MAY HAVE NURSE AT LOCAL SCHOOL

Board of Education Considers Proposition Made by Mothers' Club.

MAXSON AGAIN REELECTED

Superintendent Named Head of Schools for Fourth Consecutive Year—Committees Appointed.

If the recommendation made by the Mothers' club of the Irving school, and considered by the school board at last night's session, is ultimately accepted, Moline may have a school nurse for the first time in the city's history. Official cognizance of a need which was pointed out by the Mothers' club was taken at the annual session of the board, and Superintendent C. H. Maxson has been instructed to investigate at once the feasibility of engaging a nurse, and reporting back to the board in the near future.

Members of the board favor the plan. Medical inspection of the schools has also been proposed, but no definite consideration has been given the plan. Maxson is reelected.

C. H. Maxson was reelected superintendent of the city schools. Miss Rita Knowles, secretary of the board, and Allen V. Hoaglund, superintendent of buildings and janitors. All three were elected unanimously.

Miss Knowles and Mr. Hoaglund are just completing their first year in their respective offices, while Mr. Maxson has now served here for three years. He came from Cedar Rapids, having been elected in 1911, and his unopposed appointment last evening to succeed himself is a strong endorsement of his work.

Among the important matters of annual business transacted was the naming of various standing committees of the board as follows:

Teachers—W. P. Hunt, Mrs. Alberta Dufva, Mrs. O. F. Anderson.

Text books and course of study—

Mrs. Dufva, Mrs. Sarah Reid Evans, W. H. Efflandt.

Finance—O. T. Behman, C. R. Rosborough, J. M. Lemmon.

Building and grounds—C. R. Rosborough, Mrs. Anderson, A. T. Jacobson, Mrs. Evans.

Supply—H. S. Bennett, A. L. Anderson, Gus Lindvall.

Auditing—W. H. Efflandt, O. T. Bohman, A. L. Anderson.

Manual arts—W. P. Hunt, H. S. Bennett, A. T. Jacobson.

Rules and regulations—J. M. Lemmon, Gus Lindvall, Mrs. Evans.

Report Election Canvass.

The report of the official canvass of the recent school vote was given by G. J. Peterson, township school treasurer, showing that H. W. Cooper received 1,625 votes, Oscar Bohman 1,447, Gus Lindvall 1,694, Dr. H. S. Bennett 1,531, and Mrs. Albert Dufva 1,544. Mr. Cooper was declared duly elected president and the other four members of the board.

PETERSON FEUD COMES TO CLOSE

Case Against Man Is Dismissed in Justice Entrikin's Court.

The case against Swan Peterson, charged with disorderly conduct by Mrs. Dorothy Mordhorst, and whose arrest was the culmination of a neighborhood feud of months, was dismissed by Justice Entrikin yesterday afternoon because witnesses testified that the woman had no grounds to charge Peterson with disorderly conduct.

It seems that Peterson was at work in his garden when Mrs. Nordhorst came out into her garden. The man greeted her casually and was surprised to receive in return a torrent of abuse.

About 20 neighbors testified against Mrs. Mordhorst and complained against her to such an extent that she was rearrested and her bond increased. She furnished bail and was released. Three state charges will be preferred against her and the woman will be placed under peace bonds on complaint of neighbors, who say she is a trouble maker.

The lecture will be illustrated with slides. The meeting is to be known at the club as "ladies' night," this being the second annual celebration of such an evening. Cleanliness Kills Flies.

HOW do flies live through the winter? A few lazy, lousy flies can be found half dead, but still living, around chimneys and warm places in the house or stable. They will come to life just as soon as the boys begin playing marbles.

If no garbage or filth were to be found the female flies would die and the stock might be lost.

We must keep things clean to keep flies from breeding. When they have come we can catch them with fly paper or fly traps or kill them with fly poison. We can keep them out of the house by keeping the windows and doors screened.

They crawl into the sugar, the milk and the bread. They have just been crawling into other places. They get typhoid germs and give you typhoid. They get consumption and spread it.

MOLINER PLANS HOME IN WEST

C. R. Stephens to Build a Palace on "Tiger's Trail" Near Los Angeles.

The Los Angeles Times of April 12 prints in colors a full page picture of the magnificent new home near that city that C. R. Stephens of Moline is planning to build. Accompanying the cut is the following:

"On a 10-acre plateau overlooking the whole of the San Vicente-Santa Monica district and a large part of the valley region between the Crescent bay and Los Angeles, C. R. Stephens, a wealthy manufacturer of Moline, Ill., is planning the early erection of a magnificent home, that promises to be not only one of the residence show places of southern California, but a landmark for all time in the north beach section. Stephens bought a site about three weeks ago from the Santa Monica Land & Water company, and has commissioned the Milwaukee Building company to handle the improvements.

"The property acquired by the Illinois man comprises in all 30 acres, this including, in addition to the plateau itself, the whole of a hill of unusual conformation lying back of and above Brentwood park. This elevation has for many years been known as "The Tiger's Trail." Reserving the crest of the hill for his immediate grounds, Stephens expects to plant its sides and base with live oak, wild walnut, wild lilac and other hardy trees, converting the entire holding into a splendid estate.

"The house itself will follow the style of the Italian renaissance and will be of white plaster exterior over hollow tile construction. It will have a frontage of 150 feet by a depth of 125 feet, the latter measurement allowing for terraces. The most striking and beautiful architectural features will be a series of tonic columns, and the heavy dentil molding of the cornice.

"The main hall will be 45x60 feet in size, the rear portion being divided off by a colonnade and used as a music room. With its landings, the main stairway will be 30 feet in width. The house will contain a total of 25 rooms, with seven baths."

DOCTOR IS FOUND INJURED IN ROAD

Arthur Parsons of Geneseo Pitched Out of His Auto When It Overturns.

With several ribs broken, his left hip injured and his body cut and bruised, Dr. Arthur Parsons, former mayor of Geneseo, lay in the road for more than an hour this morning before he was found and taken to his home in Geneseo. The accident occurred near Geneseo on a road that is used very little. He started from his home in his Ford car and was going at a fair rate of speed when the wheels caught in a rut, overturning the machine. To judge from the condition of the injured man when found, the automobile was going at high speed. Unless internal complications develop, Dr. Parsons will recover.
