In the Path of a Cyclone That Sweeps the Territory of Three States.

jured, but their names are not known. Storm Was of Terrific Force. The path of the storm was about 200 ards wide, and it traversed the country for twelve miles, beginning in the north ern part of Cleburne county near Iron City and moving southward. Those wh saw it say there was a great funnelshaped cloud and that it bounded along like a rubber ball, rising at intervals and leaping for several hundred yards without doing any damage. Then when It descended it would pick up houses and crush them to pieces, uproot trees o twist them off level with the ground and sweep all before it. Lewis Coffee's resdence, a strong double log house situa ed on a little hill, was in the path o the storm. It was swept away and the timbers scattered for a mile. Ten of it eleven occupants were instantly killed

Near Heffin a white woman whose name cannot b earned was killed and five persons in the same family hurt.

Fifty Buildings Were Destroyed. It is estimated that about fifty build ings were destroyed; between twenty and twenty-five persons were injure and over a score of farms devastated The storm lost its force just south of Heffin, near which place a dozen buildings were wrecked. The path of the cyclone presents a terrible scene of havoc. Timbers of wrecked houses are scattered in every direction. Some were carried high into the air and others were driven deep into the ground or through trees. Many head of cattle were killed. One dead cow was found with shingle driven through her back. But for the fact that the country over which the storm passed is sparsely settled the loss of life would have been much greater.

Man and Wife Blown Through a Window. There were many marvelous escapes J. H. Cason and his wife were blown through a window as their house was falling and after the storm found themselves in a field 100 yards away, both badly hurt. The funeral of the Coffee family occurred yesterday afternoon and was largely attended. Ten bodies some of them mangled beyond recognition, were buried in one grave.

DEATH NEAR WAYNESBORO, GA. Four Persons Lose Their Lives and Much Havoe Is Wrought.

Atlanta, Ga., March 20.-A special to The Constitution from Waynesboro, Ga., says a cyclone passed over Burke ounty at 3 o'clock yesterday morning. In the vicinity of Waynesboro four peoe were killed. Several houses were emolished and much damage done. Bismarck, Ala., March 20 .- A terrific

wind storm accompanied by rain and hall passed through the extensive planation of Samuel Curry in Chilton county Saturday night. Eleven tenement ouses were blown down, and two negro boys were killed. Seventeen other negross were injured. Pine Bluff, Ark., March 26.-Further

details of the fearful storm which swept over portions of Arkansas Saturday morning reached Pine Bulff yesterday. At Walnut Lake three persons were killed. Every house on J. M. Parker's plantation, extensively known as the Fish place, was demolished.

Bethlehem, Miss., March 20.-Will Wickes' house was destroyed by a tornado Saturday and a child killed. A stable is said to have been blown 150 yards with a horse in it, but the horse was uninjured.

ty. Ala., seems to have suffered the most severely, the storm there assuming the proportions of a tornado. The reports of fatalities in the county vary from six to twenty and many more are said to have been injured.

At Sellers and Luverne, Ala,, much damage is reported and at Rob Roy, Ark.. one man was killed and several were badly injured. Dumas, Ark., was practically wiped out of existence and several other towns in the vicinity suffered severely. One person is reported killed at Hickory Flat, Miss., and as the farm houses in the vicinity suffered heavily it is not unlikely that many fatalities occurred which have not yet been reported. A telegram from Birmingham. Ala., says that a passenger on the Southern train from Atlanta, says that near Edwardsville, Ala., a house in which twelve persons lived was wrecked and nine of them killed. Another passenger said he had heard that seven ore were killed near Heffin, Ala.

Pine Bluff, Ark., March 20.-Rob Roy, a town of 300 inhabitants, eight miles north of here, is in ruins, every building in the place being leveled, with the exeption of the Cotton Belt railway station. A tornado struck the town Saturday and in a moment blotted out the place. Business houses, residences, trees and everything in the path of th storm were moved down and the debris scattered. Only one man was killed a negro named Ben Grant, who had taken shelter from the storm. When the house began to sway and rock he darted out again into the rain, only to be crushed o death by the roof of a dwelling house, which had been carried 500 feet Several persons were injured, but none

WORK ON THE HOTEL RUINS.

Little Progress Made and No Bodies Found-Latest List of the Missing. New York, March 20 .- In a drizzling rain more than 200 men continued yesterday to work among the debris and smouldering ruins of the Windsor hotel searching for the bodies of those who perished in the flames and to recover any valuables that might have escaped the ravages of the fire. The efforts of the searchers were futile, however, as the rules were too hot to permit much progress, and the smoke arising from the burning material was rendered more 🗥 dense by the dampness of the atmosphere. Good progress was made with he work of leveling threatening walls and chimneys and making the ruins safe from that quarter. There are many thousand dollars' worth of jewelry in the ruins. One guest had \$10,000 in diamond jewelry in a small safe in his

room and it went down in the crash. A summary of the losses of life and property in the fire is as follows: Dead, 16: missing, 44; injured, 54; value of hotel, \$1,250,000; insurance (hotel furniture and rents), \$890,000; loss of patrons (jewelry, securities and personal proper-

CHARGES IT ON THE PARADE. All the Hotel Employes, Were Absent

from Their Posts. Colonel Thomas P. Ochiltree, who occupied a room on the second floor of the Windsor, and who fled to the Waldorf Astoria, last night said: "The parade [St. Patrick's day] was responsible for it. The parade drew every employe in the hotel from his post. They were mostly Irish and took a keen

interest in the turnout." The great value of jewels and jewelry in the wreck made the men work carefully. Each shovelful of the refuse is carefully examined before being placed in the carts. Policemen both in uniform and in the guise of remen mingle with the workingmen carefully and watched their every movement. More than that, the men are searched at the end of their shifts. The workmen on the job are each given a red card, and without this they are permitted neither to enter nor to leave the lines. Each man is also supplied with a brass check upon which is his number. While this check is attached to a man he may not leave the lines.

Colored Troops at Home. Chicago, March 20.-The Eighth regiment is home. The dusky veterans'

train arrived at the Illinois Central station Saturday afternoon and the soldiers were greeted with cheers from the throats of thousands of Chicago's colored population. The Cuban wives of the soldiers were the center of attraction. The women, nine in number, seemed proud of their American husbands.

Better Wages for Marines.

Cleveland, March 20 .- At a meeting of the executive committee of the Lake Carriers' association held here Saturday it was decided to advance the wages of sailors \$5 per month for the coming season. 'The advance applies not only to sailors but to all kinds of labor on a vessel, from engineer to deckhand,

Thought I knew it all, but'i didn't. I am learning something every day. Glad to tell you what I do know.

Ever notice a man suddenly place his hands to his hips? Watch his face contract with pain? Krow the reason why he does it? Ask him about it. He will tell you 'sis the result of years of hard work, his back has given out, wouldn't stand the strain any longer, aches nearly all the time, sudden twinges of pain in the back make his life almost unbearable. What have I done for it? Oh! I have rubbed it with liniments until I am nearly raw, worn plasters for months at a time. No! I'm too old now to be cured. Here is a case where age and experience are wrong; an opportunity to help a suffering fellow being. Tell him where he's wrong, explain how the aches and pains of the back come from disordered Kidneys, and to cure the back you must reach the Kidneys. Tell him about

Doan's Kidney Pills

and the thousands of Rock Island backs that have been cured. Don't expect a man of his years to take your word for it or our word for it; let him investigate the experience of his neighbors. DOAN'S KIDNEY PILLS will stand on their Rock Island record, and any Kidney sufferer can find plenty of home proof like the following:

J. C. Brown, of 816 Second avenue, who is employed as teamster by Henry Dart's Sons, wholesale

Over two years ago my kidneys and back began to trouble me. Since then it has gradually become worse and the attacks were more persistent. I had a distressing pain in the small of my back, a constant soreness over my kidneys and if I did any lifting sharp twings caught me. I saw Doan's Kidney Pills advertised and so highly recommended by others who had used them that I was persuaded to try them and obtained a box at Marshall & Fisher's drug store. I could feel the beneficial effects from their use from the start. The cure that I anticipated was brought about by the use of one box, the pain and soreness over my kidneys wholly disappeared, and my back has been stronger ever since. I am perfectly satisfied that Doan's Kidney Pills are just as : epresented and a true kidney remedy "

The Exports of the United States and Thore

of Great Britain. Washington, March 20.-Ambassador heate's recent remark that the United States and the United Kingdom would doubtless continue a friendly rivalry in egard'to the world's commerce is quite justified by the latest figures on the ommerce of the two countries. These how that the exports of domestic merchandise from the United States in the eight months ended with February amounted to \$829,335,141 and those from 960.427. In the calendar year 1898 the domestic exports from the United States counted to \$1,223,564,828, while those of te United Kingdom amounted to \$1,-31.944,231.

The year 1898 was the first in which he domestic exports from the United States exceeded the domestic exports om the United Kingdom. On only two ccasions prior to 1898 have the domesti exports of the United States exceeded billion dellars, while those of the Inited Kingdom have constantly exceded a billion dollars during the past twenty years. That the rivalry has been and is a friendly one, even to the extent of cordiality, is shown by the fact that despite our rapid increase in the supplies which we are offering to the markets of the world Great Britain continies to take a proportionate share of

that increase. He Turned Traitor and Died. San Francisco, March 20.-The report hat ex-Corporal John W. Haves, of ompany D.
