

PROSPECT PARK IS NOT POPULAR

Odd Fellows' Tenth Annual Picnic Has Only Tenth of Usual Crowd.

BACHELORS WIN AT BALL

Rev. R. E. Henry and Judge C. J. Searle Deliver Addresses—Back to Campbell's Island.

Prospect park, Moline, held few attractions for Odd Fellow picnicers yesterday and as a result, less than one-tenth of the usual number attended the day session of the annual affair. The Odd Fellows began to assemble at the park in the early morning and during the day about 500 had gone there. At night, the attendance was swelled to almost twice that number. The big feature of the day was the overwhelming defeat of the benefactors of the Odd Fellow ranks by the bachelors. The final score which was chalked up showed 17 runs for the youngsters against one lonely little score for the married men. It was a great game and was full of fun—and errors—from start to finish. Miss Mabel Trenkenschuh of Rock Island and Roy Parker of Rock

Island were prize winners in the list of races.

LAST TIME FOR PROSPECT.

In former years, the annual picnic of the Odd Fellows has been held at Campbell's Island. Prospect park was used for the first time yesterday. Officers of the Tri-City Odd Fellows association say that they will never again go to the Moline park.

Among the pleasant features of the day were the speeches by Rev. R. E. Henry of Anatic and by Judge C. J. Searle.

FRECKLES

Don't Hide Them With a Veil: Remove Them With the New Drug.

An eminent skin specialist recently discovered a new drug, outline—double strength, which is so uniformly successful in removing freckles and giving a clear, beautiful complexion that it is sold by any first-class druggist in the city of Rock Island under an absolute guarantee to refund the money if it fails.

Don't hide your freckles under a veil; get an ounce of outline and remove them. Even the first night's use will show a wonderful improvement, some of the lighter freckles vanishing entirely. It is absolutely harmless and cannot injure the most tender skin.

Be sure to ask the druggist for the double strength outline; it is this that is sold on the money back guarantee.

TAYLOR TELLS OF CROP CONDITIONS

"Farmers in the Dakotas are looking forward to harvesting the most bountiful grain crop in years," says Dr. W. E. Taylor of Moline, who has just returned from an extended "better farming" missionary trip through the northwest. "There has been an evenness of sunshine and rainfall conducive to a normal, healthy crop development and there are tillers of the soil in North and South Dakota, who in the past have met with discouragements and reverses, who are now treading the road to certain prosperity. The wheat fields, especially, give promise."

Newspapers of the two states speak in glowing terms of the interest manifested everywhere along the line in the branches of the Better Farming association, most of which were organized by Dr. Taylor on a trip through the Dakotas last winter. In many of the counties the farmers, linked together in these organizations intended to create and arouse interest in the application of scientific principles to crop raising and farm management, have employed salaried agricultural experts who are devoting their entire time to assist in the movement that is revolutionizing the agricultural industry. In several of the towns visited by Dr. Taylor these experts took part in the programs.

July 3 Dr. Taylor spoke at Como Park, S. D., to an assembly of farmers and on the Fourth he dedicated a new \$100,000 court house at Ellendale, the seat of Dickey county, N. D. Five thousand people attended the ceremonies, which were held in a large tent pitched by the side of the handsome new building, which stands as a witness to the fact that farmers of that region are enterprising and have the means to accomplish their ends. On the day following Dr. Taylor addressed the Commercial club at Aberdeen, S. D.

HOT WEATHER BRINGS NEEDS FOR POSLAM

As indispensable as tooth powder and other intimate articles for toilet convenience this summer is a box of Poslam, the perfect skin remedy.

When Poslam is used for sunburn, fever blisters, mosquito bites, burns, rashes, pimples, hives, red noses and irritated or inflamed skin, surprising results are seen after one application. The complexion is cleared over night; dandruff is dissolved, itching or chafing feet are speedily relieved.

Apart from its primary purposes, the treatment of eczema, acne, skin-scale, all forms of itch, etc., the usefulness of Poslam extends to every condition where the skin is affected.

POSAM SOAP, used daily for toilet and bath, makes every cleansing operation a double means of beautifying the skin. Incomparable in its benefits to tender skin, particularly to infants. Antiseptic and soothing; absolutely pure.

A. J. Bliss, N. W. Steiner, H. O. Rolfs, and all druggists sell Poslam (price 50 cents) and Poslam Soap (price 25 cents). For free samples, write to The Linsengerich Laboratories, 22 West Twenty-fifth street, New York City.

ANNUAL JULY CLEARING SALE SATURDAY—SPECIAL SALE

This great series of July Clearing Sales takes renewed interest tomorrow. Great quantities of complete stocks have been repriced—all remaining odd and broken lots priced at ridiculously low prices. Your special attention is again called to the fact that our entire stock of summer merchandise will be sold in 9 days. You cannot conceive the great values offered unless you are here in person. Even though you've attended Thursday's and Friday's sale, don't miss this Saturday Special Sale.

DENOUNCES NEW WOODMEN RATES

Rock Island, July 12.—Editor The Argus: Free men are always ready to fight for a just cause. They will deliberate and then decide. The legislature of Illinois recognized that our Chicago head camp was not a legislative body when it passed the bill which requires what was done at Chicago to be submitted to the vote of the membership. The head camp has thus been rebuked by two legislatures. If there are any changes to be made or our constitution amended, it must be submitted to the members to have it legal. If the majority of the members register their vote against the new

rates, the action at Chicago will be set aside and declared null and void, and it is up to those who desire fair play, right and justice to prevail to get on their working harness and get into the fight. A thing is seldom prized unless it has been gained by struggle and determination, and there are no real victories without the dust of battle. Our actuaries tell us that the present rate, with 12 assessments a year, will be abundant for all demands as long as we infuse new blood into the order as old men pass out, and we certainly can do this as long as ladies are born. There have been literature and teachers sent out to educate us along the high rate line, but as we have learned more about the facts and insurance generally, we are convinced no such a rate was needed. The rank and file of the membership are bitterly opposed to the unreasonable rates adopted at Chicago, and unless the action is undone before next January,

this greatest of all fraternal insurance societies will be a thing of the past. If the action at Chicago were to stand, old line companies would have pulled off the greatest stunt in freemasonry known to the last century. The referendum vote will carry at least 90 per cent.

W. C. PECK.

Lisbon—No further royalist incursions into Portuguese territory were reported Thursday and it is believed here that the backbone of the movement has been broken, as the army and navy remained loyal to the republic.

What Makes a Woman?

One hundred and twenty pounds, more or less, of bone and muscle don't make a woman. It's a good foundation. Put into it health and strength and she may rule a kingdom. But that's just what Electric Bitters give her. Thousands bless them for overcoming fainting and dizzy spells and for dispelling weakness, nervousness, backache and tired, listless, worn out feeling. "Electric Bitters have done me a world of good," writes Eliza Pool, Depew, Okla., "and I thank you, with all my heart, for making such a good medicine." Only 50 cents. Guaranteed by all druggists.

Housework Drudgery!

Housework is drudgery for the weak woman. She brushes, dusts and scrubs, or is on her feet all day attending to the many details of the household, her back aching, her temples throbbing, nerves quivering under the stress of pain, possibly dizzy feelings. Sometimes rest in bed is not refreshing, because the poor tired nerves do not permit of refreshing sleep. The real need of weak, nervous women is satisfied by Dr. Pierce's Favorite Prescription, and as Mrs. Briggs and others testify:

It Makes Weak Women Strong and Sick Women Well. This "Prescription" removes the cause of women's weaknesses, beats inflammation and ulceration. It tranquilizes the nerves, encourages the appetite and induces restful sleep.

Dr. Pierce is perfectly willing to let everyone know what his "Favorite Prescription" contains, a complete list of ingredients on the bottle-wrapper. Do not let any druggist persuade you that his unknown composition is "just as good" in order that he may make a bigger profit.

Mrs. BRAZILL, Burgoon, of 539 N. Washington St., Delphos, Ohio, writes: "Having taken your 'Favorite Prescription' for a bad case of intestinal disease and constipation with woman's ill, for which I was almost unable to do anything, I think I am safe in saying that there are no remedies in the world like Dr. Pierce's Favorite Prescription and 'Purifying Lotion Tablets.' I am now enjoying the best of health, and thank Dr. Pierce for his wonderful medicines which have done me a world of good."

Dr. Pierce's Pleasant Pellets regulate liver and bowels.
