DANDERINE

GROWS HAIR
and we can
PROVE IT!

A lady from Minnesota writes:
"As a result of using Danderine, my hair is close to five feet in length."

Beautiful Hair at Small Cost.

HAIR troubles, like many other diseases, have been wrongly diagnosed and altogether misunderstood. The hair itself is not the thing to be treated, for the reason that it is simply a product of the scalp and wholly dependent upon its action. The scalp is the very soil in which the hair is produced, nurtured and grown, and it alone should receive the attention if results are to be expected. It would do no earthly good to treat the stem of a plant with a view of making it grow and become more beautiful—the soil in which the plant grows must be attended to. Therefore, the scalp in which the hair grows must receive the attention if you are to expect it to grow and become more beautiful.

Loss of hair is caused by the scalp drying up, or losing its supply of moisture or nutriment; when baldness occurs the scalp has simply lost all its nourishment, leaving nothing for the hair to feed upon (a plant or even a tree would die under similar conditions). The natural thing to do in either case, is to feed and replenish the soil or scalp as the case may be, and your crop will grow and multiply as nature intended it should.

Knowlton's Danderine has a most wonderful effect upon the hair glands and tissues of the scalp. It is the only remedy for the hair ever discovered that is similar to the natural hair foods or liquids of the scalp. It penetrates the pores quickly and the hair soon shows the effects of its wonderfully exhilarating and life-producing qualities. One 25-cent bottle is enough to convince you of its great worth as a hair growing and hair beautifying remedy—try it and see for yourself.

NOW at all drug stores in three sizes,
25c, 50c and \$1.00 per bottle.

FREE To show how quickly Danderine acts, we will send a large sample free by return mail to anyone who sends this free coupon to the KNOWLTON DANDERINE CO., CHICAGO, ILL., with their name and address and 10c in silver or stamps to pay postage.

MOLINE

Plans for City Hall.—Decision to ask for plans for the proposed new city hall was reached at a meeting of the building committee of the Moline city council. A rough sketch, giving an idea of the desired general plan, was drawn by the committee and preliminary plans are being prepared. These will be given to architects as a working basis. There is to be competition in preparation of the plans, as the entry list will be open to all architects who desire to figure on the new building.

The meeting was the largest held in a long time, and judging from the enthusiasm that prevailed a prosperous future will greet the one big tribe. A two-thirds vote would have been sufficient to have carried the proposition, but there was not a dissenting voice heard. Tecumseh members desired to wait till action had been taken by King Philip tribe.

Stops a Cough in Five Minutes by the Clock.

Does This Harmless Home-Made Cough Syrup.

MAKE A PINT CHEAP

Here is told how to make a home made pint of cough syrup cheaply, which has been known to stop a cough in five minutes by the clock. It relieves quickly and certainly brings about a cure, by its tonic laxative action and therefore is superior to ordinary preparations, which only relieve, and then aggravate by their constipating effects.

One dose is not laxative, but 8 to 10 doses daily create a mild laxative action and it is said that you can feel the medicine working on the lungs, throat and bronchial tubes, giving a grand feeling of freshness and strength to the entire system.

Any one can make a full pint very cheaply. Obtain of your druggist or have him order from the wholesale house, a 2 1/2 ounce package of essence mentho-laxene. Empty it into a pint bottle and fill the bottle with a home made syrup composed of one pint of granulated sugar and a half pint of boiling water. When the syrup is cool add it to the mentho-laxene.

The dose is a teaspoonful 8 to 10 times daily or as required. Give the children less according to age. It is perfectly harmless.

This is a pleasant tasting and quick acting remedy, liked by all who have tried it.

My Corns Don't Hurt a Bit

Tired, Ailing, Swollen, Smelly, Sweaty Feet, Corns, Callouses and Bunions, TIZ Cures Right Off.

Say good-bye to your corns the very first time you use TIZ. You will never know you have a corn, bunion or callous, or even tired, dried, swollen, aching feet any more. It's just wonderful the way the pain vanishes. Rub the corn—hammer it with your fist if you wish—no more pain after TIZ than if there had never been a blemish on your feet. Doesn't that sound good to you? Doesn't it? Then read this: "The corns on either of my toes were as large as the tablets you make to cure them. Today there is no sign of corns on either foot and no soreness. It's an up-to-date ointment—Sunn A. Hoover, Progress, N. C." Just use TIZ. It's not like anything else for the purpose you ever heard of. It's the only foot remedy ever made which acts on the principle of drawing out all the poisonous exudations which cause sore feet. Powders and other remedies merely clog up the pores. TIZ cleans them out and keeps them clean. It works right off. You will feel better the very first time its used. Use it a week and you can forget you ever had sore feet. There is nothing on earth that can compare with it. TIZ is for sale at all druggists, 25 cents per box, or direct if you wish, from Walter Tatje Dodge & Co., Dodge building, Chicago, Ill.
