

SEASON ON RIVER

Carl J. Mangan Runs Up Flag at Steamboat Quarters at Foot of Nineteenth.

FIRST BOAT OUT SATURDAY

Keokuk Will Leave Local Port on That Date, to Be Followed by Black Hawk Monday.

Carl J. Mangan, local agent of the Carnival City and Acme packet lines, opened the local office at the foot of Nineteenth street this morning. This is the beginning of Mr. Mangan's seventh season with the company in Rock Island. He will make preparations during this week for the opening of the river season of the Carnival City boats, which will be put into service next Saturday.

At 4 o'clock Saturday afternoon the steamer Keokuk will leave the local port on the first trip of the season and will go to Quincy. Stops will be made at every port between this city and Quincy on the down river trip. The steamer Black Hawk will leave here Monday afternoon at 4 o'clock for Burlington and will make connections with the Keokuk there on Tuesday. Tri-weekly service will be maintained by these boats to Quincy till April 18, when the steamer Columbia will be put into service. Daily service will be maintained by the Keokuk and Black Hawk between Quincy and Burlington. After the return of the Helen Blair from the Memphis cruise, daily service will be maintained to Quincy from Rock Island and Davenport.

Crews of Steamers.
The officers who will have charge of the Keokuk are: Captain, William Dippel, Warsaw, Ill.; clerk, H. E. Swanson, Davenport; pilot, Hugh McKenzie, Keokuk; mate, Glen Slee, Quincy; chief engineer, S. B. Burnett, Quincy.

The officers of the Black Hawk are: Captain, S. R. Dodds, Davenport; clerk, G. C. Dick, Chicago; pilot, John Monroe, Clinton; mate, George Heck, Davenport; chief engineer, Sam Critchfield, Memphis, Tenn.; second engineer, Frank Goldsmith, Canton, Mo.; steward, Frank Kincaid, Davenport.

The owners of the Acme packet and Carnival City lines are considering plans for the improvement of the local warehouse. The supports of the structure, which are of wood, will probably be torn out and a concrete base built.

Will Be Open Next Sunday.
Captain Walter Blair of the Carnival City lines stated this morning that the bridge across the Mississippi at Keithsburg would be opened next Sunday upon the arrival of the Keokuk there. According to rumor, the bridge, which is owned by the Iowa Central railroad, was not to be opened until April 1, but the government officials in charge of the river work have notified the railroad that the bridge should be repaired as soon as possible and should be in commission this week. The mechanism of the bridge is somewhat out of order, but Colonel C. W. Durham of the local engineers' office stated this morning that the draw could be hoisted now.

LAST DAUGHTER OF GOV. FORD DIES IN POVERTY

Buried at Peoria With Few Mourners—End Like That of Distinguished Father.

Peoria, Ill., March 21.—Lowered into the grave with but four mourners to pay respects, the body of Mrs. Anna Davies, last daughter of the late Governor Thomas Ford, was interred beside her mother, father and sister as darkness settled over Springfield cemetery last evening. No word of eulogy was spoken, no minister read prayer as the body was consigned to its last resting place.

After three years in the deaconess hospital at Lincoln, Ill., Mrs. Davies died Thursday night at the age of 72 years, penniless and with but one living relative, a daughter. With but scant funds to provide a proper burial, the daughter, Mrs. Watson of Oskaloosa, Iowa, arranged to bring the body of her mother, the last immediate member of Governor Ford's family, here for burial. Through the aid of four Lincoln residents a modest coffin was purchased and the funeral arranged at their expense. Services were held at Trinity church in Lincoln yesterday afternoon.

The burial of Mrs. Davies recalls the death of one of the state's greatest governors, who was also publisher of a history of Illinois. Like his daughter and the other members of his family, he passed away penniless in 1850. Governor Ford, after his successful and highly beneficial reign as executive of Illinois from 1842 to 1846, practiced law in Peoria and lived here until his death.

NEW SUITS ARRIVE

Olive Drab Uniforms for Members of Company A to Be Distributed.

ARE OF LATEST PATTERN

Will Complete Equipment of Local Organization Making It Ready for Inspection.

Captain E. H. Dunavin of Company A has received notice of the shipment of an entire new set of service uniforms for his command and the members of the company have been ordered to be present at the army this evening in order that the issue of the new suit can be made. The equipment is olive drab, the latest style in vogue in the United States army. The addition of these uniforms completes the company equipment and makes it ready to stand inspection by a United States army officer April 12. From now until inspection drill time will be spent in perfecting the men on such points as come up and in addition to the regular drills on Monday evening there will be school for the non-commissioned officers on Thursday evenings.

Will Probably Stay.

Present indications are that Company A will not be mustered out of the service, as has been feared. The membership roll of the company has steadily increased during the past two months, and it has come to be believed that if the company shows up well at inspection in April it will not be mustered out, even if it does not come up to the minimum number required under the Dick bill. Army officers state that a small company well trained is preferable to a much larger company with less training, and for this reason the minimum clause in the Dick bill will probably not be enforced strictly, but will be used merely as a club to hold over companies to force them to keep up an effort at least to add to their membership.

OFFICIAL SPRING IS WITH US NOW

Advent Unaccompanied by the Usual Equinoctial Disturbance, but End Is Not Yet.

About 5:25 this morning spring officially arrived in Rock Island. Its advent was not marked by the usual disturbance of the elements, both the preceding and succeeding hours being calm and seasonable. It is doubtful if there ever was such an ideal March and the average of sunshine and temperature is bound to be high, no matter what we get during the remainder of the month. The equinoctial period now with us is expected by the prophets to provide a storm of some sort, though there is no indication of its approach as yet.

Sealed Proposals.

Sealed proposals, marked "Proposals for Boiler House, Fairport, Iowa," and inclosed in an envelope addressed "Commissioner of Fisheries, Department of Commerce and Labor, Washington, D. C., will be received at this office until 2 p. m. on April 26, 1910, and then be opened, for the construction of a boiler- and pump-house for biological station on government reservation at Fairport, Iowa. The right is reserved to reject any and all bids, to waive any defects, and to accept any part of any bid and reject the other part. For specifications, plans, blank proposals, and full information, address Commissioner of Fisheries, Department of Commerce and Labor, Washington, D. C.

WHAT'S THE USE

Sticking to a Habit When It Means Discomfort?

Old King Coffee knocks subjects out tolerably flat at times and there is no possible doubt of what did it. A Michigan woman gives her experience.

"I used to have liver trouble nearly all of the time and took medicine which relieved me only for a little while. Then every once in a while I would be suddenly doubled up with an awful agony in my stomach. It seemed as though every time I took a breath I would die. No one could suffer any more and live.

"Finally I got down so sick with catarrh of the stomach that I could not turn over in bed and my stomach did not digest even milk. The doctor finally told me that if I did not give up drinking coffee I would surely die, but I felt I could not give it up.

"However, husband brought home a package of Postum and it was made strictly according to directions. It was the only thing that would stay on my stomach, and I soon got so I liked it very much.

"Gradually I began to get better and week by week gained in strength and health. Now I am in perfect condition, and I am convinced that the whole cause of my trouble was coffee drinking and my getting better was due to leaving off coffee and taking Postum.

"A short time ago I tasted some coffee and found to my astonishment that I did not care anything about it. I never have to take medicine any more. I hope you will use this letter for the benefit of those suffering from the poisonous effects of coffee."

Read the little book, "The Road to Wellville" in packages. "There's a Reason."

Ever read the above letter? A new one appears from time to time. They are genuine, true and full of human interest.

At the Y. M. C. A.

Rev. F. E. Shult addressed the boys' meeting at the Y. M. C. A. yesterday afternoon. He spoke on "The Great Commandment," showing how all of the governments are included and covered in the one injunction to "love the Lord with all thy heart, etc." The meeting was well attended and the program was as interesting as usual. The Hoosters still lead in the attendance contest, which will end next Sunday. The boys have made a remarkable showing in their attendance and interest in the B. G. M. for the last three months, as will be indicated when the final figures are given out. The board of directors will hold a regular meeting tomorrow evening. The directors will be entertained by the ladies, and will devote the evening to the consideration of the work of the association.

Next Saturday morning the boys who care for a tramp into the country will be taken out by Mr. Hermann. They will carry their lunch, and spend the day in the woods. An egg bake will be the feature of the noon lunch.
