Trout	15c
Frocoders	16c

### WAGNER'S REVIEW

#### Morning Stock Letter.

New York, June 29.—We should see a test of the buying power in stocks this week. Dividend and interest disbursements will begin Wednesday and many investors wait until they actually have this money in hand before investing it. We think many will be deterred by the depression and last week's failures. If so the top of the market is not far off.

Follow previous advices to sell stocks on sharp bulges. Buy back only on sharp drives.

### Liverpool Grain

Liverpool, June 29.—Wheat opened with shorts covering on a private report received here reporting heavy rains in American northwest and values were 1/4 to 1/2 higher. During the morning there was some profit taking and at 1:30 undertone was steady with prices unchanged to 1/4 higher than Saturday.

Corn opened 1/4 higher and later further advanced 1/4 to 3/8 with shorts covering on general rain in Argentine; light speculative offers and light stocks here and 1:30 the undertone was firm with prices 1/2 to 3/8 higher than Saturday.

### Drift of Weather

Illinois.—Fair north tonight and tomorrow; unsettled south; local showers; warmer tomorrow and north tonight. Missouri.—Unsettled tonight and tomorrow; local showers; warmer tomorrow. Wisconsin and Minnesota.—Generally fair tonight and tomorrow; slowly rising temperature.

Iowa.—Generally fair tonight and tomorrow; warmer tomorrow and in northeast tonight. North and South Dakota and Nebraska.—Generally fair tonight and tomorrow; not much change. Kansas.—Partly cloudy tonight and tomorrow; showers tonight; somewhat cooler.

### Morning Grain Letter

Chicago, June 29.—Excess rains of two to five inches in half the northwest for June raises some belief in a drop of 5 to 7 points in wheat condition. The guess is that the straggle will be rank and heads may develop light yields. Delivery day comes Wednesday and Chicago wheat stocks are practically swept out. It will be two weeks before the new wheat movement is on in bulk. The wheat decline of the present week may be slow. Rallies will result if assisted by apprehension in the northwest. Any advance in wheat before July 12 will of course place the market in shape for the bear attacks that often result in the last part of July. One or two brokerage houses have come out friendly to wheat on the basis that the world's stocks will remain depleted until near September, despite chances of a giant July movement.

Corn market is again under south-west influences. Temperatures on Saturday in southern Illinois, Indiana, Ohio, Oklahoma, Kansas and the south were 94 to 109. On Sunday the central west was cool everywhere but Oklahoma, Kansas and some southern states were 98 to 100 temperatures. Canada and the north west were cool over the week-end, with some rains in Canada and North Dakota.

The weekly weather forecast is friendly to corn. Weekly newspaper reviews are afraid of hedging sales in wheat and indicate belief northwest rains not done much damage. Drouth weather in the south-west is declared the leading corn factor. Damage to corn to date, however,

is considered moderate. The dry weekly forecast is friendly to oats, though the estimates of Snow and Goodman, due in two or three days, should be fairly liberal. A wheat visible decrease of 3 to 4 points is expected.

Chicago cash men predict good demand this week. Over 100 crop reports received this morning. They indicate a corn condition of 95 for Nebraska, Iowa and Michigan, probably 88 to 90 in Ohio, and 90 to 110 in central and northern Illinois. Southwest Iowa is the banner corn part of Iowa with 110 per cent. Corn condition in seven central states runs high.

Summary of News. Francis Ferdinand, Austrian throne heir, and his wife, assassinated. Anchor liner, California, with 840 passengers, aground in fog off Donegal. Messages and letters published in Sunday Herald disclose project of Henry Clay Pierce to get Carranza to unite northern national lines of railway in a new system.

Petroleum production in United States in 1913 was 248,446,000 barrels, an increase of 25,511,000. John Clafin says he is hopeful of a satisfactory readjustment will soon be made. July total disbursements will total about \$224,900,000. American stocks in London quiet; irregular.

Closing Grain Letter. Chicago, June 29.—Wheat market declined after early bulge on failure of northwest to develop bad news. Southwest cash turned weak and the Kansas June condition was given at 98 per cent with a promise of 160,000,000. Oklahoma and some of the southern states are hot, but the seven surplus corn states are cool today. Kansas corn condition is 93. Our own reports again indicate a July corn condition of 86. Oats have again felt the good weather outside the drouth strip in the central west.

Oats also feels the large promise in the big states as a side factor in the coarse grain situation. The July report will be most generous on all three grains and bulges should not be overstayed. Visible Supply. Wheat—Decrease today 3,335,000; last week 14,999,000; last year 39,163,000. Corn—Decrease, today 323,000; last week 7,589,000; last year 11,479,000. Oats—Decrease, today 81,900; last week 7,326,000; last year 14,756,000.

Prof. S. J. Sebelius of Augustana college has been called to the presidency of a new college at Yorkton, Sask., Canada, founded in 1912 by the Canada conference of the Augustana synod. Three departments will be in running order by Sept. 1: The academic, commercial and conservatory of music. This next fall a new building is to be erected. Twenty acres of land and an individual donation of \$15,000 have already been secured. A general subscription for the work is to be taken up in the conference during the coming winter. The prospects are encouraging. If Professor Sebelius accepts the call he will enter upon his new duties in September.

The boys, it is claimed, broke a window of the Wicks grocery store, corner of Twenty-third street and Fifth avenue, last Wednesday night, unlatched a door and gaining entrance, stole some tobacco and cigars. Albert Meyers and John Raymond are being sought by the police also, but thus far have not been located. It is thought that they have left town. All four are 13 years old.

The amount taken from the store was valued at \$4.76. It included 12 packages of Bull Durham, 34 packages of Duke's Mixture and 17 packages of Queen Quality tobacco and 70 Stock Leader cigars.

The two held by the police claim that they are innocent, but that the two boys the police seek are the guilty ones.

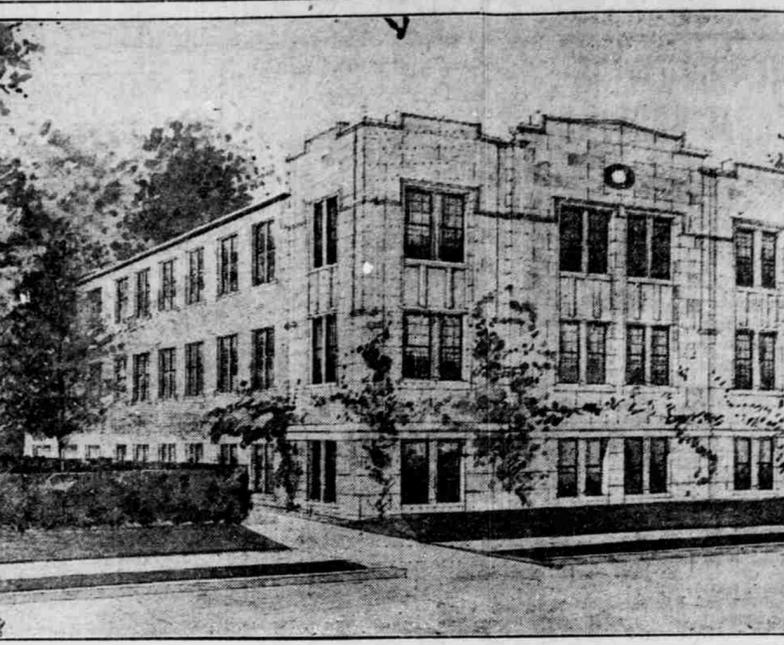

The Waddell girl came here from Springfield and secured employment at the home of Louis Mosenfelder, 820 Twenty-third street Friday morning. In the absence of the family Friday evening, it is claimed, she stole the dress, the property of Miss Alma Mosenfelder, and Saturday afternoon was arrested by Detective Sehert.

John O'Meara and Tommy Lane, two men who have been loafing about in the streets for some time and were arrested by Detective Tom Cox and Officer Murphy Sunday night on a charge of having stolen some lead junk from the house being razed at the corner of Twenty-second street and Seventh avenue to make room for the new Christian Science church building.

The lead was located in the house and some other material and tools were also reported missing, but when arrested the two men were in possession only of the junk. It was valued at 75 cents. The case will be tried Thursday, and the men were held under bonds of \$500 each.

J. Conway and G. Fisher, both painters, claiming Ottawa, Ill., as their home, were creating a disturbance in the business section of the city on the Sabbath day and were picked up by the police. They were fined \$2 and costs for disorderly conduct this morning, and in default of payment of the fine are working it out at the station.

## New First Methodist Sunday School

The picture is from a wash drawing of the new modern Sunday school of the First M. E. church, now in the course of construction just south of

Bedford street, with gray brick for the sides. Rev. T. E. Newland, pastor of the church, is personally superintending the work. O. Z. Cervin is the architect.

## SCHOOL ELECTION VERY IMPORTANT

Citizens Should Not Neglect Opportunity to Name Members of Board. It is the duty of every voter in the city to visit the high school tomorrow and register his choice for members of the board of education at the annual school election. The polls are to be open from 8 to 5. There are four candidates up for election, the terms

of Allan D. Welch and A. D. Sperry having expired. The former is a candidate again, but the latter having declined to run. W. H. Thoms has been drafted for the place. Andrew Olson and Frank Gerlich have also filed petitions.

## DOINGS AT PARK ARE CALLED OFF

The balloon ascension which was to have been made at Exposition park yesterday by "Diamond Jim" together with a number of bicycle and motorcycle races, was called off by the management of the park for a number of reasons. In the first place the aviator could not be found Saturday, and the owners thought it best to call the thing off rather than disappoint their patrons. The track was in poor condition for racing, and only practice of the horses in the coming July 4 and 5 meet was held.

## POLICE SEEK TWO MISSING THIEVES

The boys, it is claimed, broke a window of the Wicks grocery store, corner of Twenty-third street and Fifth avenue, last Wednesday night, unlatched a door and gaining entrance, stole some tobacco and cigars. Albert Meyers and John Raymond are being sought by the police also, but thus far have not been located. It is thought that they have left town. All four are 13 years old.

The amount taken from the store was valued at \$4.76. It included 12 packages of Bull Durham, 34 packages of Duke's Mixture and 17 packages of Queen Quality tobacco and 70 Stock Leader cigars.

The two held by the police claim that they are innocent, but that the two boys the police seek are the guilty ones.

## Daily United States Weather Map

Observations taken at 8 a. m., 7th meridian time. Air pressure reduced to sea level. Isohars (continuous lines) pass through points of equal air pressure. Isotherms (dotted lines) pass through points of equal temperature; drawn only for zero, freezing, 50°, and 100°. Clear; partly cloudy; cloudy; rain; snow; report missing. Arrows fly with the wind. First figures, lowest temperature past 24 hours; second, precipitation of .01 inch or more for past 24 hours; third, maximum wind velocity.

WEATHER CONDITIONS.			
The storm center shown Saturday over Minnesota has moved eastward to the St. Lawrence valley, causing showers, during the past 24 hours, from the lake region to the middle Atlantic states and New England, with a rainfall of 2.40 inches at Washington, D. C. The northwestern area of high pressure and cool weather extends from the north Pacific coast south-eastward to the Ohio valley. A moderate low which is central over Saskatchewan has been accompanied by occasional light showers and thunderstorms in western Canada and the upper Missouri valley. The eastward movement of these conditions will be attended by fair weather in this vicinity tonight and Tuesday, and by warmer Tuesday.

## CANADA SCHOOL SEEKS SEBELIUS

Prof. S. J. Sebelius of Augustana college has been called to the presidency of a new college at Yorkton, Sask., Canada, founded in 1912 by the Canada conference of the Augustana synod. Three departments will be in running order by Sept. 1: The academic, commercial and conservatory of music. This next fall a new building is to be erected. Twenty acres of land and an individual donation of \$15,000 have already been secured. A general subscription for the work is to be taken up in the conference during the coming winter. The prospects are encouraging. If Professor Sebelius accepts the call he will enter upon his new duties in September.

## KAISER ON SPORT BENEFIT

Would Aid Masses Rather Than Set a Few Records. Berlin, Germany, June 29.—The emperor, who has shown a warm appreciation of all kinds of sport, believes that the object should be a physical upbuilding of the masses rather than an effort to set new records.

In a speech at the dinner at the Bruns-Bittel-Koog, following the Lower Elbe regatta, the monarch said that he saw with joy the earnest accomplishments of the nation in sport and continued:

"I desire to direct attention to a matter concerning which I believe our nation is on the right track. This is an endeavor to confer the chief benefits of sport upon the whole people, and not to sort individual, first-class performances from the dead level, which remains generally low."

## NEW DEGREE FOR CARNEGIE

Holland University Makes Him Doctor of Political Economy. Amsterdam, Holland, June 29.—On the occasion of the celebration of the ter-centenary of the foundation in 1614 of Groningen university the degree of doctor of geology was conferred upon Prof. David T. Day of the geologic branch of Washington university; doctor of political economy on

## SPEND YOUR VACATION IN ESCANABA

"By the Smiling, Blue, Blue Bay." Longfellow ever praises. A thriving, industrial city, washed on three sides by the waters of Green bay. Cooling breezes all ways—in the midst of numberless charms of bay, lake, river, cliffs, wooded hills and picturesque logging towns. Escape bay fever, seaside parks, outdoor concerts, tennis, golf, bicycling, beach and beach unparaded, trout streams, bay fishing, boating, canoeing, trolley rides, automobilizing, miles of macadam roads. Redpath Chalet in August. Modern hotels, reasonable rates; located on the C. & N. W. and Soo line railroads, up the lake 200 miles north of Chicago. Plan now to come. Write for information at once to Escanaba Men's Association, Escanaba, Mich., Resort Dept. "The Metropolitan of the Upper Peninsula."
