

All Our Wool Suits and Coats HALF PRICE

Beginning tomorrow we've reduced all our wool suits and coats to Half Price. That is, \$9 for \$18 values; \$12.50 for \$25.00 values, and so on through the entire stock.

And they are certainly most exceptional bargains, especially when you consider the qualities and ultra-fashionableness of the garments. There is no manipulation of price marks, no desire to have you believe you are getting more than we are really giving, no substitution of inferior merchandise, but a straightforward presentation of facts that can be depended upon.

This sale of suits and coats coming at such a seasonable time, is, indeed, a windfall! It's an opportunity that is seldom given so early in the season, hence it's one that means more than a mere saving in the purchase price.

After we had planned on having this sale we became enthused over the matter and "in went" suits and coats that really should not be in a clearance. But we're determined to make this a sale that will appeal to the economical nature of tri-city women.
