Rock Island County will observe go-to-Sunday-school day next Sunday, which is being celebrated all over the country on Oct. 24. The aim for this day is to get everybody—men, women and children—into some Sunday school, only sickness or some unbreakable engagement being taken as an excuse. F. W. Adelmann, county Sunday-school association secretary, said today.

The superintendents of Rock Island county schools will be asked to notify Mr. Adelmann, 209 Reliance building, Moline, of the attendance next Sunday, so that it may be forwarded to the state department and in turn to the national bureau.

The movement was started a few years ago in Kentucky and resulted in the attendance at Sunday school for the day of doubling the ordinary attendance. A plan like this, fully worked in every community in Illinois, would mean a Sunday school attendance of over two million people. The spirit of a joint movement on the part of Sunday schools of the community to get everybody to attend school in the community of his choice. The

CHILDREN OF TODAY ARE THE FUTURE OF AMERICA

The children of today are the future of America. They are building their character from the material we furnish them. The state does not furnish religious and moral training. That is left to the parents of America. Future America depends on the youth of today and their training places the responsibility upon the Sunday schools of all denominations of America—Roman Catholic, Protestant or Catholic.

The perfect gift is consummated when a specific object joins the desire to receive, with the desire to give.

To determine that object—ah, that is the finesse of giving.

But it is not finesse to guess. Even if one has a lucky guess it has profaned an ethical relation by an act of chance.
