

NEWS OF THE NEIGHBORS

DAVENPORT

Shot at Women.—William Arnold, between 25 and 30 years old, is under arrest for shooting a 38-caliber revolver at one of the belles of the east end about 8:30 o'clock yesterday morning while drunk, and the man is accused of carrying concealed weapons.

Sues for \$20,000.—Yesterday afternoon suit was filed in the district court for damages in the sum of \$20,000. The plaintiff is Thomas D. Peterson and the defendant the Tri-City Railway company. The plaintiff claims that as he was driving on West Fourth street between Harris and Division streets, April 25, the rear end of his wagon was struck by a street car and he was thrown to the pavement suffering injuries from which has resulted paralysis of his left side and partial paralysis of the right side.

Wants Auto Patrol.—Alderman Matthes doesn't believe in letting Davenport fall behind in the procession, and at Wednesday evening's council meeting he brought up the subject of a police patrol automobile. Alderman Matthes is chairman of the police committee, and in introducing the automobile idea he called attention to the fact that the city would soon have to spend about \$700 for horses again, the patrol team and the chief's horse having passed their prime again. On account of the expense of buying and maintaining the police horses he said he thought it was worth while for Davenport to consider a new move such as many other cities are making. His resolution was referred to the committee of the whole.

To Band Hunters and Fishermen.—Harry Barmeyer of Dubuque, state deputy game and fish warden and vice president of and organizer of the Iowa Game and Fish Protective

association, incorporated under the laws of Iowa, is in Davenport to interest hunters and fishermen in the association and to enroll them as members. Mr. Barmeyer has visited and organized six of the Mississippi river counties of the state, Scott county being the seventh for him to visit. He will remain in the city several days in the interest of the movement, which it is hoped will result in laws which will give the sportsmen of the state better protection. The Davenport hunters and fishermen will be interested in his work and visit goes without saying.

Republicans Endorse Dawson.—At the republican congressional convention of the Second Iowa district, comprising the counties of Scott, Clinton, Muscatine, Jackson, Iowa and Johnson, held yesterday, the nomination of Congressman A. F. Dawson at the primaries for reelection was unanimously ratified. Resolutions were adopted endorsing the national republican policy as being synonymous with general prosperity and progress, and the policy of the republican party of Iowa. The convention endorsed and commended the record of Congressman Dawson and urged his reelection. Congressman Dawson, in accepting the nomination, delivered a strong speech, confining himself chiefly to national issues.

Obituary Record.—Another well known Scott county resident died yesterday morning at the home of his daughter, 217 East Fifteenth street. Franklin Blanchard was born in Cortland county, N. Y., April 11, 1826. He came to Iowa in December, 1861, and settled in Davenport. Later he tried Marshall county for a few years, engaged in farm work and fruit growing, but he returned to this county which may be said to have been his home. For several years he has lived with his daughter, Mrs. Addie A. Maxwell. Mr. Blanchard was married Feb. 1, 1850, to Miss Lovina Larrabee, in central New York, and they celebrated their golden wedding. Mrs. Blanch-

ard died Aug. 11, two years since, in this city. Two children survive, Mrs. Maxwell and George H. of Lincoln, Neb., both being with their father when he passed away and for some days before. A brother of the deceased, Marshall Blanchard, lives at De Ruyter, N. Y., and a sister, Mrs. William Weygandt, at McCook, Neb. Margaret Nigg, the little 4-month-old daughter of Mr. and Mrs. Joseph Nigg, died Wednesday afternoon at the Nigg home, 1746 West Third street.

MOLINE

Einfeldt-Shallene.—Arthur H. Einfeldt and Miss Elsie Shallene, daughter of Mr. and Mrs. Alfred Shallene, 1512 Seventh avenue, were married at 9 o'clock Wednesday evening at the Swedish Lutheran parsonage, Rev. L. A. Johnston officiating. The bride is a charming young lady whose life has been spent in Moline. Mr. Einfeldt is a holder at the Barnard & Leas foundry.

Baird-Hannah.—Miss Florence Hannah and Dale R. Baird were married Wednesday evening. The ceremony took place at the home of the bride's father, Andrew Hannah, at Twenty-fourth avenue and Thirteenth street, Rev. D. S. Andrewartha of the Second Methodist church officiating. Thirty guests were in attendance. Late in the evening the bride and groom were taken in an automobile to their new home in the Link building on Fifteenth street and Eighteenth avenue. The groom is employed as checking clerk in the C. B. & Q. office in Rock Island. The bride has lived in Moline from girlhood and has a host of friends.

Meets Strange Accident.—Pitt Hochstrasser, who resides on Rock Island street in East Moline and is employed by the Moline Scale factory as teamster, met with a painful accident yesterday while loading freight at the Rock Island freight depot. He was placing a 400-pound keg of white lead onto the wagon, when the wagon box was upset by the excessive weight on the rear end. The box struck him in the head, cutting quite a gash, and doubled him up, wrenching his back, bruising him about the body, and tearing his clothes. He will be laid up for about a week.

Trees in Park Die.—Two-thirds of the trees in Sylvan park on the river front are a total loss. They have died or are dying and must be replaced with fresh trees. H. C. Klehm, landscape gardener in charge of the improvements at the park, must bear the loss, as the city is protected by a guarantee that growing trees would be provided. The total number of trees which have died is about 125. The cause is said to be an insufficiency of rich soil.

Wheels Were Changed.—Edward Jones, city health inspector, was yesterday the victim of practical jokes, who caused him more annoyance than all the violators of the health laws since he has been in office. His discomfort may be imagined when a dozen men together called his attention to the fact that he was driving about town in a rig on which all the wheels had been changed. Mr. Jones drove up to the central fire station on Fourteenth street during the afternoon and the firemen all ran out of the building to greet him with a broadside of queries as to the trouble with his buggy. One of them had spied the inspector at a distance, and had called all the men to the front door to be ready with the question. Some one changed the front and rear wheels on the rig and he drove about town for an hour before the firemen enlightened him. The buggy, with two large wheels in front and two smaller ones in the rear, was a strange sight.

Start 10-Inch Mill.—A full force of men has been started at work by the Republic Iron & Steel company on the 10-inch mill at the Sylvan plant, increasing the working force by 50. This represents the entire number of men that can be worked on this mill, which has just been reconstructed from the old 8-inch mill.

Bites Tongue Badly.—Frank Roseberry, living at Nineteenth street and Seventh avenue and who has been driving one of the water wagon sprinklers for Tom Renoe, is suffering with a split tongue which he almost bit off yesterday when he jumped from the wagon. Mr. Roseberry had driven to the Renoe residence at Third avenue and Nineteenth street at noon and jumped off the wagon. In some manner he slipped and struck a water hydrant.

Obituary Record.—After an illness of many months with paralysis, Mrs. Sarah E. Beers, wife of Evan B. Beers, the well known molder, passed away at the family home, 639 Eleventh and a-half street, Wednesday evening. She was 60 years old. She came to Moline in 1873 and had lived here since. In the same year she was married to her now bereaved husband on Dec. 15 at Cambridge, Ill. She also leaves a sister, Mrs. Henry White of Cambridge, Ill.

W. C. Maucker's Fire Insurance Agency

Property owners who are in need of fire insurance should look carefully into the financial standing of the companies represented by the various local agents before placing their insurance, as the company's financial standing is as important as that of your banker; also investigate as to the standing of the agent, as his influence with the companies he represents may save you many a dollar in case of loss.

Such an agency is that of Mr. Maucker, who represents the most reliable companies in the business, and is pleased to state that in the eight years he has been in the business not one customer of his has needed the services of an attorney to secure justice in getting a settlement for a fire loss.

The following standing of companies represented by him is taken from the report of the insurance commissioner of Illinois.

There is a Scientific Reason

for Everything that Happens in the Wash Tub.

There is a reason why some soaps cleanse easily without injuring the fabric; there are reasons why other soaps and some waters nearly break the back of the laundress, with rubbing—which wears out the clothes.

Beach's Peosta Soap

is made to meet every requirement of most experienced housekeepers who understand these scientific reasons and insist on The Peosta Way of doing things.

Clean, snowy clothes, "all out before noon" is the Peosta rule.

16.—There's a right way to hang out the clothes. Have the lines clean, hang things squarely, fasten by hems and bands and hang clothes of a kind together. Do not hang anything by the corners.

The Peosta Way is Best --- ALL the Way.

S.S.S. CURES SKIN DISEASES

When the blood is pure and healthy, the skin will be soft, smooth, and free from all blemishes and eruptions; but when some acid humor takes root in the circulation, its presence is quickly manifested by some form of skin disease. The skin receives its necessary nourishment and strength from the blood. When, however, this vital fluid becomes a humor-laden stream, it can no longer preserve the healthy, natural appearance of the skin, but by its acid, impure nature continually irritates and inflames the delicate tissues and fibres and keeps the cuticle in a diseased and disfigured condition. External applications cannot reach the blood, and therefore are beneficial only for their ability to reduce inflammation, and assist in keeping the parts clean. To cure any skin trouble the blood must be purified of the humors that are causing the trouble. S. S. S. drives out the humors from the blood so that the skin, instead of being irritated and diseased, is nourished by a healthy, cooling stream. S. S. S. goes down into the circulation and removes every particle of impure matter, all acids and humors, and restores the blood to its normal, pure condition, thereby curing every form of skin disease or affection. Book on skin diseases and any medical advice free to all who write.
