The annual fair of St. Mary's Catholic parish will be held this week, and the program for the several evenings will be furnished by different sections of the people as follows: Monday, children; Tuesday, young ladies; Wednesday, church choir; Thursday, Columbia Club; Friday, married ladies, who will also serve lunch; Saturday, the men. This is the contest evening. On Monday, Nov. 10, raffle of the different articles.  
 Galva has been enjoying the thrills of a mild sensation the last few days, all on account of a 14-year-old girl, Miss Maude Murphy. Miss Murphy, who is the daughter of Mr. and Mrs. J. P. Murphy, has mysteriously disappeared, and since last Friday her parents have been greatly disturbed by their failure to discover anything of her whereabouts. She is described as a girl of prepossessing appearance, who makes friends easily and talks readily. It is believed that she went to Galesburg after leaving Galva.

**Silence You Can See.**  
 There is no such thing as silence in this world. It is an impossibility. That

There is no Rochelle Salts, Alum, Lime or Ammonia in food made with  
**Calumet Baking Powder**  
 —NOT IN THE BAKING POWDER TRUST—  
 It makes pure food.

is partly the reason why science has enabled us to see it.  
 The explanation of the paradox is this: Silence, as we understand it, simply means that there are sounds too delicate or too loud for the ear to register. In other words, when we can't hear anything we call that condition "silence." But wherever you are there are sounds around you. Even in the deepest mine the air vibrates and makes a sound. An instrument has been invented that will catch these sounds and permit of the vibrations being represented pictorially on a screen, and in that way you may see silence and properly understand what it means.  
 By comparing the pictures of noises with those of that condition of things known as silence we gain an idea of the difference between a noisy night, for instance, and one when "absolute silence reigns," as the novelist puts it. It is rather surprising to find so much disturbance at the time when everything appears to be perfectly quiet.—Pearson's Weekly.

The Republicans claim the state by 10,000.

**Quincy Carries Boston.**  
 Boston, Mass., Nov. 6.—Josiah Quincy, former mayor of Boston, carried the city yesterday by a plurality of 7,682 in his contest with W. Murray Crane for the governorship. This is a gain of about 4,000 over the plurality accorded in this city last year to Robert Treat Haine, Jr., in his contest with Governor Crane.

**Republican Loss in Rhode Island.**  
 Providence, R. I., Nov. 6.—Without and conclusive returns from the cities and towns throughout the state, it is generally conceded that Governor Gregory and the Republican state ticket are elected by a plurality of about 7,000. This is a loss of 3,000 from last year.

**Democratic Gains in Kentucky.**  
 Louisville, Ky., Nov. 6.—Returns to The Courier-Journal show that the Democrats have gained five members of the lower house and one member of the senate of the general assembly. Louisville elects the Democratic city and county tickets entire.

**Democrats Win in Cuyahoga County.**  
 Cleveland, Nov. 6.—Minor G. Morton, Republican candidate for common pleas judge, concedes the election of the Democratic legislative ticket in this (Cuyahoga) county. Mayor Johnson claims 2,000 plurality for the legislative ticket.

**Republicans Claim Baltimore.**  
 Baltimore, Md., Nov. 6.—Late returns show large Republican gains in the city, and it is asserted that the Republicans have carried it by 5,000. They also claim all three legislative districts in Baltimore city.

**Virginia About 25,000 Democratic.**  
 Richmond, Va., Nov. 6.—Indications are that the Democratic state ticket is elected by 25,000 majority or more. The legislature will be overwhelmingly Democratic. Negro voters took little interest in the contest.

**Roosevelt's Home District.**  
 New York, Nov. 6.—President Roosevelt's district in the town of Oyster Bay, L. I., was carried by the Republican candidate for the assembly by seven majority, and the Democratic candidate for district attorney by ninety-four majority.

**President again at Washington.**  
 Washington, Nov. 6.—President Roosevelt returned to Washington last night from Oyster Bay, where he cast his ballot. With him was Mrs. Roosevelt, Secretary Cortelyou, Private Secretary Louis and Dr. P. M. Rixey.

**PROTECTION OF PRESIDENTS**

**Assault on Chief Executive to Be a Capital Crime.**

The special commission that has been at work for several years codifying the federal laws, says the Washington correspondent of the Philadelphia Ledger, has completed its work on the criminal code with the single exception of an addition to the statutes providing penalties for an assault on the person of the president of the United States. The work of the commission on the criminal laws and its final report are in the hands of the attorney general. A draft has been made of the proposed amendment in regard to safeguarding the life of the president which will be submitted in a few days. No little difficulty was found in dealing with the matter. As the law now stands, there is no more protection for the president than for the lowest citizen of the land.  
 The commission went over all the statutes of the various states, and it was found that in a number of states the assault on the president, in case of the president's recovery, could not be punished at all. Another point is that state law takes jurisdiction as against federal law, and under the constitution there is no way of getting around it. The commission has framed an amendment to cover all territory belonging to or controlled by the federal government, such as sites of post-offices, navy yards, custom houses, federal buildings, arsenals, forts, reservations and similar places.  
 A separate amendment also makes it a crime, punishable with a fine of \$5,000 or imprisonment commensurate, to threaten the life of the president and a capital crime to attack his person. The commission does not attempt to bring the crime of attacking the president under the head of treason. It is recognized that in all the assassinations that have occurred there was no feeling against the individual, but the crime was against the office. The amendment also provides punishment for accessories before the fact. This is made to cover those who encourage violent intentions toward the president and is intended to apply to anarchists.
