## IS AFTER LYNCH'S SCALP.

Texas League Has Him Suspended by the Nashville Team.

Paddy Lynch has been suspended by the Nashville team of the Central league. He has been playing good ball, and his admirers here will regret to hear of his trouble. The Texas league is responsible for his suspension, alleging that he accepted advance money from the management of the Austin club last season, and failed to report for duty. Lynch denies the truthfulness of the accusation and says he will be able to prove its falsity.

L. G. Eddy has a letter from Lynch. He says that he has been suspended for a week or so, until such time as he can satisfy the management of the Nashville team, that he has not committed any such offense as the Texas league charges.

## THREE MEN IN THE RIVER.

William Rice, Emil Borneman and Ernst Osborn, of Gilbertown, had a narrow escape from drowning in the Mississippi yesterday morning. A skiff in which they were riding across to Moline was capsized when in the middle of the stream. They managed to cling to the boat until help reached them.

The three men were nearly exhausted, and there was much anxiety as to Osborn, with whom physicians worked all day. It was necessary to give him hypodermic injections of strychnine before he could be revived.

Stroke of Paralysis.

## The First Teacups.

Even after tea was introduced into Europe and had come into general use teacups were scarce. At the same time coffee was introduced, but apart from Constantinople the first coffee cups in Europe date back only as far as 1645 in Venice, 1659 in Paris, 1653 in London and 1694 in Leipzig. From the first, however, the conventional oriental coffee cup, without stem or handle, was little used, and in Germany not at all. The Chinese teacup was used for tea, coffee and chocolate as well. Specimens of porcelain were undoubtedly introduced into Europe in the middle ages, yet not till the sixteenth century were cups imported from China in any great quantities, and even then it was as articles of vertu. Most of these found their way back to China again, as collecting porcelain is a lasting fad there, and high prices are paid for good specimens. The collection of Chinese porcelain, if only the genuine specimens are desired, requires immense study and knowledge, as the Chinese are skillful imitators and put numerous falsifications on the market.—Jewelers' Circular.

A woman's work is hard in many ways. Unless the woman is strong and healthy her work will cause her much distress and pain, and she will suffer from headaches, and backaches and side-aches, and each evening will find her utterly worn-out, sick and disgusted with life. In this condition of mind and body she cannot be a loving and amiable companion for her husband when he returns from his work, weary too in body and mind.

If a woman wants to live a happy, contented, loving, helpful married life she cannot take too much care of the health and vigor of the organs distinctly feminine, for her general health and strength is largely dependent upon her special health in a womanly way. Dr. Pierce's Favorite Prescription enables a woman to be always well and strong where a woman most needs health and strength. It acts directly on the important and delicate organs involved in her wifehood and motherhood. It makes them strong and healthy. Taken during the period preceding motherhood it banishes the usual discomforts and makes baby's coming easy and comparatively painless. It insures the new-comer's health and provides an ample supply of natural nourishment. It cures all weakness and disease, and head-aches, backaches, and side-aches no longer torture her in her work. Over 90,000 women have testified to the wonderful virtues of the "Favorite Prescription" over their signatures. An honest druggist will not try to force on you a substitute for the sake of a few pennies added profit.

Dr. Pierce's 1000-page "Common Sense Medical Adviser" will be sent free, paper-covered, for 21 one-cent stamps to pay cost of mailing only. Or cloth-bound for 31 stamps. Address: World's Dispensary Medical Association, Buffalo, N. Y.
