

PLAN ADDITIONS TO TENT COLONY

Woodman Executive Council
Asks for Bids on New
Buildings.

WILL COST OVER \$100,000

Improvement Includes Three or Four
Structures at Tuberculosis
Sanatorium.

Plans for three buildings, and possibly four, have been submitted to contractors by the Modern Woodmen of America, to be erected at the tuberculosis sanatorium at Colorado Springs, provided the figures on the bids do not exceed those provided for in the plans and specifications. With the erection of the new buildings according to the specifications, the colony will have double its present capacity and will be able to care for about three hundred and 60 people. It is supposed to erect three buildings in the center of the colony grounds, and in addition to the provision for more room, there will be the additional facilities for the patients.

TORNADO CARRIES BOY HIGH INTO AIR

William Boyd

William Boyd, fifteen, was roughly treated by the tornado that wiped out the town of Ben Davis, Indiana. Although none were killed outright, several were badly hurt and two of them are not expected to recover. The property damage was enormous. Boyd, who weighs 100 pounds, was lifted from the street into the debris-filled air, carried high over a neighboring building, and dropped into a pool of mud. He was uninjured save for a bruise on the head.

tients. Bids for the work will be opened Nov. 6, at Colorado Springs. S. J. Collins of the Collins Bros. firm has gone to the sanatorium to look over the field.

TO BE OF STONE.

All of the buildings are to be constructed of stone and are to be fireproof. Native stone is to be used. The main building will consist of two dining rooms on the north and south and will accommodate visitors as well as patients. There will be quarters for the men and women servants and to the rear there will be a large kitchen. The second floor will contain more than 50 rooms, each accommodating one person. They will be for the use of the employees and attendants. The basement will contain a refrigerating plant for the storage of fruits, vegetables and meats.

HAVE OWN POWER PLANT.

The second building is to shelter a power plant where the electricity of the colony will be generated. The third building will be used as a reception hospital and the new patients will be kept there until they become accustomed to the ways of the colony and the general surroundings. Should the fourth building be erected, it will be used as a utility building. The approximate cost of the entire improvement is in excess of \$100,000.

School Savings Collections.

On account of the children contributing to the soldiers' monument fund and the attendance of a large number of local teachers at the educational convention at Peoria this week Friday and at Dixon next week Friday, the savings bank collection for both weeks will be taken in the schools next Wednesday, Oct. 25, when a representative of the State bank will call to make the collection.

WATER STAGE IS DELAYING WORK

U. S. Engineers Report That the
Improvements on Mississippi
Have Stopped.

ARE UNABLE TO PROCEED

Lower Mark Necessary in Order to
Properly Slope Shore Protections
Under Construction.

The U. S. engineers' office reports that the exceedingly high stage of water at present is interfering seriously with the improvement work of the government boats. Shore protections must be put in when the water is low, so as to get the proper slope to the bank, and this work is practically at a standstill. The willow sloughs are so flooded that work of getting out the drift wood and clearing these places up is being impaired.

Yesterday it was found necessary to remove another 10 foot section of the pier the Nineteenth street dock, and but one 10 foot section now remains, three sections having been taken up on Tuesday. The boats which land at this point are now able to put their stage upon the platform and right inside the door of the freight house.

LILLY IS SNAGGED.

Work of repairing the light house tender Lilly, which was snagged about 60 miles below Kansas City, is progressing rapidly. A large hole was torn in the hull, but the damage will be remedied in a day or so.

Major Keller, who left Sunday for Kansas City and the Missouri river, returned this morning, and while away inspected the Lilly.

City Chat

BELIEF.

If I were asked what I believe, I could not help but say.

The gentle and the simple creeds of boyhood's yesterday;

The tender faith in bible things, the truth, the way, the right;

The golden rule to live one's life according to the light;

And everywhere the thought of God, that we are everywhere

The children of one father's love and of his heavenly care.

If I were asked what I believe, I know my thoughts would go

Back to a little child at prayer in the soft evening glow;

And I can think of nothing else so beautiful, so sweet,

As prayer beside a mother's knee who tried to lead our feet

In paths of righteousness and truth where none could go astray.

If I were asked what I believe, I'd have to say, as then,

A simpler faith in God's commands, a manlier trust 'mong men,

A clear and more abiding course that which men might call

The straight out from the shoulder faith of Peter and of Paul;

The teachers, most of all, that came to us in Sunday school.

Way back in little childhood's land, the land of Golden Rule.

HAZERS PUT TO ROUT BY WOMAN WITH WHIP

University of Illinois Students Attacked by Landlady Whose
Husband is Ill.

Urbana, Ill., Oct. 19.—Armed with a big whip, Mrs. Andrew J. Miller, wife of former State's Attorney Miller of Champaign county, attacked 15 University of Illinois sophomores yesterday as they sought to break into the Miller house. Strength was lent her arm by the knowledge that her husband was in a critical condition after months of illness and might be given a serious setback if a disturbance was raised within by the intruders.

When Mrs. Miller appeared with the whip the would-be hazers had effected an entrance by crawling up a lattice work on a porch and forcing a second-story window occupied by freshmen, who were to be subjected to the usual indignities if captured. Mrs. Miller wielded the whip with effect upon several members of the band. All hurriedly escaped, some jumping from the second story to the ground. Medical attention was necessary to calm Mr. Miller, who grew greatly excited during the combat. An effort will be made to identify the members of the party. The university has already dismissed two students for hazing.
