THURSDAY, OCTOBER 19.

COLUMBIA, the gem of the ocean.

The Quincy Herald says that Gov. Roosevelt as cartoonist would make a good advertisement for sorority.

Now that President McKinley is back in Washington, wonder if the rest of the American people may have the use of the flag for a time?

MANILA merchants have formally petitioned President McKinley asking the removal of Gen. Otis from the command of the American forces in the Philippines. H. F. Seymour, of the American, a newspaper published in Manila, who is hearing the petition to Washington, states that with a new man in Otis' place "the war would be ended in three months." "Otis," says he, "is incompetent, very incompetent."

The Chicago Tribune remarks with phonetic truth: "Thru the aid of Superintendent Androoz the no-fence spooling authorized by the National Educational Association is now in force in the Chicago public schools. Those reform will be possible at wuns, but by the aid of the no program the catalog of words, the average boy or girl is unable to spell in such a way that the general public recognizes them. will be greatly increased."

On hot, Read, mark, learn and inwardly digest what the Philadelphia Ledger, a republican daily, says of the tariff on lumber: "To state the truth plainly the duty on lumber is of a like nature with many others which were fixed by rapacious speculation for the sole purpose of despoiling the people, and written on the tariff schedule at the behest of powerful lobbyists. In many instances over-protected wares are sold by the protected and fostered trusts to foreigners at a lower price than at home." Looks as if the administration might be forced to bring its press censor over from Manila.

In substance, the anti-imperialists, in conference in Chicago, adopted as their platform the words of the immortal Lincoln. Here they are: "No man is good enough to govern another man without that other's consent. When the white man governs himself, that is self-government; but when he governs himself and also governs another man, that is more than self-government—that is despotism. Our reliance is in the love of liberty which God has planted in us; our defense is in the spirit which prizes liberty as the heritage of all men in all lands, everywhere. Those who deny freedom to others deserve it not for themselves, and under a just God cannot long retain it."

COMPELLED by the force of public opinion to yield to the patriotic impulse of duty, Gov. Leslie M. Shaw, of Iowa, has reluctantly given up his campaign long enough to go to San Francisco to receive the returning Iowa soldiers from the Philippines. The Iowa executive had fully determined not to make the sacrifice of leaving the stump in his canvass for reelection for such a purpose and had sent others of the state officers to San Francisco to represent him, but the feeling of indignation that swept over the state was too strong to be ignored. But the development that finally moved the governor was that the returning soldiers would probably be mustered out of the service of the government in time to vote this fall.

A MANILA correspondent in reporting the rumor that an offer has been made to the United States government by a Filipino leader to sell out the rebellion, Aguinaldo and all, for a financial consideration, hastens to add the assurance in all apparent seriousness that "Otis is firmly set against purchasing surrenders." Superfluous as

this statement, as to Otis' convictions, may strike the average mind in this country, yet the offer itself may not appear so remarkable as coming from the insurgents, when it is considered that the United States having purchased the rebellion in the first place, those involved might have supposed that it might be disposed of on the same monetary basis. But great and surprising as has been the innovation on the of this government, of part which the existing troubles in the far east furnish the sequence, it is hardly to be considered that the people of this government would countenance the shaking off of the burden on the strength of a cash proposition.

Literary Notes.

Unusual interest attaches to the Thanksgiving (November) number of the Pall Mall Magazine for its large and increasing circle of American readers. One of the contributors, William Archer, who has shown deep interest in American subjects, nice appreciation of American character and peculiarities, amiable criticism of our foibles and a grasp of his subject at once pleasing and convincing, in November begins a series of articles which will be read with deep interest, for, under the title of The American Stage, he writes pleasingly of us. The publishers are preparing to meet a large demand for the numbers containing his forthcoming articles. The frontispiece of the November number will be The Holy Family, after picture by Botticelli, in the Louvre, and will be more than ever desirable for preservation. Mr. Parker writes entertainingly of The Eye of the Needle, and Mrs. Steel's charming Indian story, The Hosts of the Lord, will be continued. Other contributions are equally attractive, and the illustrations and mechanical execution more than ever justify the name so appropriately given to the Pall Mall by its readers—The Magazine de Luxe.

HEARTY EXPRESSION.

Hundreds Tell of the Change Which They Have Felt.

The Time Comes for Rock Island People to Tell What Has Been Done For Them.

The time has come when people in Rock Island feel the change. Many people in this city have given voluntary endorsement of the great change they have felt after using Morrow's Kid-ne-oids.

Kid-ne-oids will cure a lame back, kidney backache, urinary and kidney disorders, sleeplessness, restlessness and nervousness. We always like to give reference as to the merits of Morrow's Kid-ne-oids and this time refer you to Miss Lizzie Johnston, 313 Fillmore street, Davenport, Iowa, who says: "I have been in very bad condition with kidney trouble; it was impossible for me to sleep and I got no rest day or night. I was extremely nervous and had a severe pain across the small of my back. My most alarming and distressing symptom was a very excessive and frequent discharge of the secretions of the kidneys which were in a very unhealthy condition. I doctored for a year or more with physicians and was constantly growing worse. I took a number of patent medicines and kidney pills, some for months without neglect, but nothing I could get would do me any lasting good, until I got Morrow's Kid-ne-oids at Nadler's drug store, and took them for a few weeks; the good they did me was simply wonderful. I think everyone who is suffering with kidney trouble should stop experimenting with doctors and patent medicines and take Morrow's Kid-ne-oids, because they cure."

Kid-ne-oids are for sale at M. F. Bahnsen's drug store at 50 cents per box.

A descriptive booklet mailed upon request by John Morrow & Co., Chemists, Springfield, Ohio.
