

PRESIDENT ROOSEVELT GOES SOUTH; WILL SEE ALL REMAINING STATES

Leaves Washington With Large Party on Special Train.

SPEAKS AT RICHMOND

Pleads for Doctrine of Expansion and "Square Deal" to All.

Washington, Oct. 18.—In the redemption of a promise given more than a year ago, President Roosevelt started at 8:30 o'clock this morning on a special train over the Southern railroad on an extended trip through the states of the south. On the completion of the trip he will have visited, during his administration as president, every state in the union.

Members of Party.
In the president's party were Mrs. Roosevelt, Secretary Loeb, Jr., Dr. P. M. Rixey, John A. McHenry of Louisiana, John C. Greenway of Michigan, John S. Elliott, commissioner of the Interior for Porto Rico, M. C. Latta, and John L. McGrew, stenographers, Henry A. Stropmeyer, photographer, Col. S. E. Brown, general agent of the Southern railway, representatives of three press associations, two secret service officers and a corps of messengers.

Mrs. Roosevelt and Mr. Elliott will leave the party at Atlanta, after having visited Rosewell, the home of the president's mother, and return to Washington.

Washington, Oct. 18.—After tentative arrangements for the president's trip had been completed, the epidemic of yellow fever broke out in New Orleans, one of the principal points in his itinerary. It was urged by many friends he ought not visit New Orleans at the time scheduled lest he be exposed to fever.

Suggested Postponement.
To the people of New Orleans the president suggested that, if they preferred, he would postpone his visit to that city until a later date. Assurances were given him, however, by Mayor Behrman and officials of the marine hospital service that at the time of his proposed visit to New Orleans danger from fever infection practically would be out of consideration.

New Orleans Last.
The quarantine of other southern states against Louisiana and New Orleans is still in force, however, and in order not to violate quarantine regulations, the president changed his itinerary so as to make New Orleans the last place he should visit.

It is his intention after spending the day, the 26th inst. in that city to board the armored cruiser West Virginian and make the return trip to Washington by sea.

First Speech.
Fredericksburg, Oct. 18.—President Roosevelt made his first stop in his southern trip at this place. About 200 people gathered at the station to greet him. The president addressed them briefly from the rear platform of his car. He said:

"There's one thing that has struck me more than anything else in my journeys and that is that in meeting different audiences they are fundamentally alike, that wherever you go in this country, the average American is a pretty decent fellow and that all that is necessary in order to make him get on well with other average Americans is that they should know one another."

Stopped at Ashland.

Ashland, Va., Oct. 18.—President Roosevelt was greeted by students of Randolph Macon academy and the city of Ashland when the train stopped for three minutes. Most every one in the audience carried a small American flag which they waved and cheered as the president appeared on the rear platform. The president's reference in his address to Patrick Henry and Henry Clay evoked applause. A huge bunch of flowers were handed to the president to which was attached a card bearing the following inscription: "Our president. Lover of the strenuous life and fair play and maker of peace."

Reaches Richmond.

Richmond, Va., Oct. 18.—President Roosevelt reached the city at noon. In the address delivered here, he said: "In foreign affairs we must make up our minds that whether we wish it or not, we are a great people and must play a great part in the world. It is not open to us to choose whether we will play that great part or not. We have to play it; all we can decide is whether we shall play it well or ill. And I have too much confidence in my

MURDER IN KNOX

N. S. Hahn Shoots Frank Chronkite at Town of Henderson.

SLAYER GIVES UP TO LAW

One Witness to Crime, All Three Men Being Under Influence of Liquor.

Galesburg, Ill., Oct. 18.—Frank Chronkite was shot and instantly killed at his home in Henderson, this county, yesterday afternoon by N. S. Hahn, for years justice of the peace, after Hahn had shared the hospitality of dinner with his victim. Present at the time was Ed Sisk. All three had been drinking.

For years there had been bad blood between Chronkite and Hahn. Sisk says, however, there was no quarreling and that when his back was turned he heard a shot and turned in time to see Chronkite fall and Hahn leave the house. Sisk remained with the dead man until neighbors came, an hour later. When Hahn surrendered to the officers he refused to give any reason for the act.

Second Violent Death.
Chronkite is the second of his family to die a violent death within three years. His sister, Mrs. Ed Morrison, was shot to death when she stepped between her husband and her brother Frank during a quarrel when one of them fired a gun.

countrymen to doubt what the decision will be.

Mission One of Peace.
"Our mission to the world should be one of peace, but not the peace of cravens, the peace granted contemptuously to those who purchase it by surrendering the right. No! Our voice must be effective for peace because it is raised for righteousness first and for peace only as the handmaiden of righteousness. We must be scrupulous in respecting the rights of the weak, and no less careful to make it evident that we do not act through fear of the strong. We must be scrupulous in doing justice to others and scrupulous in exacting justice for ourselves. We must beware equally of that sinister and cynical teaching which would persuade us to disregard ethical standards in international relations, and of the no less hurtful folly which would stifle the whole work of civilization by a well-meant but silly persistency in trying to apply to peoples unfitted for them those theories of government and of national action which are only suited for the most advanced races."

Must Also Keep Order.

"In particular we must remember that in undertaking to build the Panama Canal we have necessarily undertaken to police the seas at either end of it; and this means that we have a peculiar interest in the preservation of order in the coasts and islands of the Caribbean. I firmly believe that by a little wise and generous aid we can help even the most backward of the peoples in these coasts and islands forward along the path of orderly liberty so that they can stand alone. If we decline to give them such help the result will be bad both for them and for us; and will in the end in all probability cause us to face humiliation or bloodshed."

"The problems that face us abroad are important, but the problems that face us at home are even more important. The extraordinary growth of industry during the last half century brings every civilized people face to face with the gravest social and economic questions. This is an age of combination among capitalists and combination among wage-workers. It is idle to try to prevent such combinations. Our efforts should be to see that they work for the good and not for the harm of the body politic. New devices of law are necessary from time to time in order to meet the changed and changing conditions."

Spirit Always Same.

"But after all we will do well to re-

PROBING THE CHARGES FOR ICING

Interstate Commerce Commission Takes Up Important Hearing.

WIFE IS DIVORCED

Filipino Woman Succeeds in Suit Against Lieut. S. S. Burbank.

MARRIAGE FACT IS SHOWN

Precedent Will Affect Score of Other Cases Where Army Officers Are Involved.

Hollo, P. I., Oct. 18.—Judges Bates of the Court of First Instance yesterday granted a divorce and alimony to Concepcion Vasquez, the Filipino wife of Lieut. Sidney S. Burbank, Sixth infantry, U. S. A., formerly of Leavenworth, Kans. She also gets the custody of her child.

Besides being the culmination of a romantic story which has become familiar in the United States, the decision has a further importance in that it is the first time the status of the native wives of United States army men has been established.

The precedent, it is said, will affect nearly a score of cases where Filipino women and children stand in the way of the marriage of officers to American girls, as was the case with Burbank.

Burbank Being Court-martialed.
Mrs. Burbank has another suit pending at Leavenworth, Kans., which sought the same ends as she obtained here, so she probably will not press it further. Burbank now is being tried by court martial on charges growing out of his desertion of the Filipino woman and his denunciation of her as never having been his legal wife.

member that although the problems to be solved change from generation to generation, the spirit in which their solution must be attempted remains forever the same. It is in peace as it is in war. Tactics change and weapons change.

"This government was formed with as its basic idea the principle of treating each man on his worth as a man, of paying no heed to whether he was rich or poor, no heed to his creed or his social standing, but only to the way in which he performed his duty to himself, to his neighbor, to the state. From this principle we can not afford to vary by so much as a hand's breadth. Many republics have risen in the past, and some of them flourished long, but sooner or later they fell; and the cause most potent in bringing about their fall was in almost all cases the fact that they grew to be governments in the interests of a class instead of governments in the interest of all. It made no difference as to which class it was that thus wrested to its own advantage the governmental machinery."

Must Have Justice.

"It was ultimately as fatal to the cause of freedom whether it was the rich who oppressed the poor or the poor who plundered the rich. The crime of brutal disregard of the rights of others is as much a crime when it manifests itself in the shape of greed and brutal arrogance on the one side, as when it manifests itself in the shape of envy and lawless violence on the other. Our aim must be to deal justice to each man; no more and no less. This purpose must find its expression and support not merely in our collective action through the agencies of the government, but in our social attitude."

"Rich man and poor man must alike feel that on the one hand they are protected by law and that on the other hand they are responsible to the law; for each is entitled to be fairly dealt with by his neighbor and by the state; and if we as citizens of this nation are true to ourselves and to the traditions of our forefathers such fair measure of justice shall always be dealt to each man; so that as far as we can bring it about each shall receive his dues, each shall be given the chance to show that stuff there is in him, shall be secured against wrong, and in turn prevented from wronging others. More than this no man is entitled to, and less than this no man shall have."

TORNADO CUTS SWATH THROUGH THE TOWN OF SORENTO, ILL., NEAR ST. LOUIS

BRING A FACTORY BANKERS IN NET

Automatic Adjustable Wrench Company Seeks Location at Sears.

IN THE OLD COTTON MILL

Promoted by Chicago Parties—Propose to Employ From 50 to 75 Men.

A new factory employing from 50 to 75 men is assured for Rock Island if the promoters of the Automatic Adjustable Wrench company meets with anything like the success they anticipate in arranging the preliminary details. They have secured a lease of the old cotton factory at Sears with option of purchase at the end of a term of years, and hope to begin the remodeling of the building within two weeks. Several weeks more will be required to install machinery and get the plant in operation.

This new concern is headed by Robert E. Petrie, a practical mechanic, and associated with him are M. H. Murphy and Charles A. Gleason, all the parties being from Chicago. The Adjustable Wrench company was organized a year ago, but has not up to the present time secured a location. The offices have been removed from Chicago to this city.

To Place Stock Here.
The capital stock is \$100,000, of which \$39,000 is preferred, and it is the desire of the promoters to place \$15,000 in this city. The remainder of the \$39,000 will be taken by outside parties. Mr. Petrie stated today that he was satisfied that financing the company will be an easy matter.

As a leader, the company, as its name indicates, proposes to manufacture a line of wrenches invented by Mr. Petrie. Other lines will be taken up in due time.

The old cotton factory now belongs to S. S. Davis. It has been unoccupied for over a decade, but is in good condition and will require little repairs chiefly on the roof and floors. It is, as is generally known, a two-story structure, 50 by 150 feet, with power house attached, and is located on the bank of Rock river just west of the Watch Tower. It is well adapted to the use to which it is proposed to put it. The location is good, also, as there are street railway facilities for employees within a block, and it will be an easy matter to lay a switch track from the plant to the Peoria branch of the Rock Island road.
