Allen, president; C. I. Josephson, vice president; Sol Hirsch, cashier; Carl Lundberg, assistant cashier; H. J. Gripp, manager of real estate department.

Four Fires Occur.—Within the space of five and one-half hours Monday evening firemen of Moline, from all four stations, responded to four calls in different parts of the city, which breaks the record for a single evening. Once in the history of the department, six alarms were answered in one day, but that was for a 24-hour period. It is estimated that a total damage of \$8,500 resulted from the fires Monday night. The alarms were received at 6:35 to the barn of Herman W. Nelson, 1815 Sixth avenue; at 7:15 at the residence of Edward Nelson, 1704 Sixteenth street; at 8:40 to the office of the Moline Gazette Publishing company, and at 12:04 a. m. to the pool room of H. Notes of the Farm

O. C. Barker of Bartholomew, Ohio, has a pure bred Guernsey herd of 280 animals and is selling no females, as he wishes to have on his farm of 3,200 acres a herd of 400 registered Guernsey cows. This will be a sight worth seeing.—Hoard's Dairyman.

It took England 200 years to increase its yield of wheat from 12 to 14 bushels per acre, to an average of 42 bushels. This was accomplished largely by the use of animal manure. The United Kingdom has 114 farm animals per mile, while our best agricultural states have less than 80.

Farming is more than getting good crops and money in the bank—it is living up to our best and being good, kind and unselfish all along the road. Some boys have been sored on the farm by having the sheep or the colts given them taken away and sold for the general good. It hits a boy pretty hard to have this done to him. Better not give him these things at all, if you do not mean to stand by it.—Edgar L. Vincent.

One marvels at the way enthusiasm will revive and return after an apparent snuffing out; one marvels, too, at how far enthusiasm will carry one and with what courage and joy.
