s are the original second loan. There is every advantage in converting these to the 4½ per cent bonds of the third Liberty loan, as they retain their original maturity dates. The first 4s have been without an interest coupon since last December; the second 4s since November. This interest will be fully adjusted on the exchange into permanent bonds.

## Doing the BIG things FIRST

HERE is the first tire that ever was given a whole factory to itself!

Firestone Plant No. 2, with a capacity of 16,000 tires per day, is devoted solely to the production of 1 1/2 3 1/2 inch size.

It was a problem made to order for Firestone—big volume production of a high grade article.

Firestone met it with a typical Firestone answer—a separate \$7,000,000 factory.

Buy Firestones.

Most miles per dollar is a Firestone pledge, to the big car owner as well as to the owners of light cars. See the new Standard Oversize Firestone Cord.

### Bread—the Perfect Body Fuel

Man is a clock that goes all the time, rather than a machine which works only at intervals.

He may sit absolutely still or lie quietly asleep, but his body is constantly burning fuel—

For the busy heart, lungs and other organs never take a vacation.

The right fuel, and enough of it, is the first requirement of any man's diet.

Bread—Best of all Foods—is the right fuel. It is the fuel-food on which work people of every sort perform miracles of labor.

Every slice, down to the last crumb, means new strength and energy. Eat more Bread—

### Eat—"Two Slices for One"

Tri-City baked Bread is Bread at its Best—always pure, tempting and nutritious.

52¢ How would YOU like a raise like this?

—and for 34 Years Work

THAT is the kind of increase in salary the minister has received. His living expenses have risen just as fast and as far as yours.

But he is paid on the average just 52 cents more per church member than he was paid 34 years ago.

#### The Minister Never Fails You

Every officer of the Government with a war message to deliver appealed to the ministers first of all.

But 80% of the ministers receive less income than government economists figure as a minimum for the support of an average family.

When hospitals need money they enlist the support of the ministers—and receive it.

But when sickness visits the minister or the members of his family they must be treated in a charity ward. His pay is less than a day laborer's.

#### We Pay Him Half the Wages of a Mechanic

8 out of every 10 ministers receive less than \$20 a week—about half the pay of a mechanic. And of these pitifully inadequate salaries, how much do you contribute? Nothing if you are outside the church; an average of less than 3c a day if you are a church member.

All of us share in the benefits of Christian ministers to the community. They marry us; bury us; baptize our children; visit us when we are sick. In their hands is the spiritual training of the youth.

#### We Are All Profiteers at Their Expense

Part of the Interchurch World program is this—a living wage for every minister of Jesus Christ; an efficient plant and a chance to do a big man's job.

If you want better preachers, help to pay the preachers better. It's the best investment for your community—and for your children—that you can make.

They didn't fool Caruso!

The great tenor was invited to a demonstration of a new fangled talking-machine attachment which "improved" the music by making it louder in "spots," whenever the player took a notion to make it so.

Being good natured Caruso, went. But the "loud blast" arrangement didn't meet with his artistic approval.

Moving over to a Victrola, he grasped the modifying doors, and opening and closing them he exclaimed: "That is the way to do what you are trying to do."

It is desirable that you should be able to control the volume of sound and that is done by the modifying doors of the Victrola—no makeshift device is necessary.

Everything that is best in talking-machine construction is incorporated in the Victrola.

The modifying doors are among the numerous exclusive patented Victrola features, and with the Victor system of changeable needles they give you full control over the volume of sound without in any way interfering with the artist's interpretation.

Come in and let us show you how easily they enable you to increase or diminish the volume of sound. Then you'll appreciate what a valuable feature this is—how much it adds to your enjoyment of the instrument.

Victrolas \$15 to \$300. Victors \$10 to \$100. Easy terms to suit your convenience, if desired.
