HAVE FOUR HOTELS

Messrs. Montrose and McHugh Lease New House at Cedar Rapids.

FINEST IN STATE OF IOWA

Are to Spend Not Less Than \$50,000 in Furnishings—Have it for 15 Years.

An important deal was consummated yesterday at Cedar Rapids by Charles McHugh and J. E. Montrose, by which they secure a lease of a big hotel now in course of construction, in that city, which they will manage in connection with their other properties, the Harper and Rock Island, in this city, and the National, at Peoria. The Cedar Rapids Gazette tells of the contract they have made at that city: "In the directors' room of the Merchants' National bank at 2:15 this afternoon was signed a contract which insures the completion of the new Third avenue hotel, the most magnificent hostelry in Iowa, costing \$250,000. Lease for 15 Years.

"The document referred to is a lease, running in favor of the firm of Montrose & McHugh, proprietors of the Harper and New Rock Island hotels, Rock Island, Ill., and of the National at Peoria, for a term of 15 years from the completion of the proposed structure, which will undoubtedly be by July 1, 1905.

"Messrs. Montrose and McHugh not only take the lease at a figure entirely satisfactory to the gentlemen behind the project, but take a large block of the stock, and bind themselves under the terms of their lease to expend not less than \$50,000 in the furnishing of the building.

"The foundation for the hotel, which is being constructed by Hon. E. J. C. Bealer, will be completed within thirty days, when work on the superstructure will be commenced at the earliest possible moment. The detailed plans and specifications are completed and it will require only a few days to prepare for the asking of bids.

Has 160 Guest Rooms.

"The new hotel will have 160 guest rooms, will be 178x124 feet and six stories high, possibly seven stories. It will be without doubt the best hotel in Iowa, and its architectural arrangements the finest. Hotels of its class in America have been studied by the architects and the gentlemen comprising the building committee.

"Although Messrs. Montrose & McHugh have been figuring on the matter for some days the closing of the lease was really effected within 24 hours. Mr. McHugh has a pleasure steamer full of guests awaiting his return to Rock Island tonight and will leave at once on a trip down the Mississippi to the world's fair. He will visit Cedar Rapids again in the near future to observe the progress of the work and confer with the hotel company."

NICOL TO BE GOOD

Rockford Manager Agrees to Charge Boarding Houses While in Bloomington.

LABOR CONGRESS INFORMED

Letter of Congratulation to Judge A. M. Thayer for Granting Habeas Corpus writ.

At the regular meeting of the Tri-City Labor congress held last evening the question of Hugh Nicol, manager of the Rockford baseball club, having his team stop at a hotel in Bloomington to which there is connected a non-union barber shop, was revived, for discussion, communications relative to labor matters were read, the practicability of reducing the dues per capita for the local unions affiliated with the congress was broached, and other minor business discharged.

It was reported that Manager Hugh Nicol had been in correspondence with M. H. Sexton, president of the local association, in which the writer stated that he would do all in his power to make a change in the boarding house while in Bloomington in the future, and that also he would try to prevent his men from patronizing the street car company in that city so long as it and the former union employees had not reached an agreement. It will be remembered that while the Rockford team was in Bloomington some time ago that the men stopped at a hotel in that city that has a non-union barber shop and that when the players went to the ball ground they rode on the street cars there while the street car company's former union employees were out on a strike.

False Report on Manufacturers.

The secretary read a communication from Henry Whitney, secretary of the congress in Detroit, Mich., in which the writer said that a false report had gained circulation to the effect that the M. Carhart company, of Detroit, manufacturer of overalls and gloves, was unfair to organized labor. The writer stated that the rumor was a gross outrage upon Mr. Carhart, as the manufacturer is a strong union man, and had sacrificed lucrative positions for loyalty to unionism.

The trouble between the proprietors of the brick and tile factories of Canton, Ill., and their locked-out men, was reported, and it was voted that all union men do all they could to aid the cause of the workmen. F. Herges, of the grievance committee, made a short talk to the men, stating that some of the members of different unions had been somewhat inconsistent, by not living up to their obligations by purchasing goods manufactured in non-union shops. He said that many a union man has gone into a clothing store, and if he chanced to find a suit of clothes, a hat, or whatever he went after, that suited him, he took it regardless of its make. He advised all to be more loyal, and to buy no goods but those bearing the union label.

Smoker at Next Meeting.

E. C. Berry suggested that at the next meeting a smoker be held, offering to furnish all the cigars without cost to the congress. The motion was put before the house that the smoker be held, and it was quickly seconded and carried. Mr. Berry also made the motion that a letter of congratulation be extended to United States Judge A. M. Thayer, sitting in chambers in St. Louis, for granting a writ of habeas corpus ordering that Charles M. Meyer, president of the Western Federation of Miners, be brought before him July 5. The writ is directed against Gov. J. H. Peabody, of Colorado, Adj. Gen. Sherman Bell, and Buckley Wells. They are cited to appear with Meyer and show cause why he is being restrained in the "bull pen" at Telluride, Col. The granting of this habeas corpus is a result of the war that has been going on between the miners' union and the Colorado officials for several months. The motion was carried. It was also voted, through Mr. Berry's suggestion, that the congress send \$10 to the Western Federation of Miners, to show that the local congress is interested in the deplorable affair.

No Change in Per Capita.

One subject that was discussed at great length last evening was the dues paid per capita by the members of the various unions of the tri-cities into the congress treasury. No action was taken on the matter and the dues, 2 cents per capita monthly, remain the same. The machinists' union proposed reduction of the dues, claiming that owing to the strike of the Santa Fe machinists and other similar troubles, the machinists here are burdened heavily to assist those on strike. The objection to the present dues was overcome, however, the majority taking the stand that they were very reasonable as they are now, and that while trouble may break out at any time it is best to keep the fund in the treasury as large as possible.

RUSSIANS ADMIT LOSSES.

Continued from First Page.

The Russians fired on the Japanese ships and stopped them, and soon afterward they torpedoed and sank the helpless transports. Over 100 men were in the boats and landed in Japan. A message has been received here from Hagi, saying that the survivors of the Hatachi had drifted north to Shimomoseki and been saved. The transport Lumis is still missing.
