It's No Secret

Housewives are all learning the truth. They make sure of having "good luck" with their baking by using

ZEPHYR FLOUR

The baking qualities of Zephyr Flour are tested in the mills by actually baking from samples every two hours while the flour is being ground. Also analyzed by chemists every two hours. The mills see to it that Zephyr Flour is made uniform. The mill people know it always acts the same way in baking, and housewives and bakers quickly find it out.
