TO SAVE THE BIRDS

Worldwide Conservation Movement Will be Started by United States.

AID TO CROPS AND HEALTH

Action to Restrain Poachers Who Supply the Great Millinery Markets Advocated.

To urge the world powers to unite a checking the commercial butchery that is known to be exterminating rapidly the most valuable bird species from the face of the globe a conservation mevement of international scope was organized recently in New York

At the fifth quinquennial convention of the international ornithological congress, which will be held in Berlin on May 80, an American representative from the National Association of Audubon Societies has been instructed to present for the consideration of the nations a plan for uniform protection against the army of poachers who scour the earth to supply its great millinery markets with the plumage of billions of the birds on whose natural activities the human race must

Don't be Bald

Almost Anyone May Secure a Splendid Growth of Hair,

You can easily find out for yourself if your hair needs nourishment, if it is thinning, getting dry, harsh and brittle, or splitting at the ends. You simply have to pull a hair from the top of your head and closely examine its root. If the bulb is plump and rosy it is all right; if it white ands shrunken your hair is diseased and needs nourishment.

We have a remedy for hair troubles that cannot be surpassed. It has a record of growing hair and curing baldness in 93 out of 100 cases where used according to directions for a reasonable length of time. It will even grow hair on bald heads if the scalp is not glassed and shiny. That may seem like a strong statement-it is, and we mean it to be, and no one should doubt it until they have put our claims to an actual test.

We are so sure that Rexall "93" Hair Tonic will completely eradicate dandruff, prevent baldness, stimulate the scalp and hair roots, stop falling hair and grow new hair, that we personally give our positive guarclaim or fails to give entire satisfaction to the user.

Rexall "93" Hair Tonic is as pleasant to use as clear spring water. It is perfumed with a pleasant odor, and does not grease or gum the hair. We have it in two sizes, prices 50 cents and \$1.00. We urge you to try Rexall "93" Hair Tonic obtain Remail Remedies in Rock Is- with a provision in her will that the land only at our store—the Rexall dog be killed, so he might meet her in store. The Thomas Drug company. | the spirit world.

depend for agricultural prosperity and sanitary safety.

To enlist Mexico in a tripartite agreement with the United States and Canada in the interest of the migratory birds of the North American continent a representative from the United States also is preparing to appear before the Mexican congress.

Campaign In All Lands.

Headed by the National Association of Fish and Game Commissioners, the North American Fish and Game Protective association and the American Ornithologists' union, as well as the National Association of Audubon Societies, this campaign of protest against the rapid destruction of the feathered resources of every land will be carried from the United States to all civilized nations.

Testimony from the foremost agricultural and hygienic scientists, showing the great part played by the insect eaters in checking crop pests and by the sea birds in averting pestilence, is now being prepared as proof of the immediate need of their international

Until the authorities of every nation join to check the illegal raids of the scouts for the millinery markets who are scouring the earth each year, the ernithologists declare, no hope can be held out against quick and final extinction of the most useful bird species that inhabit every land.

Japanese Raid an Issue.

Details of the raid of Japanese poachers upon the bird reserves of the United States about Hawaii a short time ago have been received at New York and will be laid before the coming international conference with the growing demand for reciprocal bird protection among the nations.

Ten tens of the feathers of valuable Pacific-American species, with the skins and wings of more than 259,000 birds, have been found in the booty that the revenue cutter Thetis brought back with twenty-five subjects of Japan who had been landed on American soil to put in a year at killing and mutilating the tame flocks on these remote islands. While the value of these bloody trophies to the wholesale millinery market is estimated at \$100,000, the bird life that the Japanese destroyed in taking them is calculated to be worth to the people of the United States at least \$1,000,000.

"As long as billions of the most valuable birds of the earth may be destroyed in some countries and shipped to the millinery centers in others it will be impossible to prevent their ul-timate extinction," said William Dutcher, president of the National Association of Audubon Societies, at its headquarters in New York city. "For instance, the bird of paradise, one of the most striking and beautiful of nature's creations, is now on the verge of extinction. The sale of its plumage abruptly with history. It denies the cannot be checked until the nations | fundamental truths of evolution. It

antee to refund every penny paid us lts bird resources, which are essential for Rexall "93" Hair Tonic in every to the health and prosperity of the instance where it does not do as we human race everywhere. Migratory birds know no geographical lines, and nate, the unadapted and discontented, we do not believe their existence should be menaced any longer by the lack of the uniform protective laws we propose to advocate to the world

FIGHT SOCIALISM

Vigorous Campaign Against Political Faith to Be Organized by Clergy.

CALL DOCTRINES ANARCHY

Rev. J. Wesley Hill of New York Claims American Institutions Could Not Tolerate It.

For several weeks the Rev. J. Wesley Hill has been flaying the Socialists before his congregations at the Metropolitan temple, in New York city, which is given over to the work of the Methodist Social union, and now his flock have come to the conclusion that the flaying ought to be extended from a civic to a national basis. As a consequence they have passed a resolution authorizing their spiritual leader to call a national anti-socialistic con-

The Rev. Mr. Hill says he is glad they did this and that henceforth the work will engage his whole attention. He hopes to bring together in his proposed convention representatives of universities, seminaries, Sunday schools, trades unions, organized religion and sociologists.

To Be Fought Aggressively. Sitting in his study the other day. the Rev. Mr. Hill discussed the considerations that move him to devote his next few years to leading a vigorous

assault upon socialism. "We are going after socialism and are going after it aggressively. There are some very foolish ministers of the gospei in this country. They have the hardihood to speak of 'Christian socialism,' and some of them even have adopted it as such. I want them to know-and they must learn it-that socialism attacks the very fundamental principles of Christian religion. As well talk of Christian free love or Christian atheism as of Christian socialism. Rather class socialism where it of right belongs-with anarchism. with Mormonism and with atheism."

It was suggested to the prime mover in the proposed crusade that some folks were having rather a considerable problem of fixing upon an exact definition of socialism.

What Sociation Really to, "I'll tell you exactly what it is," he answered. "It is an irreconcilable enemy of the existing civic and social order. Its program is confiscation—that is, the municipalization or nationalization of all capital. It wants to break sees in revolution its chief and, in "This trade in feathers is the chief | fact, its only practicable weapon. very spirit is misanthropic and pessimistic. It goes to the poor and unfortuand strives to make them still more discontented than they are.

> "The socialistic movement is permeated with discontent and class hatred. The leaders present a disheartening picture of life to the toiler, striving to poison his mind against the employer by picturing him as a vampire feeding upon the lifeblood of his helpless victims. As it is there are Socialist Sunday schools being organized where the spirit of revolution is instilled into the minds of children. In this movement there is a subtle attack on our schools. "And then take the propaganda fundamentally. It wants to place a sort of paternalism above the heads of all men, making them subservient to it. As if man wasn't here before his institutions, he creating them and not acting inspector. Other changes they creating him, they overlook this were made in the department personfundamental fact of God's law of creation, and they attack the primary ele number of captains. ment of progress-the preservation of

individual initiative. "And the Christian ministers may well be aroused at this time, for socialism is preaching everywhere that the churches are paid servants of capitalism. In fact, the destruction of the churches is one of the prime objects of

"The hope of the proposed confer ence is that it shall be able to unfur! a danger signal against fostering this propaganda, saturated as it is in the philosophy of confiscation. We shall organize branches in every state and shall center our work at first in ar extensive press and publicity bureau.'

No Socialism For America. The Rev. Mr. Hill's attention was called to the fact that in Europe Samuel Gompers was styled a Socialist during his visit there last summer. while here he is known as a trades un-

"And the reason for that is very clear," he suggested. "Socialism is not indigenous to the soll of America. It was not born to fight our institutions, but those in dark, tyrannical countries where the freedom of man can be attained in no other way. On our city's east side, for instance, the immigrants are often recruited from Russia, where to be a Socialist means to oppose the tyrannical czar. An American Socialist, meeting these new immigrants, comes well indorsed. He finds it easy to weave about them his subtle web of just such opposition to our democratic government and our flag as the crusader with the same name. but a different purpose, was able to weave about them in their native land."

A Great Work of Art. It was Apelles who visited the studio of Protogenes in Rome and, finding the artist absent, drew a thin colored line in such a way that the Roman knew that only his Grecian brother could have done it. But, not to be outdone, Protogenes drew a thinner line upon that of Apelles, and when this was seen Apelles drew a third line upon that of Protegenes. This panel was then looked upon as the greatest work of art, so says the story, in the palace

GAYNOR REMOVES DETECTIVE HEAD

Begins Shakeup of the Police De partment in New York

New York, April 1 .- The first move in the impending shakeup in the police department since Mayor Gaynor took over what is virtually a personal control of that branch of the city government, came yesterday with the removal of Inspector James McCafferty from the head of the detective bureau and the selection of Captain John H. Russell to succeed him. Captain Russell has been made nel including the transferring of a

NO WONDER HE DIED.

The Way Charles II. Was Dosed by His Fourteen Doctors.

Charles II. of England lived less than a week after he was attacked by his fatal filness, and it is wonderful that he lived so long. A monograph on "The Last Days of Charles II." gives some extraordinary details of those last days:

"The reyal patient had fourteen doctors in attendance. They bled him to shaved his hair and applied blistering shells."-Saturday Evening Post. agents all over his head; they also applied plasters to the soles of his feet, and they dosed him with orange infusion of the metals, white vitriol disof white hellebore roots, powder of of bigamy.

cowslip flowers, best manna, cream of tartar, barley and licorice, sweet almond kernels, sal ammoniac, antidotal milk water, mallow root, melen seeds, chicken broth, bark of elm, a julep of black cherry water, flowers of lime, lilies of the valley, peony compound, spirit of lavender, prepared pearls and white sugar candy, senna leaves, flowers of camomile, gentian root, nutmeg, ale made without hops, spirit of human skull (commonly employed in convulsive disorders; the purpose was sug- a petition to the San Francisco board gestive-viz, to excite horror, as it was to be the skull of a man who had died a violent death), Peruvian bark, sirup of cloves, Raleigh's stronger antidote, Goa stone, Rhine wine and oriental bezoar stone."

Dr. Raymond Crawford, the author of this odd historical sketch, believes that the king's trouble was not apoplexy, but Bright's disease.

Easy Oysters.

During a discussion on finance in the United States senate one of the speakers traced the history of the various mediums of exchange, their development and changes from the days of barter to the days of gold and silver. "I call to the attention of the sen-

ate," he said in the course of the speech, "that at one time the medium of exchange was oyster shells. Oyster shells were used for money." "Delightful!" broke in the late Sen-

ator Hoar of Massachusetts. "If that system only prevalled now we could order half a dozen oysters on the half the extent of thirty-four ounces; they shell and pay for them with the

LEPERS PETITION BOARD TO KEEP THEIR DOCTOR

Tell Pathetic Story of Weariness and Loneliness While Confined in Isolation Hospital.

San Francisco, April 1.-Eight lepers of the colony of 18 confined in the isolation hospital here have joined in of supervisors asking that steps be taken to have the board of health reseind its action in removing Dr. John Atcherty from attendance upon them. The petition recites a pathetic story of weariness and loneliness that is sustained only by the hope that they may be benefited and ultimately cured of

heir dread malady. "Ever since our imprisonment, which has been from three months to eight years," the appeal states, "we have had no systematic treatment until Dr. Atcherty gave us his attention. The other physicians have plainly shown their disinclination to come in contact with us. The results are that we have been left here to rot and die like animals."

WRENCH CRUSHES SKULL Farmer Hurls Tool at Passing Automobilists.

Roswell, N. M., April 1.-Sylvanus Johnson, a wealthy citizen of Roswell, is dead from the effects of a blow on the head from a monkey wrench hurled at Johnson's chauffeur a week ago

While speeding near Roswell, Johnson's automobile frightened a team of mules being driven by a young farmer and the latter threw his wrench at the chauffeur. The wrench struck John- your money.

son, who sank back to his seat unco scious and with a crushed skull. The farmer escaped.

Nervous Prostration

"I suffered so with Nervous Prostration that I thought there was no use trying to get well. A friend recommended Dr. Miles' Nervine, and although skeptical at first, I soon found myself recovering, and am to-day well." MRS. D. I. JONES, 5800 Broadway, Cleveland, O.

Much sickness is of nervous origin. It's the nerves that make the heart force the blood through the veins, the lungs take in oxygen, the stomach digest food, the liver secrete bile and the kidneys fifter the blood. If any of these organs are weak, it is the fault of the nerves through which they get their strength. Dr. Miles' Nervine is a specific for the nerves. It soothes the irritation and assists in the generation of nerve force. Therefore you can hardly miss it if you take Dr. Miles' Nervine when sick. Get a bottle from your druggist. Take it all according to directions, and if it does not benefit he will return
