

MOTION FOR REHEARING IS DENIED

Judge Carpenter Returns Verdict Against Packers.

MUST COME TO TRIAL

Basis of Latest Plea Was Decision on the Two Big Trust Cases.

Chicago, June 19.—Judge Carpenter, in the federal district court, today denied the motion of J. Ogden Armour and nine other Chicago packers for a rehearing of their motion to quash the indictments charging violation of the Sherman anti-trust act. This means the packers must stand trial.

GAVE NO REASONS.
No written opinion was prepared by Carpenter, and he gave no reason for his finding. It is now expected the trial will be reached next October. The latest motion for a rehearing was based on the recent oil and tobacco decision.

BONDS SOLD TO SMALL BIDDERS

Banks Will Get Little of New \$50,000,000 Panama Canal Loan.

AVERAGE PRICE IS 102.5

Shows Credit of the United States Is Better Than That of European Countries.

Washington, June 19.—Announcement may be made late today of the investors who bid successfully for the new 3 per cent \$50,000,000 Panama loan. It is apparent most of the issue will go to individuals, trustees of estates, schools and public institutions, rather than to banks.

BUT THIRD OF OUTLAY.
Although the treasury will realize \$51,200,000 from the sale, that will reimburse the cash drawer for only about a third of what has been advanced for the building of the Panama canal. The proceeds of this loan, however, will strengthen the working balance to probably \$90,000,000 and no immediate issue of more bonds seems probable. Banks may use the new bonds as security for public deposits.

CREDIT BETTER HERE.
The average price of \$102.50 bid is taken to indicate that the credit of the United States is higher than that of England, Germany or France where government securities are selling at a discount.

MANY BIDS OPENED.
Washington, June 19.—The government's new 3 per cent \$50,000,000 Panama loan is a success. More than 3,000 bids opened Saturday afternoon oversubscribed it at least three times and probably more. The loan will be entirely taken by comparatively small investors at a price higher than 102½.

Mayor, Physician and Ball Team Manager Also Leading Crook.

REAL JEKYLL AND HYDE

Executive of Cass Lake, Minn., Arrested After Aids Are Caught Blowing Safe.

Bemidji, Minn., June 19.—By day a respected practicing physician and mayor of a Minnesota city. By night the "brains" of an incendiary and robber band and using his scientific knowledge in the preparation of explosive to be used in felonies.

This is the Jekyll and Hyde personality the detectives believe has been revealed by the arrest of Dr. T. T. Dumas, mayor of Cass Lake and owner and manager of the Cass Lake baseball team.

ARRESTED ON ROAD.
The mayor was arrested Saturday in Hibbing upon his arrival there with his ball team, the warrant charging "wilful, malicious and felonious destruction of property." This followed a battle between a posse and two men caught blowing open a safe at Puposky, near here.

It was announced by the detectives working on the case and the assistant state fire marshal that Dr. Dumas was suspected of leading a gang, which has operated extensively in Minnesota, North Dakota, Wisconsin and other northwestern states and said by the police to have been employed by merchants to rob safes and set fire to buildings for the insurance. It is declared to have included several men of prominence in northwestern communities.

DYNAMITE IN SAFE.
The mayor obtained his liberty by giving bonds. He asserted he was the victim of a police conspiracy and declared "some one" should suffer. He was present last evening when Superintendent Fielding of the St. Paul Pinkerton branch and Assistant State Fire Marshal Fullerton opened the safe at his office in Cass Lake and found six sticks of dynamite and four dynamite caps. He had hastened from the bedside of a patient to give up the combination of the safe so that an expert who had arrived from St. Paul would not have to blow it open. He joked at the discovery.

CHASE PRECEDES OPENING.
The opening of the safe was preceded by a chase through the woods near Puposky after "Mike" Davis, who with "Billy" Bean was trapped by detectives at Puposky. Bean was wounded and captured. Davis, who is also wanted on charges of having killed a policeman in Chicago, and another at Minnetonka, Minn., during robberies several months ago, escaped and spent Saturday night in a shack not far from Puposky.

The bandit left his shack and started through the woods, succeeded in eluding his pursuers, and is believed to have passed on into Canada.

Pinkerton detectives have a stenographic report of what they assert were the plans for the Puposky robbery as given by the two robbers in the John Larson saloon here by Mayor Dumas.

If the weather is good the reception will be held on the White house grounds.

LIGHTS IN DECORATIONS.
Both outside and inside every preparation has been made for the reception. Professor Moore, chief of the weather bureau, took a gloomy view for the outside reception this evening, saying showers were predicted for the afternoon and this evening.

One of the early callers at the White house today was Monsignor Falconio, papal delegate. He felicitated the president for himself and also brought congratulations of Pope Pius.

At the Cincinnati Commercial club's luncheon the president was presented with a silver rose bowl brought from Cincinnati.

MANY CONGRATULATIONS.
Congratulatory cablegrams from many rulers of the world poured into the White house today. They included messages from the rulers of Germany, England, France, Japan, Italy, Spain, Sweden, and Panama.

Havana, June 19.—The first human parts to be recovered from the battleship Maine were discovered today when workmen removing debris from the spar deck discovered the blackened and coral encrusted bones of a left forearm and a right foot.

The water in the cofferdam was lowered 13 feet below normal this forenoon. A superficial examination has tended to revive hope it will prove possible to float the after half or more of the hull.

RELICS ARE FOUND.
Havana, Cuba, June 19.—As the remains of the battleship Maine gradually rise like a grim gray ghost above the slowly lowering of the waters within the cofferdam, the first discoveries are most interesting. As many curious relics of the great disaster have been found. The explorers Saturday night and yesterday morning recovered plates and other chinaware in the officers' quarters. The work yesterday afternoon was somewhat hampered by torrential rains. Thousands of visitors viewed the wreck.

ARRIVE FOR CORONATION

Nearly All of the State Guests Are Now in London.

PEOPLE PACK STREETS

Intermittent Rainstorms Not Permitted to Interfere With Plans.

London, June 19.—A score of King George's coronation guests, accompanied by their suites, reached London this morning, and with as many more from foreign courts and states due to arrive this evening, will complete practically the assemblage of foreign missions.

The streets presented a lively appearance with the constant coming, and going of royal carriages with escorts, conveying guests to Buckingham palace and other palaces given over for the entertainment of envoys.

HAMMOND THERE O. K.

LIVELY FOR SUNDAY

London, June 19.—The appearance of the British capital last night was anything but Sabbath-like. Enormous crowds pushed through the streets, flocking towards the center of the city to see the decorations of the buildings and streets and catch a glimpse of the foreign visitors.

Apparently almost the whole of London's population of 7,000,000 turned out. Several hundred thousands jostled one another for hours about St. James park, Westminster abbey, and Trafalgar square. White Hall, Pall Mall, the Strand, and Piccadilly were almost impassable for motor cars and cabs, and from time to time traffic was stopped.

ROYALTIES FURNISH THRILLS

Buckingham palace, where the royal ensign floats, was the center of attraction all day. A constantly shifting mass of people elbowed one another in front of it. Thousands were there yesterday afternoon, and last night the assemblage was swollen until it filled St. James park to overflowing. Several times the crowds had an opportunity to cheer the king and queen when they drove in or out, while the constant arrival and departure of visiting royalties furnished repeated thrills.

FIFTEEN MAKE FIRST STAGE

Aviators in Paris-London Race Rest After One Flight.

THREE DEAD BY THE WAY

Two Burned to Death in Midair and Other Struck Tree—Course 1,000 Miles.

Liege, Belgium, June 19.—The aviators who accomplished the perilous first stage of the European circuit race are resting here today. Seven arrived yesterday, and eight today after slight mishaps. The airman were much depressed over the series of fatalities which marred the start yesterday. This morning a monoplane fell near Charleville. The identity of the pilot or the extent of his injuries is not yet learned.

GAUBERT DOING WELL.

A report from Soissons, France, says the condition of Gaubert, one of the injured, is satisfactory. Tomorrow the second stage of the race, from Liege to Utrecht, 130 miles, will be attempted.

LANDRON'S FATE KNOWN.

Further details of the death of Landron were received from Chateaufort. The aviator, who was but 23 years of age, was flying at a height estimated at from 1,800 to 3,000 feet over the village of Epieds, when suddenly the villagers were horrified to see the machine and aviator enveloped in flames. Then they heard a faint report of an explosion and a ball of fire pitched earthward turning over and over as it fell.

IS THROWN CLEAR.

The aviator was hurled from his seat clear of the flames, which streamed 50 feet behind the aeroplane. The machine was still burning when the wreckage dropped into a wheatfield. The body of Landron struck the ground nearby. Both legs and one arm was broken and the chin shattered, his face scorched and clothes burned.

NEARLY THOUSAND MILES.

The race, so unhappily begun, is to cover a course from Paris to London and return, a total distance of nearly a thousand miles. Fifty aviators started, but 10 never got beyond the limits of the maneuvering fields. Three more were killed on the first stage of the flight and several others were injured.

A later report states an unknown aviator descended rather roughly at Charleville, but he soon afterwards again ascended, apparently was not much injured.

FIFTY START.

Paris, June 19.—Fifty aviators started from Vincennes early yesterday morning in the greatest race through the air ever witnessed and last night three of them were known to be dead and at least five injured, one fatally.

The aeroplanists took wing in a fitful wind that forced them to mount high above the clouds to escape the furious eddies which amounted almost to whirlwinds.

SEE TRAGIC DEATHS.

While nearly 1,000,000 men and women were watching, two of the birdmen met with tragic deaths a moment after they had started. One burned to death high in the air and the other dashed against a tree, the motor of his machine crushing his skull.

An hour later the death of a third aviator was witnessed in the clouds when benzine in the reservoir of his machine exploded and the aeroplane was consumed.

TO LONDON AND RETURN.

The race calls for a flight to London and return, with stops at various places going and returning. At the closing of the registers last night seven of the competitors had reached Liege, Belgium, a distance of 212 miles. All the others had met with accidents or had been stalled on the first lap of the flight.

THE DEAD.

CAPTAIN PRINCETEAU, burned to death high in the air after motor exploded.

M. LE MARTIN, skull crushed by part of motor when machine was dashed against tree after steering gear failed.

M. LENDRON, burned to death among clouds when benzine reservoir exploded and fire consumed aeroplane.

THE INJURED.

M. Gaubert, a former lieutenant in the army, who was entered in the civilian race under the name of "Dalgier." He was found lying senseless near his machine in a wheat field, four miles from Villars-Coterets. His injuries are thought to be mortal.

M. Billé, whose aeroplane struck the earth within a mile of the start and was wrecked. Billé was injured, but not seriously.

Three other birdmen fell, M. Lordian, near Charleville; Oscar Morison, close to Gagny, and M. Morin at Chevreton, within 22 miles of Liege. All were hurt, but not seriously.

PRIZES TOTAL \$94,000.

Of the 50 aviators who started the race, 38 were civilians and 12 officers assigned for military duty. Hung up for the competitors are prizes amounting to \$94,000.

TELLS OF OLD FRIENDS.

The committee on expenditures in the treasury department today began work on another angle of the sugar investigation, that of the recent weighing frauds at the port of New York, questioning Oliver Spitzer, one of the American Sugar Refining company's dock superintendents, who was convicted and later pardoned by the president. Spitzer told the entire history of the sugar weighing frauds, describing the dishonest weighing schemes employed on the sugar docks as far back as 1885.
