BOY'S RECOVERY IS NOW THE TALK OF THE TOWN

Joseph Hertel, Age 16, Had Been in Poor Health All His Life—Gains 30 Pounds Taking Tanlac.

"I have seen some strange and remarkable things in this world, but I have never yet seen anything to equal the way Tanlac has restored my grandson's health and built him up," said Joseph Hertel of Dawson, Ill., while telling of the recovery of young Joseph Estrop. "Joseph is 16 years old," he continued, "and everybody in Dawson knows what bad health he has been in all his life. His stomach was so badly disordered that he couldn't eat without being bothered with gas and bloating and shortness of breath, and at times he got so faintly and smothery that he could not stand up. Often he had splitting headaches, and sometimes would get so dizzy that he fell flat wherever he happened to be; why, it wasn't safe to let him go out alone.

Mr. E. Conomy says.

"Think twice. Exercise that second sober thought. First, think why should you swap good money for shoes at full price. Second, think what a saving of 33 1/3% to more than 50% actually means. All shoes must go to make room for a new department at the "big store." Compare and convince yourself that prices will take 'em away on the jump."
