Gen. Otis Says Soldiers in Philippines Have Been Worked to Limit of Endurance.

REGULARS REPLACE VOLUNTEERS.

Sickness Has Increased Lately, Being Due Mostly to Arduous Service and Climatic Influences—Little Campaigning Possible During Rainy Season—Insurgent Army Scattered—Mass of the People Desire Peace.

Washington, June 26.—Otis sends a long cable in reply to the war department's request for information regarding the situation and conditions in the Philippines. He says little campaigning is possible during the rainy season. The insurgent army is scattered.

The mass of people desire peace and American protection. They no longer see on approach of our troops unless forced by the insurgents. There has been no recent burning of towns. The only hope of the insurgent leaders is the united state aid. They proclaim the near overthrow of the present administration, to be followed by their independence, and recognition by the United States. This is the influence which enables them to hold out. Much contention prevails among them and no civil government remains.

Gen. Otis says our troops have been worked to the limit of endurance. The volunteer organizations have been called in and replaced by regulars. Sickness among troops has increased lately, being due mostly to arduous service, and climatic influence. There is nothing alarming. Of twelve per cent of the command reported sick, nearly all are in the general hospital.

SHAMROCK IS DAMAGED.

English Yacht Meets With An Accident After Being Launched.

London, June 26.—Sir Thomas Lipton's yacht Shamrock, built to sail against the American yacht Columbia for the American cup off New York this season, was launched here this afternoon. Lady Russell christened the yacht with the customary bottle of champagne, saying, "I christen you Shamrock, God bless you, good luck to you, and may you bring back the cup." Three cheers were given and on a signal from Lady Russell the boat glided safely into the water. After the launching the party, assembled in an adjoining tent. Health to the Shamrock was drunk and congratulatory speeches made.

As the Shamrock reached mid-stream a large collision with her, striking the yacht's bow above the water line and making a big dent. The extent of the damage done has not yet been ascertained.

WAS A SCHEME THAT FAILED.

Gigantic Factory That Was to Make Cheap Iron Machinery.

Springfield, Ill., June 26.—Proceedings were commenced Saturday to foreclose a mortgage on the Iles farm, south of this city. The suit is for \$32,000, and was brought by William H. Mitchell, of Chicago, against Elijah F. Iles and others. The Iles farm was the site of a proposed gigantic factory which was to manufacture farm machinery for the farmers of the United States at prices which would result in the control of all business of this sort. Major J. H. Eliwood, of Peoria, was the promoter of the scheme, which was organized under the name of the Patrons of Husbandry.

A company known as the Patrons Manufacturing company was formed, several large manufacturing buildings were erected and a town was laid out and christened "Midred." For a time the enterprise promised to be a success, but the farmers who had been depended upon to help out the plant were timid about putting money into it and vigorous appeals to the grantors failed to bring the necessary capital.

CLEVELAND CARS RUN

Company and Strikers Come to an Agreement and the Lines All Start.

MOB PUTS IN A ROUGH PROTEST.

At the Continued Employment of the Non-Union Men, One of Whom Is Brutally Assaulted—Proposition of the Company Seems to Have Won—Fears of Trouble at Pana, Ills., When the Troops Leave—In the Cour d'Alene.

Cleveland, June 26.—One outbreak of violence attended the resumption of traffic on all the lines of the Big Consolidated street railway yesterday morning. There was objection in some parts of the city to the retention of the non-union men who were kept by the company. A party of twenty-five assembled near the Brooklyn bridge, just south of the city, and whenever a car came along with a non-union crew the passengers were asked to disembark and wait for a car manned by a union crew. In most cases the passengers did as requested. Finally a non-union conductor undertook to argue with the crowd and he was promptly struck over the head with a club and he and the motorman driven away.

Mob Continued to Rule Cleveland.

The mob refused to permit the car to move until a union crew came along and pushed it to the barns. As a rule the old men were glad the strike was settled, though there was some grumbling because the non-union men were kept. It is predicted that all the non-union men will be glad to leave the city within thirty days, though the company imposed as one of the conditions of the agreement for the settlement of the trouble that all the new men should be treated with consideration by the old employees. The agreement between the company and its striking employees was reached at 6 o'clock Saturday evening. There was a hitch in the negotiations Saturday morning when the company refused to sign the proposition adopted at the meeting of the strikers Friday evening owing to certain paragraphs that were susceptible of two interpretations.

Council Committee Arranges Matters.

The special committee of the city council went to work and after conference the council committee presented a form of agreement and asked both sides what they thought of it. President Everett, of the street railway company, said it suited him and he would sign it. The strikers also said it satisfied them. The document was therefore signed by both sides, the strikers' committee saying that no further ratification by the strikers was necessary. The agreement provides for the hearing of grievances and a resort to arbitration in case the men and the company cannot agree, and it also provides for the reinstatement of practically 80 per cent. of the old men at once, the remainder—except those who have been guilty of violence—being placed on the waiting list.

PROTEST OF ORGANIZED LABOR

Against the Military Authorities in the Cour d'Alene Region.

Butte, Mont., June 26.—There was a meeting here Saturday night to protest against the action of the military authorities in the Cour d'Alene. The speakers were Judge William Clancy, of the district court; Peter Brown, and T. S. Hogan, secretary of state. Mayor McCarthy presided. Speeches were made denouncing the military arm of the government for assuming to dictate to the men of Cour d'Alene whether they should join the ranks of union labor or surrender their right to earn a living.

The resolutions adopted condemned the imprisonment of men at Wardner, "held and tortured to wring from their lips words which might be used to establish guilt under conditions which make the Spanish inquisition pale into insignificance." The resolutions characterize as infamous "the brutality exercised by the military authorities against the men who died in the bull pen, by denying them the right to religious consolation at the hour of death." They call upon President McKinley to order a cessation of this usurpation of power. Wallace, Ida., June 26.—Friday night the Burk miners' union prepared to hold a meeting, inviting the Missourians at the Standard to attend. The authorities forbade the holding of the meeting. Later the unionists met in a private hall, claiming to be holding a meeting of the Red Men, and one Missourian was induced to sign a telegram to a friend at Joplin advising him against coming.

TROUBLE EXPECTED AT PANAMA, ILLS.

Non-Union Miners Refuse to Work Without a Guard Against Union Attack.

Pana, Ills., June 26.—Prospects for an early settlement of the miners' strike are brighter now than at any time since the lockout occurred, fifteen months ago. The Pana Coal company closed its mines Saturday, discharging all the negroes, while the officers have received word from State Secretary-Treasurer Ryan, who is at Lincoln in conference with the owners of the mine, that matters have been amicably settled and the mine will be shortly opened with union miners. Springside mine is also closed and the negroes discharged. The blacks say the closing of the mines is a ruse to dispose with their services, and have made open threats that they will do the operators violence before departing from the city.

The Penwell company refuses to make any concessions or overtures to the union men. Many negroes left the city Saturday for Tennessee and Alabama, and fifty left for Joliet yesterday to work in the quarries. The militia completed preparations Saturday to take its departure today. Leading colored miners state that they will not re-enter the mines unless a strong guard is

placed around them. At day break yesterday 100 negroes held a meeting at the Penwell office, at which they decided to depart for the mine after the departure of the soldiers, unless a heavy guard surrounds the mine day and night. Adjournment was taken to Springside mine park in the afternoon, where some 600 non-union white and negro miners assembled and held a secret meeting. It is reliably reported that the unanimous decision was reached that all the negroes are to remain but not resume work in the pits until they are provided guards sufficient to prevent the capture of the top works while they are in the mines.

While there are many startling rumors about of trouble following close on top of the soldiers' departure today local officials as well as union miners aver there will be no trouble. Mayor Corman and Sheriff Downey say that while not anticipating trouble they will be prepared to quell any outbreak that may occur, and declare that the law shall be strictly enforced. Mayor Corman will notify the operators that under no circumstances will firing from the mine towers be permitted in the future, and that they shall be given ample protection.

THE LONDON

MICHIGAN LEGISLATURE

Holds Its Last Session and Records a Number of Votes.

Lansing, Mich., June 26.—Although business was suspended eight days ago the formal adjournment of the legislature did not take place until Saturday. The closing was devoid of ceremony, there being less than a dozen legislators present. The last business transacted was the entering on the legislative journal of a vote of bills creating a temporary tax commission, reorganizing the military forces of the state, making an appropriation for the state horticultural society, permitting the sale of all fish caught in legal-sized nets and making private fishing grounds of Long Lake, Lapeer county.

The tax commission bill was vetoed because it named the commissioners, this being considered an invasion of the rights of the executive. The military bill was said to entail useless expense and the fish bill was objected to on the ground that it nullified all laws fixing the size of fish that may be legally sold. The principle in the Long Lake bill would permit all lakes in the state to become private property.

CASE OF YOUNG CHASE.

Gov. Pingree Decides to Deny the Application for a Requisition.

Detroit, June 26.—At midnight Governor Pingree, after a long conference with Attorney General O'Brien, announced that he would deny the application for a requisition on the governor of New York for Mr. and Mrs. Charles Duhme, of Cincinnati, who were alleged to have forcibly abducted their nephew, Moses Fowler Chase, of Lafayette, Ind. The governor said that the testimony given did not prove that any crime had been committed; that it seemed to prove that the young man went with his aunt of his own will.

Inasmuch as the young man is not believed hidden—his whereabouts being well known—and his property safe under the jurisdiction of the Indiana courts, the governor said he could see no reason for bringing him back to Michigan, and therefore denied the application. He expressed the opinion, however, that both sides of the controversy were sincere in their contentions and beliefs.

Repartee in Congress.

In the Fifty-first congress there was a tilt between General Spinola and Elijah Adams Morse that was extraordinary. The general always wore an enormous standing collar. It was so large that it is said that Tim Campbell approached him one day and tapped the collar with the ferrule of his cane, apologetically asking, "Is General Spinola within?" Mr. Morse was making a sort of a prohibition speech against the sale of intoxicating liquors in army cantons. General Spinola had interrupted him several times, and in reply the Massachusetts statesman finally twitted him upon the size of his collar. It struck the general to the quick. Taking the floor some minutes afterward, he called attention to Mr. Morse's language. "My collar," said he, "unlike the gentleman from Massachusetts, is immaculately clean, and if it was twice as high as it is and was placed around the neck of the gentleman from Massachusetts it would not serve to hide his ears."

The general was a political curio. He had a striking face and a martial air. In the Fifty-first congress he threw the house into convulsions by pointing to the painting representing a scene at the siege of Yorktown and gravely accusing Speaker Reed of counting the Hessians therein to make up a quorum.—Boston Herald.
