Why
the instrument you buy
should be a
VICTROLA

Because it is supreme in beauty and fidelity of tone. Because it is the chosen instrument of the most famous artists. Because it is the instrument of great musical achievements; the instrument which revolutionized talking-machine construction; the instrument which is the one recognized standard in the world today.

Back of the Victrola are the genius and skill which developed the talking-machine from a mere toy into the world's greatest musical instrument; the organization which has the longest experience in producing the modern disc type of instrument; which invented the original cabinet-style talking-machine, the Victrola; which originated all the important talking-machine improvements.

The victrola is the product of the largest and most complete plant in the entire musical instrument industry; factories which for a quarter-century have been devoted exclusively to the manufacture of talking-machine products; factories whose vast facilities and modern equipment enable us to produce every part of every Victrola right under one roof—the Victrola is the only talking-machine made in its entirety by one concern.

These facts have a direct bearing on the instrument you buy for Christmas. The Victrola is greatest because the company which makes it is greatest. Buy the Victrola for Christmas and you will always have the satisfaction of having the best.
