GENERAL WILSON ON THE STAND.

Took Too Long to Land Troops in Porto Rico - Men Were Well There When Marching, but Sick in Camp-Wide Difference of Opinion Regarding the Camp Thomas Site-Baldwin Condemns the Water Supply.

Lexington, Nov. 1 .- The war investigating commission arrived here yesterday and after going to Camp Hamilton and inspecting it came back to town to take testimony. Major General James H. Wilson, now commanding the First arr'y corps, was the first witness. The general said he was in charge of the First division, First corps at Chickamauga Park. He left there with his command about July 1 bound for Porto Rico. The disembarkation at Porto Rico, he said, took eleven days when it should have been accomplished in two. This was on account of not having steam launches, for which he asked the department in vain. In Porto Rico the health of his troops was good on the march, but as soon as they came to a standstill sickness broke out. General Wilson said he had found the government rations good and sufficient. The most of the sickness among the troops was caused by the men eating fruit and trash. "I consider Chickamauga Park one of the finest camps in the world,'

said General Wilson. Gives Some Sensational Evidence. Lieutenant Colonel Frank D. Baldwin, espector general on General Wilson's staff, and who was on General Wade's staff at Chickamauga, gave some sensational testimony concerning the conditions there. "When the camp was first established there," he said, "I did not inspect a single hospital but that I ound it in a filthy condition. Reports vere made of this to the commanding eneral and improvement could be observed for a few days. But in a short time matters would get as bad as ever. About the time the camp was broken up this had been corrected to a large extent." Colonel Baldwin further said that he had known requisitions to be made frequently and not to be honored. Colonel Baldwin said so far as he knew General Compton, commanding the Second division, only inspected his com-

mand on Sunday morning. Thought the Park a Bad Site. Colonel Baldwin said: "I do not consider Chickamauga Park a suitable place for a large number of troops for many reasons. My observations was that sinks could not be dug over six feet without striking rock. The only water supply was Chickamauga creek. On two occasions I observed the water entering the pipes to be in exceedingly bad condition. I saw the creek nearly every day and I never saw the water in such condition that I should have

liked to drink it." Men Would Drink Bad Water. Asked if men were allowed to drink water from a certain spring, Colonel Raidwin said: "It is true that they were not, but as an officer humorously re-marked, to keep the men from drinking water from any pool it was necessary to put a sentinel over the pool and then put another sentinel over him to keep

Colonel Baldwin stated that no such arrangements were made to take care of the sinks as have been made here at Camp Hamilton, and that it was a common complaint that frequently regiments dumped their worst men off on

MEDICAL SUPPLIES SCARCE.

Witnesses Relate Great Difficulty in Obtaining Them at Chickamauga.

Baldwin also said that it was impossible to obtain lime in sufficient quantities. The next witness was Captain Benjamin Johnson. He said there was no lack of anything at Santiago, and that the transports for troops were all right. He considered the camp at Montauk Point a good one. Colonel William A. Pew, of the Eighth Massachusetts was called. The principal complaints he made were of the difficulty his regiment experienced in securing medical supplies. He said his surgeon would make out a requisition and hand it in to the proper officers and they would return them saying there were no supplies and it was of no use to make regulation, Col. Robert W. E. Leonard of the Twelfth New York, testified that the surgeon of his regiment was continually clamoring for medicine to give the men in quarters. He could not secure them, he said, so the colonel spen: \$500 out of his own pocket for medicines. Colonel Leonard said the commissary supplies had been good, and so abundant that the men could not consume them. In consequence each company has a

fund of \$150 or more obtained by selling superfluous supplies. The colonel con plained of the quartermasters' supplie especially of the shoes; he said that ? had spent nearly \$600 out of his ow pocket for shoes for his men.

Colonel W. K. Caffee, Second Mis souri, stated that his regiment did no receive all equipment until a few day before leaving Camp Thomas for Lex ngton. Among the last things issued, h said, were the boilers for boiling the water which were ordered more than two months before. Colonel Caffee sai that he had no surgeon and only on assistant surgeon for some time after the regiment went to Chickamauga. H and others complained of lack of roor

in the hospitals.

Lieutenant Colonel D. D. Mitchell, o' the First Territorial, testified that although the regiment mustered into the service about the middle of July it did not receive its arms until about three weeks ago. It has not yet re-ceived all its clothing. The men suffered without the blankets on account of rain and the cool nights.
