ACROSTICS AND ANAGRAMS

Days of the Psalmist. We find that the acrostic is the most ancient form of puzzling mankind. Acrostic is Greek for a number of a word, sometimes a name and sometimes a sentence. The final letter may form a word, or, as Addison tells us, the letters will even run down the center of the verses as a seam. The Hebrew poets often made their verses run over the entire alphabet. Twelve of the psalms are written on this plan, the most notable being the One Hundred and Nineteenth. This has twenty-twodivisions, or stanzas, corresponding to the twenty-two letters of the Hebrew alphabet. Each stanza is formed of eight couplets, and the first line of each couplet in the first stanza in the original \$1.850-Will buy 6-room cottage on Hebrew begins with the letter aleph, Fifth avenue, between Twenty-fifth and the second commences with beth, the third with gimel, and so on through the alphabet. The English divisions of the psaims are called after the Hebrew letter that began the couplets. It was sacred subjects after the fashion of Hebrew acrostics. This was done with a view to aid memory, and such pieces

were called abcedarian hymns. The riddle is also of ancient origin. The Proverbs of the Bible, or sayings attributed to Solomon, are often in the form of riddles. Was it not the queen of Sheba who proposed riddles to Solomon? The Koran, the scriptural book of the Mohammedans, also contains riddles, as do some books now in existence, written in Arabic and Persian. The ancient Egyptians also propounded riddles, and one of the seven wise men of Greece, who lived in the sixth century B. C., was celebrated for his riddles in verse. Homer, the Greek poet, according to a statement in Plutarch, died of vexation at not being able to solve a riddle. In the middle ages riddles were encouraged for amusement on winter nights in the baronial hall and also in the monastery. In later days some of the most brilliant men of letters contributed to the list of riddles.

The anagram, or transposition of the letters in words or sentences, was much in vogue in Greece in the olden times. The Cabalists, or Jewish doctors, thought that the anagram always pointed out a man's destiny, and if his name written backward or transposed in any way spelled a word with meaning they firmly believed it a revelation. The flatterers of James I. of England proved his right to the British monarchy as the descendant of the mythical King Arthur from his name, Charles James Stuart, which becomes "claims Arthur's sent." The best anagrams are those which have in the new order of letters some signification appropriate to that from which they are formed. When Pilate asked, "Quid est veritas?" (What is truth?) be probably had no idea that his question answered itself, but it did. The transposition made it, "Est vir qui adest" (It is the man who is here). Anagrams were written as early as 250 B. C., and their name comes from the Greek
