on 60-Hour Schedule-Through Trains on the Burlington.

Railway circles are manifesting coniderable interest in the new train service between St. Louis and the city of Mexico. The new service is a semiweekly fast train service, on a 60-hour schedule. The train leaves St. Louis Tuesdays and Fridays at 9 o'clock in the morning, and through its installation the roads running into that city from Rock Island are reaping a benefit, The roads cooperating in the new service are the Iron Mountain route, the Texas & Pacific, and the International & Great Northern, (all Gould lines), and the National lines of Mexico beyound Laredo.

The Burlington is making plans for a great improvement after Feb. 15 in its through car service between Chicago and Los Angeles, and San Francisco, and between St. Louis and the west. Additional through cars will be installed, and personal conductors are to be installed on cars now in service, giving a personally conducted excursion from Chicago daily except Saturday and Sunday, and through cars on those days.
