

Why it is Money Saved to Buy an Alaska Refrigerator.

BECAUSE

The ALASKA is constructed upon strictly scientific principles, by which low temperature and dryness of air are naturally and invariably obtained.

The ALASKA possesses a provision chamber free from odor. The ALASKA has preserved fresh meats perfectly for three weeks in the hottest weather.

The ALASKA produces better results with less ice than any other refrigerator.

The ALASKA is a dry air refrigerator, and the best one ever patented.

The above claims can be fully substantiated by using the ALASKA.

If the Western association could afford the expense of the convention, it should take the weak players from all the clubs, where there are such in the association, and place them together distributing in their places among the teams where they are needed the players of the Quincy-Dubuque club. The club thus made up of an inferior quality of ball players to be termed the Quincy-Dubuque flunkers and be kept on the rounds by the association the same as any other regularly scheduled club, and during the home series it might be sent to different towns outside the league for two days at a time, thus to meet other teams of the association in their tours away from home. The effect would be to give the two flunky towns the advertising that is due them for playing the trick that is characteristic of them, as has been repeatedly shown in the past as well as this year. The association is now carrying the club of the deserting cities, and in the event of failure to get another city to come in at this stage of the proceedings, the vacancy might be filled in the manner suggested.

It will be seen that a new man pitched for Rock Island yesterday. Some of the Chicago papers give his name as "Eyer," yet it is believed he is Dummy Taylor, although the local management has been unable as yet to ascertain really who he is. He pitched a good game anyway.

Oscar Schmidt caught for Harvard in its game with Yale at Chicago yesterday. To him is due the credit more than any other man on the team for Harvard's victory. He made three hits, two of which were home runs. He was struck in the stomach with a ball once and was obliged to retire to the bench for half an inning. He played a great game.

Bill Kreig has signed to play first for Ottumwa.

FOOD IN LIQUID

Makes a Full Meal for a Book-keeper.

I am a bookkeeper in a large grocery store, and consequently meet a great many people. We find large numbers of customers who are troubled with the effects of coffee. I know only two well how to sympathize with them, for I have suffered so much from stomach trouble caused by the use of coffee.

About two years ago, one of your representatives gave me a sample of Postum, and I was glad of the opportunity to try something that would furnish me with a good morning beverage, but not give me the trouble that coffee did.

The reason some people fail to make good Postum is that they undertake to get the good out of the cereals by a few minutes boiling, whereas not less than twenty-five minutes should be used in making a good pot full of Postum. When it is properly boiled, it is a most delicious coffee, and a perfect drink in every respect. Often when I have had no appetite for solid food, I could partake of several cups of Postum, and feel plentifully nourished until the next meal. I have been glad to tell customers of the comfort and relief they could find in the use of Postum. Naturally we have augmented our sales greatly on it, until now we send out hundreds of packages in a year. One of our customers to whom I recommended it, has just been in, and tells me they have all grown very fond of Postum, including several members of the family who reside in different parts of the state. With best wishes, F. Latimer, 1274 Market street, Oakland, Cal.

FOR BETTER ROADS.

Rock Island Club Cooperates With the Inter-State Association.

CONVENTION HERE IN THE FALL.

Estimated That no Less Than Ten Thousand Visitors Will be Attracted to the City—Seven Counties to Participate—Address by Miss Harber—The New Theatre and the Street Fair.

A convention under the auspices of the Inter State Good Roads association is to be held here in September, the initiatory steps toward arranging for the affair, which it is estimated, will attract no less than 10,000 visitors, having been taken up by the Rock Island Club at its monthly membership meeting last night.

Miss Rella C. Harber, the secretary of the association, appeared before the club and delivered an interesting talk of the good results that have already been attained through the movement, which was only recently inaugurated in Missouri, in which state two good roads laws have been put through the legislature. The purpose of the convention is to educate the farmers in the matter of economical and substantial road building and draining. The association has secured the cooperation of the United States government, and each year several thousands of dollars are appropriated to assist in the educational part of the work.

Distinguished Men to Come. There will be 12 conventions held in Illinois next fall. At each one of these Gen. Roy Stone, chief of the United States board of road inquiry, and Gen. E. G. Harrison, government road expert, will be present and superintend the construction of a half mile of dirt road and deliver addresses on the subject. County and township organizations will be perfected and practical lessons taught the farmers that will be of inestimable value to them and their properties and with beneficial results also to the cities, which, when the good roads are insured the year around, will be easier of access from the rural districts and will increase trade.

Seven counties will take part in the Rock Island convention. The railroads will offer a low fare, the purpose being to secure a rate to not exceed \$1 for the round trip. The expenses of the convention will be \$500, \$200 of the amount to go to the association to pay for speakers, etc., the city also receiving the benefit of a special write-up in a \$100,000 edition of the State's Duty, a magazine devoted to the interests of the good roads movement, with a special title page for the Rock Island convention. These will be mailed to the citizens of the seven counties. President Bahnsen appointed as a committee to solicit subscriptions L. Simon, R. Crampton, H. H. Cleveland, W. C. Maucker and W. S. McCombs. It is thought the money can be readily raised. Miss Harber will assist the committee.

New Theatre and Street Fair. J. J. La Valle, of the theatre committee, reported that the committee had been corresponding with an opera house promoter, who would soon pay a visit to Rock Island and look the situation over.

L. Simon, of the street fair committee, stated that he had communicated with cities that had held street fairs, and would shortly have something more tangible on the project to submit to the club.

Ten new members were added during the month. It was ordered that a committee of three be appointed to join with the officers of the club and the business associations of Moline and Davenport in a further effort to secure a visit from President McKinley next fall, when he is to be in Chicago and St. Paul.

To cure piles, strike at the root—that's the way. DeWitt's Witch Hazel Salve strikes at the root—it removes the cause quickly and permanently. Don't squander time and money trying to remove the effects. For sale by T. H. Thomas, A. J. Reiss and M. F. Bahnsen, druggists.
