

BLIND MAN AND WIFE IN QUARREL

Are Arrested and Held for a Time at Police Station in This City.

TO BE SENT ON WAY HOME

Are Residents of Dallas, Tex.—Have Been Eking out an Existence by Begging.

Pitiable circumstances were brought to the attention of the police department when complaint was lodged against Mr. and Mrs. Harry Malcolm, 1517 Sixth avenue, for quarreling.

The husband and wife led a little daughter with them. The father is blind. He has been eking out an existence here by playing an accordion and singing along the streets.

Large crowds have been attracted, largely through the efforts of the child rather than the father. The plight of the family has attracted the heart of many a passerby, and the result has been a liberal contribution.

As I stated, much interesting history and details are hidden in the files of the newspapers, but the history that is being saved through our local papers will soon be lost, for the reason that the paper that is now being used is not permanent and it will take but a comparatively few years to make the print illegible.

A law should be passed making it obligatory upon the local press to print on good serviceable paper that will last throughout all time, two or three copies of each edition and each volume bound and filed at the court house and that the expense of such printing and binding should be borne by the county.

Every generation owes a duty to the succeeding generation, in fact, it is a legacy that each generation must leave to the succeeding generation, and that legacy should be a true record of what that generation knew, had seen or witnessed, for the best history is made up from the reminiscences of the people at the time when the event occurred, and the writing of that history should not be left till the generation has passed away.

The most valuable history is now hidden away in newspapers and magazines and if such newspapers and magazines are preserved, the future historian can then compile a creditable history of the time of which he is writing. I am sorry that no one has written a true history of this county. If such a history had been written 50 years ago much that is now lost would have been preserved to future generations.

A very creditable history of the city of Davenport was written in 1858, and that history is priceless. Someone in Davenport, or Scott county, should continue it from that time to the present.
