

HEART and HOME PROBLEMS

Mrs. Elizabeth Thompson

Dear Mrs. Thompson: Will white shoes or slippers be worn this summer? CONSTANT READER.

Dear Mrs. Thompson: (1)—I am a boy of 19 and want to go into some kind of business. What would be the best to start in on a capital of about \$160? I have had no experience in any kind of business. (2)—Do you think my handwriting is good for self schooling? BILLY EYER.

(1)—You can't start much of a business on \$160. As I do not know your qualifications or the opportunities of your locality, I cannot give you any advice. I know of one young man who started in business by making buttered popcorn and sweet popcorn balls, and selling them. Now he is a rich man. You might try something like that.

(2)—It is fair. There is room for improvement, but if you have had no help you have done pretty well.

Dear Mrs. Thompson: (1)—I have no steady fellow, but would like to know if it is wrong for a fellow to kiss the girl he is going with or for her to kiss him. (2)—If a girl goes to a party with her brother, is it all right to come home with a fellow you never went with before? (3)—When at a dance, is it wrong to go outdoors with a fellow and sit in the buggy? GRACE.

(1)—When you really fall in love with a man, how will you like to have him know that you let anyone else kiss you? (2)—If your brother is willing and the young man is all right, I see no harm in it. (3)—It isn't very good conduct.

Dear Mrs. Thompson: (1)—Is it proper for ladies to take those knitted handkerchiefs to church? (2)—I have a married woman friend; there has been lots of talk about her and a man. I believe it because I have seen little things with her and the man myself. She wants me to be just the same as

before, but my husband forbids me to have anything to do with her. Please advise me. ELOUSE.

(1)—Yes. Take them anywhere you would use a regular handkerchief. (2)—Tell her that if she cares more for the man than she does for respectability and her good old friends, you will have to give her up just like all the other respectable people will.

Dear Mrs. Thompson: (1)—I am a girl of 18 and very much in love with two young men. They seem to think a great deal of me. I have been going with one of them four years and lately met the other. The former wants to marry me, but I had rather marry the latter if I am fortunate enough. How can I win him? (2)—How can I produce flesh? Am only 100 pounds. I have good health but would like to weigh 115. (3)—How can I make a party dress suitable for spring and what kind of goods would suit best? BROWN EYES.

(1)—There is no guaranteed recipe for winning love. A girl can only be sweet and lovable and make herself as interesting as possible. If the man loves her, he will let her know it, and if he doesn't she can't make him. (2)—Ornamental eaten with cream and sugar is a fattener; also bananas and cream. Eat plenty of sleep and don't worry about anything. (3)—A silk or satin foundation with a tulle of any transparent material would be fashionable. Try with embroidery or artificial flowers. The drapery may be in pinnacles or flounces or just caught up at one side. Have it simple in appearance.

The rooms were trimmed in green, cut flowers and shamrocks. In the dining room where tea was served, the table centerpiece was a castle built of small potatoes. no standard whatever; probably she will never have seen many of the utensils you use daily in your kitchen; rightly taught that they are real helps, she will use them carefully. She will learn much from observation as she helps you with the details of your work and you can teach in the order that circumstances make easiest.

The first thing to begin with is boiling. Many people who have cooked for years in a haphazard fashion, do not know when water is really boiling. For this reason coffee-making furnishes a good demonstration, then vegetables, then soup making, beginning with vegetable soups first.

By this time the beginner will have grasped the fact that boiling water helps to retain juices and extracts and cool water softens fibers and you can explain the secrets of the frying pan; when she has learned that hot fat bursts starch grains and forms an impervious coating that the fat cannot penetrate simple meat sauces and gravies may be made. This should be accomplished in two weeks, though cooking, which looks so easy, is slowly taught.

Having learned to make sauces and to cook the meat in the simplest ways, croquette making, scalloped dishes, creamed meat and fish entrees will prove easy.

Pastry and cake and dessert making will have to be taught gradually, beginning with simplest batters. As for breakfast cakes and gems and biscuits; bread making should not be attempted for several weeks unless the maid is especially apt. After the first few weeks a cook book may be given and should prove a great help, if it is a tested one and reliable. However, the inability to use recipes does not imply that one cannot learn to cook. A stout colored girl who could neither read nor write comes to mind. She was very observant and, though 38 before she entered a "big house" kitchen totally untrained, learned in six months the rudiments of every day cookery and table service and is now a well-to-do caterer.

In training a maid you will do best to start at the beginning, as if she had

Housekeeping is analogous to business; money must be spent to produce certain results and the expense account must be watched to make it bear proper relation to the health and comfort derived from the expenditure. It is in attention to details that an honest return for money and service spent is found. This means that the housekeeper must have a system based on a solid foundation, reinforced with experience, experiments and investigation. Then there will be no friction whether there be one maid kept or 20, or whether the mistress herself is parlor maid, cook or waitress.

It is as much the duty of the mistress to be trained to adjust her domestic problems, as for the maid to know how to execute the orders she receives. Almost any young woman of ordinary intelligence and willing disposition can be taught the principles of housekeeping, if the teacher has as much patience as the maid; in every house there are two bears, bear and forbear, and they need daily exercise.

When your maid is trained she will want an increase in salary, but that is to be expected and you will be able to enjoy months, perhaps years, of comfort in return for your efforts, and if she leaves you will have the pleasure that comes from helping others which is its own reward. Much is told and written of the ingratitude of hired women while little is said of the hundreds of faithful servants who have been many years with the same employers, doing their work faithfully, and using their best efforts to make the family comfortable.

Trimmed with shamrocks. The circle netted a nice sum for their treasury.

Showered with candy from which they realized a neat sum.

Shower for orphanage.

THE EPWORTH LEAGUE OF THE First Methodist church held a handkerchief, towel and soap shower last evening at the church for the Lake Bufton orphanage which the league assists in supporting. The admission was some one of the articles mentioned and there were quite a number of articles contributed for the home. Three young women dressed as deaconesses, gave short talks on the work at the orphanage. Miss Violet Downey sang a number of Irish songs and stereopticon views of the lumber life in the south were much enjoyed. Refreshments were served during the evening.

LOOKOUT CIRCLE MEETS

THE LOOKOUT CIRCLE OF THE First Baptist church held a St. Patrick's day sociable at the church last evening which was very well attended and proved a most enjoyable affair. The rooms were decorated with green and white crepe paper and other emblems appropriate to the day. A short program was given consisting of a vocal solo by Miss Elsie Johnson, a piano duet by Misses Laverne Wood, and Sylvia Koch and a reading by Miss Verne Griffe. Refreshments were served by the young women wearing white caps and aprons which were

WOMAN ESCAPES OPERATION

By Timely Use of Lydia E. Pinkham's Vegetable Compound.

Here is her own statement.

Cary, Maine.—"I feel it a duty I owe to all suffering women to tell what Lydia E. Pinkham's Vegetable Compound did for me.

One year ago I found myself in terrible suffering. I had pains in both sides and such a soreness I could scarcely straighten up at times. My back ached, I had no appetite and was so nervous I could not sleep, then I would be so tired mornings that I could scarcely get around. It seemed almost impossible to move or do a bit of work and I thought I never would be any better until I submitted to an operation. I commenced taking Lydia E. Pinkham's Vegetable Compound and soon felt like a new woman. I had no pains, slept well, had good appetite and was fat and could do almost all my own work for a family of four. I shall always feel that I owe my good health to your medicine."—Mrs. HAYWARD SOWERS, Cary, Maine.

If you are ill do not drag along until an operation is necessary, but at once take Lydia E. Pinkham's Vegetable Compound.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a physician, and held in strict confidence. (Advertisement)

Where Fashion Reigns

SAVES ELDERLY PEOPLE FROM KIDNEY AND BLADDER MISERIES

Sleep Disturbing Bladder Weaknesses, Backache, Stiff Joints Rheumatic Pains Disappear After Few Doses Are Taken.

While people along in years are naturally more subject to weak kidneys, they can avoid the tortures of backache and rheumatism, and be saved the annoyance of getting up at night with disagreeable bladder disorders, for the new discovery, Croxone, quickly relieves the most severe and obstinate cases. Croxone cures these conditions because it removes the cause. It is the most wonderful remedy ever devised for ridding the system of uric acid. It is entirely different from all other remedies. It is not like anything else ever used for the purpose. Croxone makes the kidneys filter the blood and sift out all the poisonous acids and waste matter that cause these troubles. It soaks right in and cleans out the stopped-up, inactive kidneys like water does a sponge, dissolves and drives out every particle of uric acid and other poisonous impurities that lodge in the joints and muscles and cause rheumatism. It neutralizes the urine so it no longer irritates the bladder, overcomes unnecessary breaking of sleep and restores the kidneys and bladder to health and strength. It matters not how long you have suffered, how old you are, or what else you have used. The very principle of Croxone is such that it is practically impossible to take it into the human system without results. There is nothing else on earth like it. It starts to work the minute you take it and relieves you the first time you use it, and all your misery and suffering soon disappear. You can secure an original package of Croxone at trifling cost from any first class druggist. All druggists are authorized to personally return the purchase price if it fails in a single case.—(Adv.)
