mind, is sufficient for much higher prices. Oats—Advocate purchases for the same reason we have in the past. Provisions—Hogs, 19,000. Shade higher. Top \$9.05. Think it is hopeless to wait for reactions. Advise purchases now.

Liverpool Situation. Liverpool, Sept. 30.—The steady American cables yesterday stimulated some support at the opening and wheat values were 1/4 higher. Expectations are for a liberal increase in the visible here, and spot market was firm and generally 1/4 higher. Following the opening, pressure developed on the liberal Canadian offers, continued heavy, Winnipeg receipts and the higher grading there, together with favorable reports from Russia and expected liberal Russian shipments this week. Argentine news on the whole is satisfactory. There was a disposition shown to support March and the month held firm during the entire trading. At 1:30 the market was dull and prices unchanged to 1/4 higher than yesterday.

Corn opened 1/4 to 1/2 higher in sympathy with America and unfavorable reports from Russia and Roumania. Later pressure developed on a poor demand for forward shipment. At 1:30 prices were unchanged from yesterday. The visible supply of wheat in Europe this week amounts to 71,200,000 against 73,562,000 last week, thus showing a decrease for the week of over 2,000,000. Last week there was an increase of 2,640,000 and last year a decrease of 1,900,000.

Drift of the Weather. Illinois—Generally fair tonight and Wednesday, except showers north to north; not much change in temperature. Missouri—Fair tonight and not much change. Iowa—Occasional cloudiness tonight and Wednesday; not much change. Wisconsin—Unsettled with probably showers tonight or Wednesday; not much change. Minnesota—Generally fair tonight and Wednesday; cooler Wednesday west. North Dakota—Generally and cooler tonight and Wednesday. South Dakota—Generally fair tonight and Wednesday; cooler Wednesday and in west tonight. Nebraska—Unsettled; cooler Wednesday. Kansas—Cloudy, probably unsettled tonight and Wednesday; cooler Wednesday afternoon. Montana—Fair tonight and Wednesday; cooler tonight with frost. Wyoming—Unsettled with rain tonight; cooler north and west tonight and in southeast Wednesday.

Bearish Feeling Checked. Chicago, Sept. 30.—The bearish feeling which has existed here received a check due to several items coming to the surface favoring the opposite side. Assurances come from reliable Northwest sources that the movement would fall off and also from Canada that their unusual movement would not continue at the present rate. Clearances were heavy and Southwestern millers are coming to terminal markets, for supplies. While Russian shipments were large they were offset by Danubians. A foreign authority intimates that Russian crop is not as large as newspaper reports indicate.

The light winter wheat movement and the strong possibility of reduction of stocks at winter wheat terminal markets really counted for most of the strength. The situation appears to us as a healthy one and we advise purchases.

Corn was influenced by wet weather and strong indication of falling off of receipts. The markets act over-sold. With the September deliveries out of the way we look for further advance.

Oats—Less heard about Canadian competition—the enormous farm consumption 1/2 again reflected in the light movement. However, Canadian possibility will be with us, therefore, believe in profit talking on further rally.

Provisions—Hog receipts small. We prefer to wait for further recession before buying.

Stocks—With every business man in the United States ready and anxious to expand, we do not see why listed corporate shares should not reflect renewed prosperity and maxi-

mum earnings. The bears made a vigorous effort to shake the market down this morning. Hard headed and far sighted investors are not disturbed apparently.

Cotton—We believe that this year's supply of cotton will be approximately 1,750,000 bales short of requirements and the spinners will sooner or later bid against each other for cotton. While efforts will no doubt be made to dislodge staunch bulls, and the market may yield occasionally, we expect to see some very fancy prices for the staple. Investigate this cotton market.

Panama and the In Picture and Prose

This book first takes you in through the front door of Panama—through the islands along the way, describing the natives in picture and prose; thence you are shown the wonders of that unknown country—the people, their strange customs and more strange costumes, their religions and politics, their peculiar characteristics; how they live—how certain natives eat lizards and hugely enjoy them—how they fish and hunt; their sports and pastimes; marketing bananas, shooting alligators, burning charcoal; ALL there is to know about these queer people, and MORE than has ever been told of the great waterway—from the whys and wherefores of its construction—and on through to its completion—in all a beautiful human interest story that will charm the reader to the very last page.
