The Mystery of Warts.

When a youngster of 10 years, I was visited by a plague of warts. From my earliest recollection I had had on my middle finger an old daddy wart, but at the age stated this had multiplied to 40 or more, one being on my lip and one on my chin. I was considerably worried over my growing family of excrescences, and one day a woodchopper in my father's employ, who acted queerly, never wearing a hat, for instance, said that he could take the warts away with him. I was quite willing to have him try, and he took me off to a quiet spot under a willow tree, from which he cut a number of small branches, and these he cut again into little bits of an inch in length, making a notch in each one, and this notch he set down over each wart, having at last a collection of 40 or more of these little notched sticks. These he put into his pocket, saying that the warts would go away.

I could never say just when the prophecy was fulfilled, but within six weeks there wasn't a wart on my face or hands, and there has not been one since that time. What I want to know now, as I did then—and the conjurer would not tell me—is what did it. I have spoken to many doctors about it, but they merely laugh, as though I was giving them a "pipe talk," and yet the warts went away, and all the medicine I had ever tried on them had no effect whatever.—New York Sun.

American Rule a Fiasco.

Spain believes that American rule in the Philippines will prove a fiasco. Spain also believed it utterly impossible for America to whip her. After vigorous argument Spain changed her mind on one point, and she may yet on another. There is no more chance of America's failing to do what she has made up her mind to do than there is of Boneter's Stomach Bitters failing to cure any stomach trouble, or any disease arising from a weak stomach. The Bitters is an American remedy which never has failed—which cannot fail. It has cured more cases of constipation, indigestion, malaria, fever and ague, liver and kidney troubles than any other remedy. All druggists keep it. It will cure you.

Other Dangers.

"What are you reading about?" asked the man with the wise manner.

"The stock market," replied the youth.

"Don't do it."

"But I never put up any money. Therefore I can't lose."

"It makes no difference. You're likely to become one of those people who tell how much money they would have made if they had only done what they came pretty near doing, because they didn't see how things could go otherwise. And then even your best friends will wish sometimes that you would bet your money and lose it and keep still about it."—Washington Star.

The character of M. & K. merchandise and M. & K. reputation as UNDERSELLERS has gained for us an enviable position which keeps the crowds headed M. & Kward. This is said not in a spirit of brag, but because it is of direct interest to you, that you may know where the best goods at the least prices are sold, and, like Rodyard Kipling, we say, "Lest You Forget, We Say it Let," that your money back, quick, if you are not satisfied, makes the M. & K. a safe trading place.
