LECLAIRE EXILES TO MEET JAN. 15

Governor Van Sant One of Those Who Will Attend Davenport Session.

An official call has been issued for a meeting of the famous "LeClaire Exiles." The members of the society will convene in Davenport, Jan. 15. President George M. Boyd of Chicago has so decreed.

Last year the president was ill and the meeting was postponed. Captain Walter Blair, George A. Coe and J. A. Hanley will have charge of the arrangements.

Ex-Governor Van Sant of Minnesota has promised to attend. Between 90 and 100 members, representing 13 different states, are expected to be present when the chairs are pushed back and the toastmaster begins, "Ladies and Gentlemen, we have with us this evening..." Mr. Hanley states that the meeting will be held at either the New Kimball or the Hotel Davenport. As an added attraction Mr. Hanley will again read the minutes of the last meeting, which he guarantees will contain "not one word of truth." There are between 300 and 400 LeClaire Exiles, but only 125 of them are active members of the society.

DAVENPORT LADIES NOT HURT IN AUTO ACCIDENT

Four Davenporters narrowly escaped death or serious injury Saturday afternoon when the automobile in which they were riding into that city skidded on the icy pavement of East River street just outside the city limits and rolled down a deep embankment to the L. & I. tracks below. Mrs. Charles T. Kindt and her daughter, Mrs. Caroline M. Fields and two little children were in the auto,

Germans in Trenches Build Splinter Proof Shelter

German officers in splinter proof shelter.

Never in modern warfare have trenches been used to such good purpose as the ones used respectively by the allies and the Germans on the field of action. The Germans have perfected the building and arrangements of their trenches to such a degree that they were able to remain in them, they could do so for months at a time with comfort. The trenches are built three feet deep on a scientific system in parallel lines and flanked by others in which machine guns are concealed. At intervals in the intrenchments there are splinter proof shelters.

an electric, when the machine crashed down the embankment. They regard their escape as miraculous as the electric was almost damaged beyond repair by the force of the plunge.

Aside from a few bruises and scratches none of the occupants was the worse for the narrow escape. All managed to extricate themselves from the wreckage.

Britain's Conscience Fund.

Much more money has been sent anonymously to the British government's conscience fund than to that of the American government. The first recorded payment of this kind was the sum of \$1,800, sent to Pitt in 1789, with a letter requesting him to apply the money "to the use of the state in such manner that the nation may not suffer by its having been detained from the public treasury. You are implored to do this for the case of conscience to an honest man." Nearly every year since then the chancellor of the exchequer has received a certain amount of conscience money. In 1941 the chancellor received \$70,000 from a person who stated that he had engaged in smuggling for many years, and that this sum represented all his profits therefrom. One year the conscience money forwarded by British taxpayers totaled \$80,000.

DAY IN DAVENPORT

Fire Causes \$1,200 Loss.—An overheated furnace caused \$1,200 fire damage to the home of William Cannon, 1736 Grand avenue, Saturday. Partial insurance covers the loss. The blaze had gained considerable headway by the time of discovery. An alarm was turned in, but by the time the department arrived the flames had eaten their way up through the walls and smoke was pouring from the attic. The rooms were filled with smoke and because of this considerable difficulty was experienced by the firemen in getting the blaze under control. Two hours of hard fighting were necessary to smother the flames.

Better Time on the Car Lines.—General

Manager J. G. Hunton of the Tri-City Railway company announced Saturday that beginning Jan. 1 a 20-minute service to Bettendorf and a 10-minute service to the eastern city limits would be inaugurated. The city limits end on the River road near C. T. Kindt's suburban home and includes all the McClellan Heights property. The new schedule will make but a slight change on the Third street line. Hereafter, instead of the cars running through to Schuetzen park, they will stop at the end of Third street. Here they will be met by a "plug" car which will continue to Schuetzen park.

Plow in Winter.—The Davenport

Employment company Saturday sent out a number of teams with plows to break ground for grading operations which were resumed today. The same men who began work the first of last week will be retained until Wednesday night of the present week. Thursday morning a new shift will go on the work.

Accountant to Give Up Books.—Fritz

Becker, expert accountant, has been instructed to surrender the books, papers and correspondence of the Heick-Cline Real Estate company which he has in his possession. The order was signed by Judge Theophilus and filed in district court. This is the first definite step in the receivership and dissolution of the real estate company. When the three principals, the accountant and receiver, Otto Gilbrech, appeared in court for the hearing the previous order of the court for the books was taken up. When the books have been examined by the receiver and the report is made by him other issues in the case will come up for hearing.

Smallpox Case.—Health Officer

Mullen Saturday quarantined the home of H. H. Funk, 329 South Lincoln avenue, a son, Herbert, aged 7, a pupil of Van Buren school, having contracted smallpox.

Accept New Position.—Frank L.

Emery, formerly connected with the Newcomb Loom works, has accepted a position with Dr. J. W. Cooper of the National Life Insurance company and will assume his duties Jan. 1.

Seeks Divorce.—Suit for decree

of divorce has been filed by Anna Terry against her husband, Joseph Terry, on the grounds of desertion. Mary Hansen was granted a decree of divorce from her husband, John C. Hansen, by Judge Theophilus in district court.

Claims Big Sum.—A claim for \$7,500,

which he claims is due him for services, has been filed by I. S. Large against the Register Life Insurance company, in his answer and counter claim of the original suit of that company. In his cross petition he states that he entered a contract with the insurance company on Jan. 6, 1907, as a member of the firm of Large Bros.

By the terms of this contract he was to collect the first year premiums of the company. Several years later, he claims, he contracted to do other work of the company in the field at a re-

muneration set in the contract. He now seeks \$7,500 as the total payment of his claims against the insurance company and asks for interest from Jan. 1, 1914.

LEHIGH VALLEY COAL SALES COMPANY

McCormick Building

Chicago, Ill.

Rich in Carbon

With the exception of the diamond nothing contains as much carbon as coal. The hardness of the diamond is due to its carbon. So also the hardness of coal depends upon the amount of carbon it contains. And the more carbon the greater the burning quality.

LEHIGH VALLEY ANTHRACITE

The Coal That Satisfies

is unusually rich in carbon. This means that its heating power is greater than that of ordinary coal. It leaves less ash or waste matter.

Lehigh Valley Anthracite is cheaper than other coals because it burns cleaner. It gives a more even, more lasting fire.

HOW RESINOL CLEARS AWAY UGLY PIMPLES

It is so easy to get rid of pimples and blackheads with Resinol, and it costs so little, too, that anyone whose face is disfigured by these pests is foolish to keep off with Resinol Soap, or more hot water, or complicated "beauty treatments." See how simply it is done:

Bathe your face for several minutes with Resinol Soap and hot water, then apply a little Resinol Ointment very gently. Let this stay on ten minutes, and wash off with Resinol Soap and more hot water, finishing with a dash of cold water to close the pores. Do this once or twice a day, and you will be astonished to find how quickly the healing, antiseptic Resinol medication soothes and cleanses the pores, leaving the complexion clear and velvety.

Resinol stops itching instantly and speedily heals skin humors. Resinol Ointment and Soap sold by all druggists. For free trial size, write Dept. KK, Resinol, Baltimore, Md.
