SATURDAY, JULY 3, 1897.

Hurrah for the glorious Fourth, if Fulton is still on the map.

The master in chancery is a pretty big man in the community sometimes —if it please the court.

A SECTION OF Rider Haggard has been chosen by the British government as its minister to Venezuela.

Maj. Hawas has done the proper thing in boycotting the Fulton peo-ple. It is a species of reciprocity. TALKING about the latest Fulton move, how do the people of Rock Island like government by injunc-tion, anyway?

THE latest addition to the list of curiosities of the duchess of Mariborough is a negro page boy. A sort of companion piece, for the queen's Indian attendant, mayhap.

A Town that will hang on to other people's property does not offer much encouragement to outsiders to venture within her gates. Fulton is giving herself a beautiful reputation.

THE time may come when a man gets into Fulton after train time he will commit suicide for fear that he will be enjoined from leaving the

Mank Hanna, with all the machinery of the government at his command, is now repaying every monopolistic corporation in the United States which on contributed to the enormous campaign fund which was at his disposal in the last election. Not a single boon begged of congress by the trusts this spring has been refused. Every anti-trust bill or amendment submitted in the senate has been voted down, and Mr. Hanna has invariably aided in its defeat. The republican party in Ohlo has endorsed Mr. Hanna for the United States senate and thereby records itself as approving and favoring the trusts. For this, if for no other reasons, the party deserves to be defeated at the coming fall elec

Republicans as well as democrats say that the approaching campaign in Ohio will be the most important state battle for supremacy that has been fought in 25 years. Politicians declare that if Ohio democrats are successful in their fight this year the state platform and principles will wield a supreme influence over the next democratic national convention. However, the most noticeable effect ment democratic national convention.
However, the most noticeable effect will be in the congressional elections which are to be fought in 1898. The memory of the buying public purposes which are to be fought in 1898. The surest and the propositions will no doubt put forth unusual means to maintain control of Ohio, for they recognize the danger to the party victory in 1900 if the Buckeye state should go democratic this fall.

The Des Moines Leader, in speaking of the Iowa democratic state convention in Des Moines, says: "It was the general report of delegates to the convention that 75 per cent of the democrats who last fall bolted the party this fall would give the regular democratic ticket their support, on the ground that national issues were not directly involved, and support, on the ground that national issues were not directly involved, and the party this fall would give the regular democratic ticket their support, on the ground that national issues were not directly involved, and the party this fall would give the regular democratic ticket their support, on the ground that national issues were not directly involved, and the party this fall would give the regular democratic ticket their support, on the ground that national issues were not directly involved, and the party this fall would give the regular democratic ticket their support, on the ground that national issues were not directly involved, and the party this fall would give the regular democratic ticket their support, on the ground that national issues were not directly involved, and the party this fall below the party this fall would give the regular democratic ticket their support, on the ground that national issues the party this fall would give the regular democratic ticket their support, on the ground that national issues the party that is why the wise merchant is why the talkey the clements of believes the blood; and strength to the water is why

The July number of the Forum The July number of the Forum contains and exceptionally interesting set of articles. The list of subjects includes just those topics, general and local, which every one is discussing—from the Græco-Turkish war to Mayor Strong's experiment in non-partisan municipal government in New York. Perhaps the article which will attract most attention is that entitled "Why Spain has Failed The Chicago Chronicle which did what it could to aid the republican party last fall, now says: "Democracy ought to get together. Democracy ought to welcome any enemy, any possible enemy, of the republican party, which is today, through its championship of commercial slavery, the most insidious foe of the republic." It is a healthy sign to have the Chronicle talk that way at any rate.

BICTCLE riding in the course of a few years will bring knee pants into style so they will be worn altogether. Outing for July is one of the best numbers that ever left the presses. A pleasing variety of sketches of outdoor life, with many beautiful illustrations, supply exactly the sort of reading which is desirable these sunny days. The contents are:
"Her Highness," by Caroline Shelley; "A Highland Holiday," by Ed W. Sandays; "The New Twenty-Footers," by R. B. Burchard; "Camps and Camping," by Ed W. Sandays; "Artistic Photography Awheel," by Dr. John Nicol; "Cycling Clubs," by A. H. Godfrey; "Salmon Fishing in Cape Breton," by W. H. Mac; "The Yachting Circuit of Lake Erie," by C. F. Flannery; "Along the Riviers Awheel," by Paul E. Jenks; "Across the first poor in the paper, when he is search ing for information, just as you are sound." in the contract was the contract of the Pleasant Ridge school house. Addended the contract was the first paper and meets his eye when he is searching for information, just as you are sound again.

The coats and hay harvest will soon be at hand.

Clarence McConnell is down with the massles.

Corn is doing finely—as well as could be expected.

Mrs. R. B. Ellis, of Cable, is now a Bowling visitor.

T. H. Ellis, of Rock Island, was a caller here Sunday last.

Ramberries are now being harvest—the other schemes, and how the chances favor the paper, when it is printed therein. All other forms detaction is concentrated on what is printed therein. Fellows will say, "Look at that old timer with the long pants legs." Already some of the physicians and professional men in Chicago are keeping their office hours clethed in knickerbockers just as they are in Rock Island.

Soon after the queen's accession a big review was contemplated in Hyde park. Her majesty intended appearing on horseback, and every prescution was taken to insure her safety by properly training the royal charger on which she was to be mounted. Lord Melbeurne, the prime minister, took exception to the safety needs to the safety and urged that it "Victorian Greater Britain and Its prime minister, took exception to the arrangement, and urged that it would not be proper for her majesty to appear except in one of the royal carriages. "Very well," said the queen, "no horse, no review." And there was none that summer.

Thomas Davidson has an article on "Victorian Greater Britain and Its Future." There are other contributions of interest and instruction pertaining to matters of foreign and home importance.
