

## IS TESTING MILK

Professor John M. Trueman, of Champaign, in the City.

## AUTHORITY ON DAIRYING

Holds Open Meeting Tomorrow and Will Deliver Lecture in the Evening.

Professor John M. Trueman, assistant state food inspector and connected with the department of dairy husbandry of the University of Illinois at Champaign, is in the city for the purpose of making an extensive test of milk furnished by local dairymen. Last evening samples were collected from hotels, restaurants, and other places where milk is sold, and tests were made of these late in the evening. This morning samples were collected from the various wagons of dairymen and this afternoon Mr. Trueman is making a visit to as many of the local dairies as he can reach.

Tomorrow those who desire to meet Mr. Trueman may do so at the city hall, and tests will be made of any samples of milk that are brought in. In the evening he will deliver a lecture on milk, its production and care, in the city council chamber. A special meeting of the council in committee of the whole has been called to hear the lecture and it is hoped that those interested will avail themselves of the opportunity to gain valuable information on the subject to be treated.

**Fulfills Promise.**  
Mr. Trueman comes to cooperate with the city health department in fulfillment of a promise he made early in the spring. At that time he paid a visit to Moline and delivered a lecture there, spending but a few hours in Rock Island. He is one of the leading authorities in the country on scientific dairying and the care of milk.

## THE WEATHER.

Partly cloudy weather, with probably thundershowers tonight and Thursday; continued warm.

Continued warm weather in the Missouri, Ohio and upper Mississippi valleys is resulting from the northwestern barometric depression which is this morning central over Manitoba. Owing to this disturbance, and the low pressure which remains over Arizona, scattered showers and thundershowers have occurred along the eastern Rocky mountain slope and in the gulf districts and eastern Iowa, with heavy rain at Oklahoma. Thundershowers are also reported from numerous stations on the Atlantic slope. On account of the in-

SPECIAL NOTICE  
to  
Word Contestants

In order to give holders of certificates of credit on pianos an opportunity to get their credits cashed from a stock where prices have not been boosted for the occasion, we have obtained a special deal from our manufacturers which enables us to redeem all certificates at their face value, plus \$10. These certificates will be accepted at \$10 above their face value on any new piano in our stock at the regular prices. Every piano marked in plain selling figures—the prices they have always sold for. If you have a \$100 certificate, it is good for \$110 here. Besides our goods are marked at from \$50 to \$100 less than price now prevailing where they have been priced especially for word contestants.

You can always do better in Davenport on a piano than anywhere else—and you can always buy a better piano for the money from GRIGGS than anywhere in Davenport.

Bring your certificate here and see what it will do.

## ASK REQUISITION

Certificate Charges Mrs. Ann C. Otto With Perjury

## IN THE OTTO-SCHMID CASE

State's Attorney and County Judge Filed Papers With Governor Deneen for a Request.

State's Attorney J. K. Scott and County Judge E. E. Parmenter today issued certificates to Governor Deneen looking toward a requisition on the governor of Iowa for Mrs. Ann Catherine Otto of Davenport, on a charge of perjury. The certificate of the state's attorney is that he has evidence sufficient to convict. The certificates were forwarded today, and it remains to be seen what action the governor will take.

**From Noted Case.**  
This action gives a new phase to the noted Otto-Schmid case that is still in the circuit court, and which resulted in the contempt of court sentence for the daughter, Mrs. Laura Schmid. The alleged perjury is understood to have been in connection with the original case, in which Mrs. Otto secured a judgment. It was because of failure to settle this judgment that Mrs. Schmid was arrested for larceny, and sentenced for contempt of court.

## A Tragic Finish.

A watchman's neglect permitted a leak in the great North Sea dyke, which a child's finger could have stopped, to become a ruinous break, devastating an entire province in Holland. In like manner Kenneth Melver, of Vanceboro, Me., permitted a little cold to go unnoticed until a tragic finish was only averted by Dr. King's New Discovery. He writes: "Three doctors gave me up to die of lung inflammation, caused by a neglected cold; but Dr. King's New Discovery saved my life." Guaranteed best cough and cold cure, at Hartz & Ulmeyer's drug store, 50c and \$1.00. Trial bottle free.
